Every One Interested

It is very gratifying to note the number of men who have been attracted to our store to learn of the Electrical Washing Machine which we are selling on terms that any one can meet.

When they learn that for 12 cents a month in current consumption they can relieve their wives of the drudgery and slavery connected with doing the weekly wash, they invariably say, "I want that machine."

You, Mr. Man, don't you want your wife to have the best when it costs less to have it?

We still have a few of our little Bake Ovens. Don't fail to get one of these, as they are the most efficient electrical appliance ever put on the market.

Not a Bite of Breakfast Until You Drink Water

Just as coal, when it burns, leaves behind a certain amount of incalculable material in the form of ashes, so the food and drink taken day after day leaves in the alimentary canal a certain amount of indigestible material, which, if not completely eliminated from the system each day, becomes food for the millions of bacteria which infest the bowels. From this mass of left-over waste, toxins and ptomain-like poisons are formed and sucked into the blood. Men and women who can't get feeling right must begin to take inside baths. Before eating breakfast each morning drink a glass of red hot water with a teaspoonful of limestone phosphate in it to wash out of the thirty feet of bowels the previous day's accumulation of poisons and toxins and to keep the entire alimentary canal clean, pure and fresh.

Those who are subject to sick headache, colds, biliousness, constipation, others who wake up with bad taste, foul breath, backache, rheumatic stiffness, or have a sour, gassy stomach after meals, are urged to get a quarter pound of limestone phosphate from the drug store, and begin practicing internal sanitation. This will cost very little, but is sufficient to make anyone an enthusiast on the subject. Remember, inside bathing is more important than outside bathing, because the skin pores do not absorb impurities into the blood, causing poor health, which is the cause of disease. Just as soap and hot water cleanses, wets and freshens the skin, so hot water and limestone phosphate act on the stomach, liver, kidneys and bowels.—Adv.

BE PREPARED TO FIGHT

Nature is always fighting to keep us well. Under normal conditions the forces of health within our bodies keep the disease germs in subjection. They are not expelled entirely but they are kept harmless. Some indigestion in diet and the digestion is upset; overwork or worry perhaps disturbs the nervous system, the blood gets thin and the ever-present disease germs assert themselves. The blood fights the germs' battles. Whenever a wound is received, whenever there is congestion or inflammation, to that point the blood quickly carries the elements needed for repair—if it has them. But when the blood is thin and watery it lacks these elements itself.

Dr. Williams' Pink Pills for Pale People is a tonic that supplies the blood with the elements needed to build up the tissues, to repair waste, to revitalize nerves, to stimulate digestive action, to burn up the poisons in the blood. In this way, by building up the blood, they are useful in rheumatism, neuralgia, sciatica, lumbago, neurasthenia, nervousness, St. Vitus' dance, and in anemia in many forms. The free book "Building Up the Blood" tells all about the treatment. Send for a copy today to the Dr. Williams' Medicine Co., Schenectady, N. Y. Your own druggist sells Dr. Williams' Pink Pills.

HOT TEA BREAKS A COLD—TRY THIS

Get a small package of Hamburg Breast Tea, or, as the German folks call it, "Hamburger Brust Thee," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teaspoon full at any time. It is the most effective way to break a cold and cure grip, as it opens the pores, relieving congestion. It also loosens the bowels, thus breaking a cold at once. It is inexpensive and entirely vegetable, therefore harmless.—Adv.
