Ends Dry, Hoarse or Painful Coughs Quickly

A Simple, Home-Made Remedy, Inexpensive But Unequaled

The prompt and positive results given by this pleasant tasting, home-made cough syrup has caused it to be used in more homes than any other remedy. It gives almost instant relief and will usually overcome the average cough in 24 hours.

Get 2½ ounces Pinex (50 cents worth) from any drug store, pour it into a pint bottle and fill the bottle with plain granulated sugar syrup. This makes a full pint—a family supply—of the most effective cough remedy at a cost of only 24 cents or less. You could buy as much ready-made cough medicine for \$2.50. Easily prepared and never spoils. Full directions with Pinex.

The promptness, certainty and ease with which this Pinex Syrup overcomes a bad cough, chest or throat cold is truly remarkable. It quickly loosens a dry, hoarse or tight cough and heals and soothes a painful cough in a hurry. With a persistent loose cough it stops the formation of phlegm in the throat and bronchial tubes, thus ending the annoying hacking.

Pinex is a highly concentrated compound of genuine Norway pine extract, rich in gualiacol and is famous the world over for its splendid effect in bronchitis, whooping cough, bronchial asthma and winter coughs. To avoid disappointment in making this, ask your druggist for "2½ ounces of Pinex," and don't accept anything else. A guarantee of absolute satisfaction, or money promptly refunded, goes with this preparation. The Pinex Co., Ft. Wayne, Ind.

Sunshine Girls Give Leap Year Party For Young Men

Elizabethville, Pa., Feb. 17.—The Sunshine Girls of Prof. C. M. Weigle's Bible class of Salem Lutheran Sunday school, gave a leap year and valentine party in Weaver's Hall on Monday evening. Effect Of A Coal Strike On Prices

In the event of a coal strike prices will advance considerable.

The miners have made 20 demands upon the operators. You are vitally interested in two of them, one for a 20 per cent. increase in wages, the other for an eight-hour day.

These two items alone will increase about 60 cents per ton the cost of mining domestic sizes of coal.

Conditions look very serious. There is already a great scarcity of miners. Many are foreigners and have gone home to fight. Others have gone to the steel mill because of higher wages.

Some compromise will necessarily have to be made. Any additional expense will of course be put upon the price to the consumer.

We are advising all our customers to put in a supply of coal while the present prices prevail. After April 1st we cannot say what prices will be charged—or guarantee to give our customers all the coal they may desire.

Finding a sensible cigarette is just plain, common sense

All you have to do is to look for three points. Take any cigarette you know. Then ask yourself—

Is its taste just what you like best?

Is it comfortable to your throat and tongue—free from bite or hotness?

Will it allow you to smoke as often as you'd like to smoke without any mean after-feeling?

Fatimas aren't the only cigarettes that answer "yes" on all of these points. There are other sensible cigarettes. But facts seem to indicate that Fatimas are the sensible cigarette for most men. Because they now outsell every other cigarette in the world costing over 5c.

Doesn't it seem reasonable that you, too, will like Fatima best? Try them—TODAY.

Loggia & Myers Tobacco Co.

FATIMA was the Only Cigarette Awarded the Grand Prize, the highest award given to any cigarette at the Panama-Pacific International Exposition.

"Distinctively Individual"

20 for 15¢

FATIMA
THE TURKISH BLEND
A Sensible Cigarette

Two Tests for ANY CIGARETTE

The taste of the cigarette—according to a leading tobacco journal—is up to the smoker. But there are other qualities that you should look for in the cigarette that may help the average smoker to choose more wisely between smokers of different kinds of cigarettes.

The first test is for coolness, which means more comfort to the throat and tongue. Light smoke a cigarette. Draw in the smoke—make this test. Hold it in your mouth for a few seconds. Let it flow around against your tongue and throat. Now blow out the smoke. If the cigarette contains a high grade of mild tobacco leaves, combined in just the right proportion, it will always feel cool and smooth both to your throat and to your tongue.

On the other hand, if the proportion are not right and if the cigarette contains

inferior grades of tobacco or hidden strands of rank, oily leaf, you will feel a burning sting at the tip of your tongue that may be described as "bite" in your throat. Test number two—How do you feel after smoking all day?

If the tobacco in the cigarette includes all of the various grades of mild grades—and is not so biased as age—and if they have qualities and tonerize to bring out the best tobacco in each of the different types of tobacco, you will be able to smoke practically when or how you feel like it through the day without feeling any effect from it.

But with another cigarette in which the blend is less skillful, even though the tobacco is of the highest grade, you will find a sting towards the end of the day that you are "smoked" too much.
