Mr. E. J. Stackpole:

Dear Sir:—

Herewith we send you a tentative plan entitled "Suggestion for site of proposed Harristurg High School."

There is no intention whatever of saying how large the building should be or how much space should be used for any one purpose. The plan is only to show the possibilities of this location.

to show the possibilities of this location.

Notwithstanding any claims to the contrary, this site is centrally located, as a glance at the City Map will show. So far as street car service is concerned, there can be no question about it.

It is probable that the more than thirty acres contained in this plot can be purchased for the same amount of money that any one acre of land in the built-up portion of Harrisburg can be acquired. In this connection we wish to call attention to the Froebel school system for which this location is certainly most admirably adapted. Yours very truly,

Millions of men and women to-day know that it is needless to have a stomach. A little Diapepsin occasionally keeps the stomach regulated and they eat their favorite foods without fear.
