Employees of New Store Enjoy Turkey Dinner at Rutherford's Last Night

William Strouse, head of the New Store soon to be opened in Market street, gave a turkey dinner last night to his employees at S. S. Rutherford's diningroom.

Why March is the Most Dangerous Month.

March is the most dangerous month of the year because the change of season is more than a good many systems can stand. Too often it is true that the sick "last only till spring." But if the system is fortified, if the impurities are driven from the blood, and the nerves are strengthened with wholesome and strength-giving food medicine, there is no danger in the change of seasons. Father John's Medicine is invaluable as a tonic in the Spring. It strengthens the system and drives out the poisonous waste matter—builds up the body. It is this power that has made it so successful for colds and throat troubles. No weakening stimulants, morphine or other dangerous drugs or alcohol.
