MANNING TO PLAN FORMAL ENTRANCE

Municipal League and Civic Club Want to Beautify Luther R. Kelker Park

A beautiful formal entrance to Luther R. Kelker park, the pretty nine-acre tract that is the nucleus of Steelton's park system, will be built in the near future if plans of the Municipal League and Civic Club materialize.

With a view to getting an early start on the proposed entrance, the Municipal League will ask Warren H. Manning, the Boston landscape architect who planned the borough's park system, to draw plans for a formal entrance.

The proposed entrance will be located at the end of the new street which council has ordered cut to the park site from Sixth and Swatara streets. The expense of drawing the plans will be met by the Municipal League, who will turn them over to the Civic Club, which organization has already expressed a desire to see a formal entrance to the park.

Mr. Manning will be asked to draw the plans in a few days. Just as soon as his work is completed steps will be taken for raising the money for the undertaking.
