

CENTRAL READY FOR STEELTON---TECH MEETS YORK---SPORT NEWS IN GENERAL

CENTRAL IN FORM FOR BIG BATTLE

First Game Tonight in Scholastic Triangle Series; Steelton Strong Contender

Central will meet Steelton to-night on Felton Hall floor. The local tossers after a week of hard work will go into the game confident of a victory. To win the game to-night will put Central a stronger contender for pennant honors in the scholastic series. Steelton has been a big factor of late in taking games from the stronger teams.

The contest will be the first between the local fiver and Steelton and much interest is manifested. Steelton's victory over York last week has given Coach Gaffney's team a big boost and the victory for either team to-night will not be won without a fight. The line-up will be:

Table with 3 columns: Name, Position, and other details for the Central team.

Bits From Sportland

The Salem Lutheran basketball team of Oberlin will to-night entertain the Y. M. H. A. tossers in the first of a series of games.

The game between the Hasset Girls and the Temple Girls, of Philadelphia, scheduled for to-morrow night, has been postponed.

The White Sox offer Joe Jackson for Fritz Marschel.

The schedule makers of the American League were busy until late last night. The dates show no changes over those of a year ago as far as division of prize days.

REFEREE FOR WILLARD-MORAN FIGHT

CHARLEY WHITE IN TWO POSES IN THE RING

These photographs show Charley White, referee for the Willard-Moran ten-round bout, promoted by Tex Rickard, in action in the ring. One picture shows his usual attitude when watching the fighters and the other shows him counting out the man who has gone down. In his long career White has counted out many, but he never before had an opportunity to count out a man who was fighting in a contest which cost the promoter \$2,333 a minute, as this one will. The men will battle 20 minutes—or less if one is knocked out—for \$70,000.

ELIZABETHVILLE WELL TO FRONT

[Continued From First Page.]

small way the industriousness of the borough's citizens in their efforts to boost the community. Elizabethville was laid out in 1817 and next year the century mark of its beginning will be reached. Residents of the town are already planning for a big celebration and meetings are now being held to make the necessary arrangements. The celebration will likely cover a period of a week during which there will be booster parades and receptions for homecomers and visitors.

Big Wagon Works One of the largest industries in Elizabethville is that of wagon building and the Swab Wagon Works, known all over the East, is located here. There are about sixty men given steady employment at this plant and for the past fifty years, farm, spring and heavy wagons have been manufactured. At the present time the company is turning out eight and ten open for two years before the vehicles are finished in every detail here and only the best quality of material is used in the manufacture. The Swab plant is one of the very few establishments in the country using air-dried lumber in the construction of wagons. Almost all of them dry the timber artificially but the local concern allows all of its lumber to lie in the open for two years before attempting to use it. At the present time there is a pile of lumber at the Swab plant estimated to be worth \$50,000. There are a number of other parts on Swab wagons which are entirely different from those on other makes. Among those is a chilled axle box, the use of which permits absolutely no wear on the axle. The boxes and especially made axles are turned out at the company's own foundry and machine shop. The company also has its own spoke and tongue department.

Close to the wagon works is the Swab carriage Company, which is not associated with the wagon plant. For many years the company manufactured carriages, but with the building of automobiles, the carriage business took a fall and the demand de-

creased. The company, at the present time employs nine men, and although some carriages are made, the organization is turning toward the automobile trade and specially designed bodies for cars are produced. The company has already made a number of bodies for sight-seeing cars.

Has Foundry Company Another concern in Elizabethville, which carries the name Swab with it, is the Swab Foundry Company, which was established by Isaac Swab in 1873. The plant, with its six men, turns out castings for various uses, chilled plows, troughs, machine castings, the heaviest and the other shows swings and step ladders. Mr. Swab worked alone in the plant in its beginning but later when there was a larger market for the products of the plant, he added more help and built a larger building. Now the force is kept busy at all times turning out castings which are used all over Pennsylvania.

The Valley Shoe Company, which was organized with local capital, was established in 1912 and since that time infants' and children's turn shoes have been manufactured in Elizabethville. The company now employs more than fifty persons and with this force about 500 pairs of shoes are being turned out daily. C. E. Culp is superintendent of the plant. Because of the big business the company is enjoying and the large number of orders which have been received, the organization is considering making some improvements which will include the building of an addition to the present structure. When this is done the present working force will be increased.

Shirt Factory, Too In Elizabethville, too, there is a shirt factory and at this plant sixty girls and men are given employment. The plant is known as the Elizabethville Shirt Factory and has been in operation for about eleven years. In the beginning only seven persons were employed, but business increased and the working force was enlarged. At the present time there is a cry for help at this plant and the company notices posted in all parts of the town asking for girls. Twenty-five girls would be given employment to-day if they would apply at the factory. The factory's output of 750 dozen shirts a week, is shipped to a New York jobbing house.

The Enterprise Hosiery Mill is another important industrial plant here and almost forty persons are given employment. The concern turns out men's and women's seamless cotton hosiery and each week hundreds of dozens of pairs of stockings are produced. Stanley Tschopp is the superintendent of the mill which was first operated in 1901. In the plant are fifty-seven knitting machines, seven looping and seven ribbing machines.

A trip through Elizabethville, however, is not complete without a visit to the workshop of C. W. Enders, which is located at the rear of his home. Mr. Enders works in the place along during his leisure hours and produces some of the prettiest styles of grandfathers' clocks it is possible to find anywhere. Mr. Enders is a carpenter by trade but there are really few men who can turn out the elaborate work he is able to show. Fancy scrolls, pillars and faces are produced in the wood so that the clock cases which he finishes compare favorably with any in the country. Mr. Enders also has a way of connecting a set of chimes to the clock machinery so that every fifteen minutes a melody is played on the chimes. Recently Mr. Enders shipped one of the most beautiful clocks he ever made to Congressman Kreider at Anville.

BRIGGS MAY NOT PLAY WITH YORK

Star Forward Is Sore Over Calldown by Coaches; Tech Has Hard Game

Unless "Grasshopper" Briggs recents in the meanwhile, the York High five will be without the services of one of its star forwards in the game against Tech to-night at the auditorium. The snappy little forward became peeved last week at a remark of the coaches that was meant to improve the play of the little fellow. While not a heavy scorer, Briggs has more assists than any other player in the league and it was his fast floor work that made possible most of the goals tallied by Greenawalt, the star center. In the two games, Greenawalt made but one goal from field, and it looks as though he missed the services of Briggs.

Johnny Maloney Leaves; Will Fight in Denmark

Philadelphia, Pa., Feb. 17.—The Oscar II, which carried the Ford peace party to Europe several months ago, will carry another party across the broad Atlantic ocean, but this party will be sailing for a fight and not halt any wars. Johnny Maloney, the local favorite, representing the St. Rita's Catholic Club, will be one of the party of three. Maloney won the 115-pound amateur championship of America at San Francisco last May, was chosen to represent the United States in the bantamweight division of the international amateur boxing championships, to be held in Denmark early in March. The other two lads who will accompany Maloney are William Spangler of New York, a middle and lightweight, and John Karpinski, of Cleveland, a welterweight. The trip will last fully three months. After the championship bouts in Denmark, the three youngsters will visit Norway and Sweden where they will take part in exhibitions.

Anville High Wins Game; Defeat Maytown Tossers

Anville, Pa., Feb. 17.—Anville High's basketball team added another game to its long list of victories yesterday afternoon, winning from the Maytown High team by the score of 27 to 13. The second season for the Anville five and they have won twelve of their games and lost but three. The line-up: Anville High, Hershey, Light, Gantz, f. Longnecker, f. Light, c. Crabb, c. Stanley, g. Drace, c. Berry, g. House, g. Field goals, Gantz, Herr, J. Light, Hershey, 2. Longnecker, Crabb, Drace, House, f. Goals, Herr 5, Longnecker, Referee, Greenawalt. Time of halves, 20 minutes.

Howard Saylor Brought Back to Perry For Trial

New Bloomfield, Pa., Feb. 17.—Sheriff D. L. Kistler and Railroad Officer C. E. Harbaugh, of Newport, brought Howard D. Saylor from Pittsburgh on Thursday night. Saylor and Miss Stella May Harter were taken into custody at Pittsburgh Saturday night, having left this county almost a month ago, traveling together as man and wife. Saylor claimed at Pittsburgh that the girl was his daughter, but the girl said she was his wife. A warrant had been issued some time ago for Saylor's arrest, but he was not located till Saturday at Pittsburgh. Saylor has a wife and two children whom he deserted several years ago, and who make their home with Mrs. Saylor's father, Gideon C. Palm, at Bixler, Pa. Miss Harter was brought along from Pittsburgh and is home with her parents, who live four miles from Loysville, Pa.

Basketball Contests For Local Tossers

TO-NIGHT Harrisburg Independents vs. York, at York, Tri-City League game. Royal A. C. vs. Harrisburg Y. M. H. A., on Technical high school floor, evening.

INDIANS TO PLAY LOCAL TOSSERS

Entire Carlisle Squad Will Come to Harrisburg Saturday Night

For the first time in a decade, a basketball team representing the Carlisle Indian School will oppose a representative Harrisburg team, on Saturday night the Carlisle Indian tossers will line up against the Harrisburg Independents. This game has been secured for local fans through the efforts of Leo Harris, who assisted Glen Warner for several years in coaching the Indian football teams. A Rare Attraction As a rule, the Carlisle Indians play only college teams, and very few Harrisburgers have seen them in action. They will bring their entire basketball squad of ten players to Harrisburg Saturday.

The locals are in good condition after their game with De Nori Tuesday night. Captain McCord is pleased with the passing in that game, especially that shown in the second half. To make a good record this season the Independents must play their best article of ball, for starting with Trenton on the 26th, the balance of the schedule includes league teams.

Last Night's Bowling Scores

Table of bowling scores for CASINO INDEPENDENTS, P. R. R. Y. M. C. A., ACADEMY (Duckpin), STATE PRINTERY (Duckpin), and INTERNATIONAL.

"SIXTEENERS" TO MEET AT MOUNT JOY FEB. 22

The twenty-ninth annual reunion of members of the Sixteeners Association will be held in Mount Joy February 22. A committee is now busy completing plans for the annual pilgrimage to the historic old Lancaster county town, and indications point to a larger attendance this year than ever before. Charles Gearhart, Philadelphia, is secretary of the association, and the other officers include: President, W. H. Kiers, Philadelphia; first vice-president, Mrs. A. B. Myers, Philadelphia; second vice-president, Mrs. Kate Dewart, Lancaster; treasurer, William E. Bender, Mount Joy; financial secretary, Thomas D. Hooper, Philadelphia; recording secretary, Jacob A. Gramm, Harrisburg; chairman executive committee, C. Day Rudy, Harrisburg.

WELLY'S CORNER

George Cockill was in Harrisburg to-day. He had little news to give out, but was encouraging in his statements. There is no hitch in the New York State League deal except Reading. Once that city is assured, work will start to get the new Harrisburg association in operation.

Manager Cockill is of the opinion that Harrisburg would get along without Reading, but J. H. Farrell, the league president, wants two towns. Sheppard is working hard to get an option on a field. He has the necessary backing in sight and would like to get busy signing up players.

Arthur M. Milburn was yesterday unanimously elected captain of the Yale baseball team. He is one of the players declared ineligible because of his summer baseball experience. It is said, however, that the new captain can direct the team from the bench and is a valuable man in handling college players.

At to-day's meeting of the American League the schedule for the coming season was adopted. It calls for the usual number of games. The season opens April 12 and will close October 4. The western teams come east in May and will wind up the season in August, the eastern teams going west for the closing contests. Each team will average twelve Saturdays at home.

Baseball Magnates Meet; Federals Will Pass Out

New York, Feb. 17.—With meetings of the American League and the National Commission in this city to-day and Friday, and a special session, called by President Gilmore, to wind up the affairs of the Federal League, at Chicago on Saturday, the annual winter season devoted to major league baseball legislation will probably close this week.

As was the case when the National League had its session here last week, the American League club owners will be called upon to welcome new representatives of two clubs. President Ball, who recently purchased the St. Louis Browns, will make his formal entry to the junior major league and the principal stock owner of the Cleveland club will in all likelihood be on hand for a similar purpose.

The National Commission session promises to be a very busy one. Several tangled skeins of the Federal League yarn have to be unraveled, not the least being the Baltimore difficulty, in which President Barry of the International League, is playing a leading part.

WILD DOGS DEVOUR CALVES

Whitesville, Del., Feb. 17.—Samuel Gordy, a farmer, living near Cypress Swamp, discovered a pack of wild dogs devouring his calves, and drove them off with a pitch fork.

W. C. T. U. TO MEET

Lemoyne, Pa., Feb. 17.—This evening the W. C. T. U. will hold its regular monthly business meeting at the home of Mrs. B. F. Anderson in Hermsman avenue.

The western teams divide the holidays and in the east Washington, New York and Boston will have the big holidays.

The Harrisburg independents lost to York five last night, score 16 to 10. The local tossers still hold the cellar position in the tri-city race. The White Roses this year have been cleaning up teams in Central Pennsylvania. Bumbach, a Middletown boy, was a big star in last night's game. McCord scored all the points for Harrisburg.

Black Gunboat Smith, the muto lightweight, is in Harrisburg. He wants to meet all comers. This boy hails from Baltimore and has been busy taking care of engagements all season. He has a reputation for delivering the goods.

Deals are still on in the major leagues for clubs and players. Cleveland interests last night passed into the hands of Edw. B. Johnson, president of the American League. He will hold it pending a sale to other interested who are raising a fund. The price is said to be \$500,000.

Jess Willard has agreed to fight on March 25. Physicians say he is not in shape to train and that hard work at this time might injure the champion's future chances. Willard was willing to hand over the forfeit for failing to keep his contract to fight March 8, but Moran refused to take the money.

The corps of students that will take the part of ushers, ticket takers, program sellers, etc., at the in-door meet to-morrow night was officially announced to-day at the Harrisburg Academy.

The ushers and all other helpers will be dressed in white flannels and blue coats, and will help to liven up the meet in good measure. There will be a head usher with twelve assistants, two ticket takers and six program sellers, according to Mr. Omwake. The programs which will be sold for ten cents each promise to have a big sale, and the following boys will be kept busy taking care of them: William Abbott, James Eby, Frank Leih, Walter Galtner, Gilbert Bailey, Fred Stone.

The ushers will be John Hart, Onofre Castells, Mercer B. Tate, Jr., George Shreiner, Robert Shreiner, Carroll Craig, Southard Parlor, George Doehne, George Jeffers, Max McLaughlin, George Orendorf, William Bruce and John Shaw. George Bailey and Edward Jennings will take tickets.

John Harris Lodge of Pythians Plan a Big Time February 21

John Harris Lodge, No. 192, Knights of Pythians, next Monday evening will confer the "third rank" on a big class of candidates. The exercises will be held in the lodge room in Union Square.

Many Pythians from this section will be guests of John Harris Lodge, and among the out-of-town delegations will be a big party from Williamstown. The Williamstown Pythians will accompany the degree team of the mining town organization, which will assist John Harris Lodge in initiating the new class.

Come on and Belong

Fall in line with Tuxedo, and you and "Tux" will never fall out. Join the army of Smokers of the Sunny Smile, who have found the world's top-notch tobacco and are spreading the good news in puffs of pure pleasure.

Tuxedo

The Perfect Tobacco for Pipe and Cigarette

The original "Tuxedo Process" turns out the finest finished product in the smoke-world. Tobacco without one particle of harshness or bite in it—so soothing and mild and pleasant you never want to stop smoking it, and never have to. It's all-day-long enjoyment with Tuxedo, from the first bracing smoke in the morning to the last restful pipe at night.

You try it for a week—in pipe or cigarette—early and often. Stack it up against the best you ever smoked—and you'll find something better in Tuxedo.
