## Introducing Authentic Fashions in Spring Suits

### Hundreds of New Garments In Many Styles Are Here

All the arts converge in the matter of women's fashion's for the Spring season. From the plastic art are borrowed lines and proportions; new color schemes and motifs are inspired by paintings; a bit of Gothic tapestry may hold the secret of a new vogue. For this is the Renaissance Period of Dress Styles—a great work to which master minds and talents are devoted.

A keen discrimination is called for in the assembling of new Spring styles—there is much that even Paris produces that this store would not sponsor.

In the collection of new Spring models here, certainty of correct and authentic style is assured—every model is a true type.

## The Scientific Way of Making a Shoe Is the Anatomik Way—Demonstration This Week

We are pleased to announce that Mr. Wier, a special representative of the Anatomik Footwear Company will be in our shoe department for the remainder of the week, for the purpose of demonstrating the special features of Anatomik shoes, and in the interest of men, women and children whose feet give them the slightest concern.

Mr. Wier's object in making a demonstration of this kind will clearly show why thousands of people, especially those who are over weight or have to stand or walk a great deal, find so much comfort in the Anatomik.

It is generally conceded that foot strain comes from improperly built shoes; it leaves its effect in suffering and lack of efficiency and we believe its only remedy lies in the adoption of Anatomik shoes.

You often speak of an individual with a flat foot, or a broken arch, but a flat foot is not flat and a broken arch is not broken. They are merely names applied to a foot that has rolled inward over the insecure foundation furnished by the bottom of an ordinary shoe, which brings the arch border of the foot nearer to the ground, causing swelling in the hollow of the foot and under the ankles.

The wide base of an Anatomik shoe prevents this inward rolling tendency and overcomes "flat foot."

A few minutes spent in conversation with Mr. Wier will convince you that the time was well spent and that your foot troubles, if you have any, may soon be at an end.

### DEATH OF INFANT

Enola, Pa., March 1.—William Harm, 13-month-old son of Mr. and Mrs. John W. Harm, of Enola, died at the home of his parents on Monday from pneumonia.

## A NON-ALCOHOLIC TONIC

Debility is a loss of vitality, not affecting any one part of the body particularly but the system generally. It is dangerous because it reduces the body's resistance to disease. When debility follows acute disease convalescence is slow and the strength does not return as it should. An attack of the grip often results in debility that persists for months. Everybody recognizes that the remedy for debility is to build up the blood because the blood goes to every part of the body and improvement in its condition is quickly felt throughout the system. The problem in every case is to find something that will enrich the blood. Dr. Williams' Pink Pills suit most people's need because they are non-alcoholic and they really build up the blood and strengthen the nerves. Dr. Williams' Pink Pills are useful for growing children and for men and women whose nervous energy has been overdrawn. They are certainly worthy of a trial in every case of weak nerves and thin blood. Your druggist sells Dr. Williams' Pink Pills or they will be sent by mail, post-paid, on receipt of price, 50 cents per box, six boxes \$2.50 by the Dr. Williams Medicine Co., Schenectady, N. Y. Write today for free booklets on the blood and nerves.

## TO STOP BAD COUGH

SOOTHE DRY, IRRITATED THROAT, WITH PARMINT SYRUP. THIS OLD-FASHIONED COUGH REMEDY IS BEST. We are told that the old-time remedies are best and invariably contain less harmful yet better medicine than those which are in use to-day. This being so, undoubtedly the following old-fashioned recipe which is quick acting will be welcomed by many as there seems to be a regular epidemic of coughs at the present time. Secure from your druggist 1 ounce Parmint (double strength), take this home and add to it a quarter pint of hot water and 4 ounces of granulated sugar, stir until dissolved. Take 1 tablespoonful four times a day. No more racking your whole body with cough. Clogged nostrils should open, air passages of your head should clear and your breathing become easy. Parmint syrup is pleasant to take, easy to prepare and costs little. Every person who has a stubborn cough, hard cold or catarrh in any form should give this prescription a trial. There is nothing better.—Advertisement.

## FEEL YOUNG!

It's Dr. Edwards' Olive Tablets For You!

Beware of the habit of constipation. It develops from just a few constipated days, unless you take yourself in hand. Coax the body with laxatives to get to normal action with Dr. Edwards' Olive Tablets, the substitute for calomel. It is gentle, it is natural, it is pleasant to take, easy to prepare and costs little. Every person who has a stubborn cough, hard cold or catarrh in any form should give this prescription a trial. There is nothing better.—Advertisement.

## A Prominent Architect Says:

"The amount of lumber which it is necessary to reject, as not being of specified quality, varies directly as to the reputation of the mills and the dealer. Some mills always furnish satisfactory material and others to the contrary." From our vast experience in buying lumber, we have been able to locate mills from which we always get dependable material. Also, we have never had anyone question the quality of the lumber we furnished. Where No. 1 quality has been ordered—that is the only kind we deliver.

## A QUICK, SURE WAY TO END CATARRH

Catarrh Grows From Millions In Air Passages of Nose and Throat. Just One Way to Drive Them Out. To stop catarrh for good you must drive from your system the germs that cause catarrh and that are now feeding and growing fast upon the swollen inflamed mucous membranes of your nose and throat. A splendid means of destroying catarrh germs and overcoming catarrh has long been recognized in the well-known oil of Hyomei (pronounced High-o-me) and it is now a very simple matter for any catarrh sufferer to use it with splendid results at home by breathing its air through a little hard rubber inhaling device which leading druggists are supplying with each large complete treatment. Just pour a few drops of the oil of Hyomei into this inhaler, place it between your lips and then breathe naturally and the pleasant smelling antiseptic germ killing air will penetrate deep down into every fold and crevice of your raw, sore nose, throat and lungs and give you quick certain relief, opening up the air passages, making you breathe easily, stopping the inflammation and discharge and driving from your system every catarrh germ that has found lodgement there. If you want to be free from every symptom of catarrh, are tired of trying one thing after another without benefit go to H. C. Kennedy or any other reliable drug store hereabouts and get a complete Hyomei inhaler outfit, use it every day for a few minutes and if it does not drive the catarrh germs out of your system and give you lasting relief from catarrh your druggists will give you your money back.

## United Ice & Coal Co.

## TO FINISH FREIGHT PLAN THIS YEAR

[Continued From First Page.] shows gross revenues for the entire system to have been \$374,929,645, or \$20,526,949 more than in 1914. Net earnings were \$87,914,491, a gain of \$22,595,212. For the Pennsylvania Railroad Company proper there was reported a gain of \$3,376,318 in gross, the total of which was \$196,628,170; and an increase of \$10,922,152 to \$46,259,924 in net earnings. Other income, swelled by larger dividends from the western lines and other sources, increased more than \$14,000,000, making the total gross income \$96,423,345. After payment of fixed charges and other deductions, which increased \$36,335,637, there was left a net income of \$42,425,322, or \$8,334,557 more than in 1914. Out of this the

## War Is Big Help

The war and increased freight and passenger tariffs were helpful in making up the record-breaking earnings. Referring to the successful fiscal year, President Samuel Rea says: "While the increase in your freight revenues, principally in the merchandise traffic, can be attributed largely to the transportation of supplies for Europe, the advance of approximately 5 per cent. in certain merchandise freight rates, referred to in the last annual report, which became effective in the early part of 1915, was also helpful. So far as can be estimated, the advance in these freight rates increased the total freight revenues 2.96 per cent. "Passenger revenue decreased less than 1 per cent. This traffic was affected by the general business depression in the early part of the year, but later it showed improvement. In-

## Encouraged to provide in the future the large sums of private capital required to place our transportation systems in a position to meet the needs of an expanding commerce."

Other subjects discussed at length in the report were: The ruling by the Public Service Commission of Pennsylvania ordering a reduction in anthracite freight rates, which, if sustained by the courts, will cause a loss to the Pennsylvania Railroad Company of \$1,500,000 a year; the various steps taken to increase passenger fares, and the Interstate Commerce Commission's order declining to permit the further operation of steamship lines by the railroads. For the first time announcement is made of sale of the boats owned and operated by the Erie and Western Transportation Company, a Pennsylvania Railroad subsidiary. President Rea directs attention to the coming seventieth anniversary of the operation of steamship lines by the railroads. "Notwithstanding many financial and business vicissitudes in that long period, the company has endeavored to discharge its duty to the public by maintaining an adequate, safe and high standard of transportation service; by encouraging the development of the territory served by its lines and connections; and by safeguarding the interests of the stock and bond holders, and the welfare of its employees. Since its incorporation the company has paid a return upon its capital stock in every calendar year, and has pursued the sound financial policy of devoting many millions of dollars of its income to provide betterments and improvements to its railroad and equipment, instead of issuing capital stock or bonds to procure the funds therefor."

## Proposed Pension Increase Would Give Veterans Over 70 Years More Over

Special to the Telegraph. Washington, D. C., March 1.—Pensions of not less than \$20 a month for all Union Civil War Veterans seventy years old or more and eligible for the pension roll are proposed in a bill favorably reported to the House yesterday. The measure also would increase from \$12 to \$20 the pension of every widow who was the lawful wife of a soldier during his service in the Civil War; restore to their former pensionable status widows of Civil War soldiers dropped from the rolls because of their marriage to other persons and who are again widows or divorced on their own application, and amend by making the date 1905 the act of 1890, providing that women who married Civil War Veterans after that date should not be entitled to pensions upon becoming widows. No official estimate of the amount the bill would add to pension appropriations has been made, but the total would be some millions of dollars.

## Negro Segregation Is Adopted by St. Louis

Special to the Telegraph. St. Louis, March 1.—St. Louis voted three to one for negro segregation, adopting two ordinances after the Board of Aldermen refused to heed initiative petitions calling upon it to pass the ordinances. The vote for segregation was 52,220, and 17,876 against it. The two bills voted on were submitted by petition under the initiative clause of the city charter. One provides that negroes shall not move into blocks occupied wholly by white persons or that white persons shall not move into blocks occupied wholly by negroes. The other provides that negroes shall not move into blocks in which 75 per cent. of the houses are occupied by whites, or that white persons shall not move into blocks in which 75 per cent. of the houses are occupied by negroes.

## Five Facts You Should Know

- (1) That disease is the result of a disordered condition.
- (2) That when we correct the disordered condition, we eliminate the disease.
- (3) That the blood is the carrier of poisons throughout the body.
- (4) That to successfully treat any disease originating in the blood, we have to treat the blood, as the cause.
- (5) That S. S. S. is the most reliable remedy for removing impurities from the blood.

S. S. S. is no experiment of today, but is a successful remedy for the blood that has been a blessing to thousands of sufferers for the last fifty years. There is nothing mysterious about S. S. S. It is an extract from native herbs, roots and bark, each known for its peculiar medicinal value. These ingredients combine and act in a beneficial and helpful way with nature. It doesn't matter whether your case of blood trouble is one of the many forms of Rheumatism, or Catarrh, Scrofula, Contagious Blood Poison, chronic skin trouble, or any other form of blood trouble. S. S. S. will go directly to the seat of the trouble; giving the blood a thorough cleansing, driving out the impurities in a natural way, and leaving the blood pure and refreshed, ready to do its full duty in building the tissues up to a normal and healthy state. Begin today on a bottle of S. S. S. and note how soon you will begin to feel relief. We will gladly give special advice and free consultation. If you are in doubt about the nature of your case, write Medical Department, Room 73, THE SWIFT SPECIFIC COMPANY, ATLANTA, GEORGIA.

## PETER FENSTEMACHER DIES

Enola, Pa., March 1.—Peter Fenstemacher, aged 79 years, died at the home of his daughter, Mrs. J. W. Reigel, Juniata street, on Monday morning. Burial will be made at Danville this afternoon.

## CELEBRATE 22D ANNIVERSARY

Shiremanstown, Pa., March 1.—Mr. and Mrs. Benjamin Erb are quietly celebrating their twenty-second wedding anniversary at their country home near here to-day.
