Buttons For Battleship Fund Have Arrived

Let's face it, the world would break into her genial smile if she could see the hearty response that has come from the boys and girls of Harrisburg and other towns following her appeal through the Telegraph for funds to make possible the building of the Battleship "America."

For those who find it inconvenient to send their contributions through the mail or call personally at the Telegraph office, a plan of providing substations has been evolved, and on Monday morning contribution boxes and pads for signing the name will be placed in each of the following places: Roses, Second and Walnut streets; George G. Youngs, grocery, 1000 South Cameron street; Harry B. Althouse's Pharmacy, Third and Munch streets; Sixth Street Bank, 2100 North Sixth, and the East End Bank, Thirteenth and Howard streets.

The Buttons Are Here

The buttons have arrived and may be obtained by calling at the Telegraph or any of the substations, or will be sent by mail if a stamped, self-addressed envelope is enclosed with the contribution. Those who have already sent in their money will be given a badge upon request.

Modern Venus Found in Chicago by Sculptors

MISS JOSEPHINE A. HUDDLESTON.

Chicago, Ill. The ideal American girl for sculptural purposes has been located here. She has been long searched for by American sculptors. She is Miss Josephine A. Huddleston, of No. 20 West Goethe street. She was selected from among nearly 1,000 candidates as the model from whose form and feature will be moulded the monument to be erected on the Dixie Highway, near the "Mason Dixon Line" symbolical of American Womanhood "of the North."

Compared with the ancient Greek womanhood, the famous Venus de Milo, Miss Huddleston measures as follows:

Estimated weight	Venus de Milo	Miss Huddleston
Height	132.2	132
Height	5 ft. 4.2 in.	5 ft. 4 in.
Neck	12.5 in.	12.5 in.
Chest, normal	34.2 in.	34 in.
Chest, full (estimated)	36.2 in.	36.5 in.
Waist	25.9 in.	25.5 in.

TO DISPOSE OF ARMED VESSEL AGITATION

[Continued From First Page]

sumed by Senator Lodge who took issue with assertions made during yesterday's debate that Great Britain had set a precedent for a warning by advising her citizens to keep off belligerent boats during the Russian-Japanese War.

Gentlemen's Agreement

He read in to the record from the British ambassador saying no such order had been given.

Senator McCumber, Republican, discussed his warning resolution, introduced yesterday after it had been tabled with other measures on the

subject but he had no opportunity to call it up for action.

The conference adjourned with no formal action except a decision to hold a rules committee meeting at 2 o'clock to-day. A so-called gentleman's agreement was made not to have a vote before Tuesday.

Bryan in Washington

William Jennings Bryan came to town to-day to fulfill a lecture engagement here to-night. Administration leaders speculated widely over whether Mr. Bryan's coming had anything to do with the delay on voting on the armed ship issue in the House and the decision of the leaders there to postpone action until Tuesday next.

Foreign Affairs Favorable

When it became apparent last night that the fight was over in the Senate, the House adjourned to meet at 10 o'clock this morning instead of at noon as usual so as to dispose of pending matters of routine business and clear the desks for the big work of to-day.

It was expected that the reports of the Rules and Foreign Affairs Committees would be ready for disposition early in the afternoon.

The action of the Foreign Affairs Committee, taken by a vote of 17 to 2, after many of its members had been insisting for two days that no resolution would be reported out, was regarded as the beginning of the end of the opposition to complying with the President's request. Administration whips had reported that a large majority of the rank and file of the House Republicans as well as Democrats stood ready to support the President if the issue could be brought to a vote. But the controlling spirit both in the committee and the House itself favored a warning resolution and at first resisted all pressure for a report.

McCumber Has Resolution

Although friends of the administration look for little further trouble in the Senate, Senator McCumber, Republican, has introduced as a new resolution his substitute which was defeated along with the Gore resolution. He has given notice that he will call it up at the first opportunity and the Democratic leaders are ready to send it to the calendar to be smothered by other measures.

Under the liberal rules of the Senate further discussion of the armed ship or almost any other question may crop up from time to time in the future, particularly as Senator Gore and others sharing his views, insist that yesterday's vote technically was not a victory for the President. There never has been much uneasiness about sentiment in the Senate, however, the prime object of the administration to kill once and for all agitation in the House.

Rely on Senate

Administration officials said to-day that practically all Senators who voted yesterday to table the Gore resolution were voting for the President's policy and that should the House fail to vote to uphold the President in decisive form the fight might be carried back

In the Eyes of All— Hershey's

All-Cream Ice Cream Is the Cream Supreme

The following test by George R. Moffitt, M. D., bespeaks the purity and excellence of the product, and a taste will attest its deliciousness.

Hershey Creamery Co., Harrisburg, Pa., Feb. 25, 1916.
 Gentlemen:—
 The bacteriological examination of ice cream sample submitted to me by you on February 21, 1916, resulted as follows:—
 Number of bacteria per cubic centimeter: 54,000.
 Number of colon bacilli per cubic centimeter: 0.

Five fermentation tubes of glucose bouillon each inoculated with 1 c. c. of a 1-100 dilution of sample showed no gas production in any of the tubes, indicating the absence of bacteria of decomposition and fermentation.
 Sediment (dirt): None.
 Tuberculosis bacilli: None.
 Staphylococci: None.
 Streptococci: None.
 This is an excellent sample of ice cream.

NOTE.—Observe the total absence of colon bacilli which are the dangerous disease-bearing germs—evidencing perfect purity.

"A Smile Follows the Spoon When It's Hershey's"

BEGIN ON SALTS AT FIRST SIGN OF KIDNEY PAIN

We eat too much meat, which clogs kidneys, then the back hurts.

Says glass of Salts flushes Kidneys and ends Bladder irritation.

Uric acid in meat excites the kidneys, they become overworked; get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy; the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush off the body's urinous waste or you'll feel a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad.

Eat less meat, drink lots of water; also get from any pharmacist four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive, cannot injure; makes a delightful effervescent lithia-water, drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

Empress INSTANTANEOUS Hair Color Restorer
 Use 20 years in constant use by Hair Dressers and Scalp Specialists. Easily applied. Acts instantly. Restores gray, faded or bleached hair to its natural color. No afterwashing. \$1 per box.

Empress Hair Remover

Mother in Despair Seeks Some One to Adopt Daughters

CAN AFFORD IT.

What beautiful hair Miss Goldie has. Yes, she doesn't have to economize in anything.

THIS PREPAREDNESS BOOK IS FREE

It Tells of a Novel Summer Seashore Vacation, Coupled With Instructions in Specialized Lines of Military Preparedness.

You and Your Boy May Be Taught Military Tactics. While Your Wife and Daughter Can Receive Instruction in Field Nursing.

Most of us believe in the necessity for military preparedness. We also realize that in some way each and every one of us should contribute our share to a national movement.

A timely and interesting book has just been issued which tells of a plan whereby the entire family—father, mother, son and daughter—may enjoy all the usual advantages of a summer seashore vacation, with the option of acquiring through private enterprise practical information on all subjects relative to military preparedness. Courses of instruction in the manual of arms, rifle practice, radio-telegraphy, artillery practice, aviation, navigation, mechanics of gas engines, field nursing, boy scouts, etc., are being arranged for.

A site for 1,000 tents and bungalows, with a perfect bathing beach has been secured on the Jersey coast, and is now being laid out under the direction of military engineers. Housing accommodations will be provided for families, with all the conveniences of a modern city dwelling. A special Training Camp will be erected for men and boys, not located in the family camp, who desire to take an active part in military camp life.

If you desire to turn what otherwise might be an idle, purposeless recreation period to personal and national advantage, if you desire for yourself and every member of your family the advantages of a seashore vacation with the opportunity of acquiring practical information and instruction in some specialized line of preparedness, we would suggest that you write to the Secretary, National Preparedness Encampment, Dept. 27, Box 424, Philadelphia, Pa., and ask for a copy of this free book on preparedness.

The Secretary of the Encampment will be glad to get in touch with such members of the various defence, preparedness and emergency societies, whose experience and co-operation might be made available along various lines.—Advertisement.

Mother in Despair Seeks Some One to Adopt Daughters

VIRGINIA AND LILLA FINCH.

VIRGINIA AND LILLA FINCH

New York—Who wants to adopt two pretty little girls? Through the newspapers, Mrs. Edmund M. Finch is endeavoring to find a home for her two girls, 12-year-old Virginia and 10-year-old Lilla. Her husband deserted her four years ago and since then the struggle for existence has been a real life battle for the woman. She is willing to separate herself from her children if she is assured of their future happiness. For herself she asks nothing. Plumbing the depths of her emotions, Mrs. Finch, in a letter writes: "I have fought Fate for nearly four years, trying to keep my little family together, but now I am ill and desperate, and can bear no more. I only want a home for my babies—a home where they will get a chance to grow into upright Christian women."

"For a week we have had little to eat. I can go hungry, but the sight of my little girls hungry and cold I cannot bear."

IMPOSSIBLE.

He: I'm trying to live up to your ideal of a man.

She: But my ideal must be handsome.

A MOVIE.
