This is the last midweek game the Independents will play at home during the present season.

## WELLY'S CORNER

Al Lawson is still fighting to put the Atlantic League on the map. One thing he knows something about and that is publicity. At intervals he breaks into print with glowing stories of what his league will be. To-day he tells the baseball world that he will go as far north as Auburn, N. Y., to get a team and that he has eight clubs signed up.

What baseball fans cannot understand is why the newspapers in the towns mentioned by Lawson are not enthusiastic over the prospects of an outlaw baseball organization. So far everything that has been said about the Atlantic League has been said by Lawson himself.

Jimmy Sheppard, who is trying to get a New York League franchise for Reading, was in Harrisburg yesterday. He appears to be more encouraged over the prospects for the coming season. Sheppard has been assured by the business men of Reading that they prefer to be on the Farrell circuit. It is understood that a conference will be held this week to complete the new baseball association.

Players in the major leagues who have contracts for two or more years are happy. They will not suffer any reduction this year. However, the deal will be the last season for record salaries. It will not be long until the game is down on a business basis, with salaries what they were when the national game was prosperous.

The Telegraph tossers play at McSherrystown to-night. The deal five has been winning from all York county towns and expect another victory. Plans are still under way for a game with the local Independents. Basketball fans would like to see a contest between these two teams.

Yale students will have no more sleepless nights, if reports are true. Announcement was made last night that C. R. Black, captain of the Yale football team, had passed the necessary examinations and received special mention for his averages. This ought to put an end to all rumors that Black would resign.

As a result of the games played in the Central Pennsylvania Basketball League during the past week York High, leaders of the circuit since its inception, was ousted from that position and the leadership is held by Reading. The victory of the Berks county team over the Tech five in this city and the defeat of the York crew by Steelton on Friday night was responsible for the change.

Averages in the Casino Bowling League show Barnes, of the Senators, in second place. He is closing up on Montanary, the Crescent leader. The latter has an average of 192, while Barnes made 188. Each played 54 games. This series is nearing the time for final honors and more new records are looked for at the close.

## NINETY-SEVEN ELK FOR THIS STATE

### They Are Being Distributed by the State Game Commission This Week

The State Game Commission to-day announced that ninety-seven elk had been brought to this State from the Yellowstone Park to be placed in the State's game preserves. The animals were brought by Howard Eaton, formerly of Pittsburgh, who has taken personal charge of the arrangements.

Twenty-five of the elk were placed on the State game preserve in southeastern Potter county; twenty-four on the preserve in northwestern Cameron county; twenty-five on the preserve in northern Carbon county, and ten on the line between Forest and Warren counties.

Seven have been shipped to Altoona to be placed with six elk donated by Mr. Kazmaier and will be distributed by the Blair county sportsmen. The remaining six have been added to the herd in Monroe county which was given to the State in 1913.

There is a closed season on elk until 1917.

The elk passed through this city in express cars, one car going north to Potter and Carbon counties.

Dr. Joseph Kalbfus, secretary of the State commission, is giving personal attention to details of placing the elk and will keep close watch on their condition.

In a short time it is expected to place a number of deer on State reserves. These deer are now being secured.

## Buy GOOD Coal & LESS Coal

The better the coal you buy—the less you have to buy—and the less you have to buy, the lower becomes your aggregate coal expenditure.

Since all coal—good, better and best—costs the same per ton, don't you think it the part of wisdom to get the best for your money, and keep the total expenditure down?

Buy Montgomery Coal—its quality has been known for years—there is none better.

### Robertson to Succeed K. of K. as the Director of War

London, Feb. 15. — Great Britain's war operations will soon be under the active direction of Sir William Robertson, now chief of staff, according to widespread rumors.

London generally accepts the report that Earl Kitchener will be superseded as Secretary of War by Lord Derby.

The London Daily Sketch says Sir William Robertson will receive powers which will insure him freedom from interference, except from the Cabinet as a whole. It adds that Earl Kitchener will undergo duties of a highly responsible character elsewhere.

Some believe this portends the departure of the present Secretary of War for Saloniki, where immense operations are said to be impending, or for a field of operations even further East.
