### MARKET MAKES FAVORABLE VIEW

**Substantials and Specialties Gain as International Situation Improves**

**By Associated Press**  
 New York, Feb. 29.—With the progress of the session there seemed to be a further disposition to take a more favorable view of the international situation aside from its military aspect. Gains in substantial stocks were extended and some specialties added to early advances.

The buying seemed to run its course before the end of the first hour, after which there was a general shading of prices. Activity in Pacific Mail and other steamship issues was an outstanding feature with Reading issues, which continued to dominate the rails. Bonds were steady.
