Parks in the Calder building.

The State meet will probably be held May 13 or 20 and the grammar event will be held probably the first Friday in June. One of the largest attendances of members of the association is expected at the meeting this evening as several other important business items will be acted upon.

One of these will be the starting of plans to temporarily reduce the length of the cinder track course, to one-sixth of a mile instead of one quarter of a mile instead of one quarter of a mile and cutting out the extension over the eastern part of the Island.

This plan will probably only be used this season until a better scheme is decided upon. At the session this evening arrangements will be made for mailing out invitations. From present indications a large entry list is expected in the State meet and a number of inquiries have been received about the date set for the vent. All three local High schools have plans under way for the Spring track training, and the Steelton and Tech athletes have started practice.
