

**FRESHEN UP!
GIVE YOURSELF
A REAL CHEW**

the Juicy Sweetness of "American Navy" Puts More Snap Into a Man

BIG VALUE—RICH CHEWING

A sweet, mellow chew of good tobacco is wonderfully refreshing. But the tobacco must be in plug form to give you the utmost of wholesome, healthful enjoyment.

The rich, natural juices pressed into a golden-brown plug taste so deliciously good that it puts new snap into you.

American Navy plug is the distinctive chew. It gives you the same type of leaf as the best "scrap," but it gives you whole leaf instead of "cuttings," and it's hard-pressed instead of loose-packed. That means more sweet, mellow flavor and more genuine tobacco satisfaction.

The leaf for American Navy is more carefully selected and the plugs are more carefully made than in the case with many higher-priced tobaccos.

You actually get more than your money's worth of chewing enjoyment in American Navy.

You'll know this for yourself soon as you get started chewing American Navy, because its rare distinctive flavor gets right next to your tongue the very first chew—and stays there.

Try a big cut of American Navy and you'll wonder how you ever got along without it. In 5c and 10c cuts.

MURDER PLEAS ARE REFUSED

March and Pennington Will Go to the Electric Chair Within Next Week

The State Board of Pardons to-day announced that it had refused to grant a rehearing on the applications for commutation of the death sentences of George H. March and Roland S. Pennington, Delaware county, and they will be electrocuted next week unless a further respite is issued, which seems unlikely.

March and Pennington were convicted two years ago of the murder of S. Lewis Pinkerton, a Delaware county farm superintendent, and the Supreme Court declined to interfere with the verdict. Determined efforts to secure commutation have been made before the Board of Pardons. March was refused recommendation of mercy May 26 last and Pennington on October 26. Since then three applications for rehearing have been refused and in order to allow their cases to be presented three respites have been issued. The Board of Pardons refused a rehearing last month and the governor stayed the execution after pleas had been made to him. The last application for a rehearing was heard yesterday and extended arguments made.

The men are now in the Western Penitentiary.

GIFT FOR BRIDE AFTER TEN YEARS' GIVE HER TIN BOUQUET

Among the many remembrances received by a wealthy New York woman on the occasion of her tenth wedding anniversary, which was recently celebrated at one of the downtown hotels, was a tin bouquet. It was composed of divers kitchen utensils interspersed with small amounts of gossamer and tied with flowing white ribbons. Tea strainers, egg beaters, cake turners, soap buckets, tin spoons, large spoons and small spoons, with many other things, were represented in the collection. The idea was so well carried out that the assorted bouquet proved to be one of the most talked-of gifts of the evening.

DARKEN GRAY HAIR, LOOK YOUNG

Your Gray Hair Changed to an Even Dark Shade by Q-Ban. Harmless—No Dye

You can easily turn your gray, lifeless, dry, faded or streaked with gray hair beautifully dark and lustrous if you'll apply, a few times, Q-Ban Hair Color Restorer to hair and scalp like a shampoo. Q-Ban is a harmless, ready-to-use liquid, not sticky, and darkens all your gray hair so evenly that no one can tell it has been applied. Q-Ban is not a dye, but naturally changes gray hair and entire head of hair to that soft, even, dark luster, fluffiness, beauty and abundance which make the hair so fascinating and attractive, besides preventing dandruff, itching scalp and falling hair. Guaranteed to satisfy or money refunded. Only 50c for a big 7-oz. bottle at Geo. A. Gorgas, 16 North Third St., Harrisburg, Pa. Out-of-town folks supplied by parcel post.—Advertisement.

WAITING TO PAY WAY IN COLLEGE

Princeton's Student Self-Help Bureau Aids Scores of Youths

WORKING WAY THROUGH

How Nassau Underclassman Pieces Out His Collegiate Pocketbook

Special to the Telegraph

Princeton, N. J., Feb. 17.—The establishment of student waiters in the Princeton University Commons is now, according to the college authorities, an assured success. The students who have their meals at "Commons" have received the innovation naturally, the student waiters are earning a considerable part of their college bill, and the university prides itself on having a better dining service than ever before. All this has been done under the direction of the college bureau of self-help which occupies what is probably a unique position in its particular field.

Unlike most American universities Princeton is not situated amid the business activities of a large city and the problem of financial aid for the student is thus somewhat harder to solve. It is seldom that the Princeton student is able to pay the entire bill out of his own earnings, but there are about 250 students enrolled with the student bureau of self-help. Practically all these are partially self-supporting and in their efforts they have exhausted practically every money-making opportunity that the town or the university can offer.

While the average man probably profits much through tutoring, catalog work in the library and similar pursuits there are great many notable occupations, some of which return a fair salary. At present some of these are managing boot-black parlor, acting as watchman, playing the piano at motion picture houses, tending furnaces, conducting a student newspaper, etc.

George M. Galt, a Princeton graduate of twenty years ago, has recently assumed charge of the self-help bureau. Mr. Galt takes the position that the student should work for all he gets and American colleges practice a great deal of charity. Practically all these are to the poor boy, when all they have to offer is partial help. He says: "There are too many young men watering their universities to-day who feel that a soft job with big return awaits them simply because they elected that particular college. Our colleges need very much to tell the boy that not more than one college is his choice, that particular support himself wholly and continue his studies decently at the same time. Experience has shown me that to make anything of a college course the average boy must have at least half of his living expenses met by some means where he can obtain that much money for use during his Freshman year."

THE USE OF UTENSILS

"Fine cooking depends much on the judicious use of utensils. One celebrated chef was devoted to the use of sieves, and visitors admitted to his kitchen gazed awestruck at the number of sieves of every imaginable shape and every possible degree of fineness. Such ideas may be ridiculed as "fads" but they prove at all events an attention to detail without which there can be no good cooking. It is very little additional expense to a kitchen outfit to have proper skimmers, ladles, long spoons, measuring cups, funnels, and yet they make a great difference in the accuracy of the work. All these implements are now made in enameled ware, which much simplifies the care they need to be kept in good order. It also insures the best results for the cook, as these spoons, ladles and skimmers can be used with perfect safety in acids and will not darken any sauce, however delicate.

TELLS CHARACTER OF WOMEN BY HAIR

Novel Method Adopted by Enthusiast on Hair Culture Causes Discussion

Show me a woman with fascinating hair, an immaculate scalp free from dandruff and an abundance of her own hair, and I can usually show you a careful woman with a home spotlessly clean and a husband whose life is one of comfort and contentment.

On the other hand—well, the less said the better. Of course, there are exceptions that prove the rule, said the speaker, who by the way is a man that conceived the idea of producing a beneficial preparation for women's hair—one combining ingredients that not only make it radiantly beautiful and lustrous but also keep it cool and invigorates the hair roots so as to promote an abundant growth of healthy hair and at the same time banishes every trace of dandruff.

So uniformly successful is this delightful preparation now known as Parisian Sage, that there is probably not one druggist in the United States that does not guarantee it to give the fullest measure of satisfaction as money back. H. C. Kennedy has scores of women they supply regularly with Parisian Sage, and the cost is trifling.

THEATRICAL DIRECTORY

ORPHEUM—All this week, with daily matinees, "The Birth of a Nation"; Monday evening, February 21, "Maid in America"; Tuesday matinee and evening, "Potash and Perlmutter"; MAJESTIC—Vaudeville and Motion Pictures.

Motion Picture Houses

COLONIAL—"The Conqueror." FAMILY—"Officer 666." REGENT—"The Immigrant." VICTORIA—"The Island of Surprise."

THE PLAYS AND PLAYERS

Charles Clary, who has been with Triangle First Arts, has transferred to the Lasky organization. He will be seen supporting Blanche Sweet in her second production, "The Immigrant," under the direction of William C. De Mille.

Mr. and Mrs. Sidney Drew, funmakers until recently under the Viagraph banner, have gone over to Metro. It is announced that their joint salary will be \$30,000.

Charlie Chaplin, according to latest advices, will go into the business of producing his own films. He will be associated with him, but just how they will operate has not been disclosed.

Since William Fox has invaded Jamaica to film a Kellerman feature, it is believed that the expenditures there will be made for it has averted a financial panic on the island.

LOCAL THEATERS

"The Birth of a Nation"

Harrisburg is surely awake to the fact that the Griffiths mighty spectacle, is in their midst. The Orpheum Theater is the regular place this week, and there is no mistake about it. This wonderful spectacle is all that has been said of it. The sympathy of two of the leading musicians is one of the leading features, and lovers of music enjoy a treat never before experienced. The Orpheum next Tuesday, after a short rest, will be seen twice to-day and to-morrow. There will be a special matinee Saturday morning, at 10 o'clock for which seats are now selling.

"Potash and Perlmutter"

Theatergoers will have the opportunity of welcoming two old friends when "Potash and Perlmutter" come to the Orpheum next Tuesday, after a short vacation "Abe" and "Mawruss" are ready to resume their attack on the ills that beset the hearts of the war gloom to dementia Americana.

"Maid in America"

The New York Winter Garden spectacle "Maid in America," said to be the greatest and best of the entire series, comes to the Orpheum next Monday evening. One mammoth stage setting, showing an ancient Egyptian garden near Alexandria, form the picturesque background for the "Ball of Color and Motion," and a travesty of "Anthony and Cleopatra," in which the members play the leading roles.

Fun is the main idea throughout the revue and each scene is interspersed with the best of the latest vaudeville successes of an infinite variety. The Winter Garden's chorus of six girls will be the special matinee Saturday evening number of "Made in the U. S. A."

Florence Moore, credited by many able critics as the world's greatest comedienne, is featured at the head of the company of 125.

The Orpheum management declares "Maid in America" to be the largest and most expensive theatrical amusement on tour, the present season.

Mrs. Patrick Campbell

The coming of Mrs. Patrick Campbell to the Orpheum next Wednesday, matinee and evening, is looked forward to.

Uncle Sam Tests Out His Newest Submarine

Tests which apparently proved very satisfactory were recently made in Cape Cod Bay, off Provincetown, Mass., with the M-1, the latest and largest of the United States Navy's submarines. The boat has a guaranteed cruising radius of 5,000 miles and is said to be capable of covering a 5,000-mile course without stopping to replenish either its fuel or supply stores. After one of its early trials, during which it spent four hours in a choppy sea, it was declared by its commander to be the best submarine flying the American flag.

The M-1 represents the first of a new type of craft. It has an over-all length of 185 feet, is capable of maintaining a surface speed of slightly more than 18 miles an hour, is designed to dive 150 feet with safety, and can remain submerged for a period of 72 hours. It is armed with four torpedo tubes and a deck gun.

The engines are of the Diesel type, but have been developed in this country and modified in an attempt to overcome the faults found in those of foreign origin used in the European navies. The two engines together develop approximately 900 horsepower, while the electric motors which drive the craft when it is submerged give about 700 horsepower. The arrangement of the boat differs somewhat from the Holland boats and embodies a new form of hull construction.

Engine Needed Water Tower in Big Hurry

An Illinois railroad was in a hurry for a water tower at one of its small town stations recently, says the February Popular Mechanics Magazine. Inasmuch as the ordered tower persistently failed to arrive, officials felt it necessary to use emergency means. An empty coal car standing on a side track was seized upon, robbed of its trucks, and elevated to the top of a tower erected alongside the roadbed. The elevating process was carried out with the help of jacks, the ties forming the tower being placed beneath the car as fast as raised. Cracks in the sides and bottom of the improvised tank were caulked, and a newly erected pumping station speedily filled the interior with the much-needed water. The odd station has been faithfully supplying passing locomotives ever since.

England Sends Out SO S For Telescopes

The British government has recently repeated its former request for the gift or loan of telescopes that can be used with the batteries at the front. The appeal to the public says that telescopes on stands, deer-stalking telescopes, good pocket telescopes—in short, anything that is not a toy—will be accepted. Astronomical eyepieces not wanted for service will be removed and carefully numbered to correspond to the instruments from which they are taken, so that eventually the instruments will be returned to their owners intact.—From the February Popular Mechanics Magazine.

AMUSEMENTS AMUSEMENTS

This

distinguishes the BEST from the REST

YOU generally find out about the quality of motion pictures after you have paid your money. You should know about them before you take your seat. Here's how to identify at least one kind of high class pictures—

Paramount Pictures

Look for the Paramount trademark in the theatre lobby or in the amusement columns of your local paper.

Look for nationally known players in the productions of **The Famous Players Film Co., Jesse L. Lasky Feature Play Co., The Oliver Morosco Photoplay Co., and Pallas Pictures.**

Look for the best in literature, music and drama presented on the screen at ten to fifty cents—and there you have Paramount Pictures.

If Paramount Pictures are not shown in your neighborhood ask your favorite theatre to get them.

URIC ACID SOLVENT

50 Cent Bottle (32 Doses) FREE

Just because you start the day worried and tired, stiff legs and aches and muscles, an aching head, burning and burning pains in the back—worn out before the day begins—do not think you have to stay in that condition.

Those sufferers who are in and out of bed half a dozen times at night will appreciate the rest, comfort and strength our medicine gives. It is every form of bladder trouble, scalding pains, or weakness, its action is really wonderful.

Be strong, well and vigorous, with no more pains from stiff joints, sore muscles, rheumatic suffering, back, or kidney or bladder troubles.

The Williams' Treatment conquers kidney and bladder diseases, rheumatism and all uric acid troubles, no matter how chronic or stubborn. If you have never used it, try it at once. In payment, we will give one 50c bottle (32 doses) for your own use free. Contains no alcohol or habit-forming drug. Does not affect the heart.

Send this notice with your name and address, and we will help pay distribution expenses, to The Dr. D. A. Williams Company, Dept. 1363E, General P. O. Block, East Hampton, Conn. You will receive by parcel post a regular 50c bottle (32 doses), without charge and without incurring any obligations. One bottle only to a family or address.—Advertisement.

Send for This Motion Picture Magazine

Send 10 cents for a three months' trial offer of *Picture Progress*, a magazine filled with stories, photos, questions and answers and articles by and about your favorite Motion Picture Players. Address your letter to Department C-18.
