IN MEMORIAM

IN sad and loving remembrance of our dear parents, who departed this life six years ago.

Two precious ones from us have gone Two voices we loved are stilled. Two places are vacant in our home Which never can be filled.

Although father is absent from us, And six years have fled Since we stood by his bed in sorrow And knew that our father was dead.

Mother was tired and weary, Weary with aches and pains, Put by the needle and rocker, She will never need them again.

Rumored Shortage of Dyestuffs Is Confirmed

New York, Feb. 11.—The statement of Dr. Thomas H. Norton, dyestuff specialist of the Department of Commerce, that 15,000 tons of colors were being made in the United States, about half of the consumption in this country before the war, is contradicted in a report by Dr. J. Merritt Matthews, chemical expert of the textile industries. This report has been embodied in a letter to Secretary of Commerce Redfield and is signed by all the industries affected by the dyestuff shortage. Dr. Matthews concludes from his investigation that only 6,500 tons of dyestuffs are now produced in this country and that this amount is composed of only a few colors, mostly black dyes. Of the majority of colors used in wool, silk and cotton dyeing absolutely none is being made in the United States.
