The Essentials of a Good Corset

La Camille front-lacing corsets have advantages that make for health and comfort. They produce those graceful figures demanded by fashion without any harmful effects. Let our demonstrator prove to you the hygienic value of wearing a La Camille front-lacing corset.

The spine is the axis of the body, and when the spine is properly held, all the organs of the body are in their proper positions and more properly perform their functions; so a correctly corseted figure is a healthy one—and it is a graceful one.

La Camille Corsets have the Ventilo back and front shield, which prevents any undue pressure on the spine; it is soft, yielding and comfortable, and yet has sufficient rigidity to impart to the back the "beauty line."

National Baby Week Is an Event That Is Stimulating Widespread Interest in Infant Welfare Work

Its purpose is educational, to give to the parents of a community the opportunity of learning the facts with regard to the care of their babies and demonstrating the need of permanent work for such welfare work.

This splendid movement has received wonderful impetus under the auspices of the National Federation of Women's and Mothers' Clubs, and it is a pleasure for us to co-operate in the work.

No small part in the proper care of the infant is the clothing it wears. Our Infant Section suggests Arnold Knit Baby Clothes which are made as carefully as any mother would make them. Only the softest wool yarns are used. Arnold Knit Abdominal Bands are highly recommended.

A free pattern of the pinless and buttonless Vanta Diaper, and a copy of Dr. Holt's 24-page pamphlet on the care of infants will be given to all mothers visiting this section during this Baby Week.

To Have Beautiful Hair and Lots of it, Daily Care Is Needed

"I'd certainly give anything if I could only get some life and luster into my hair," declares almost every woman whose appearance is marred by ugly lifeless, scraggy locks. And yet if she will only follow a few simple suggestions she too may soon be envied for her beautiful hair.

Just try these simple directions today: Pour a little Parisian Sage into the hollow of the hand and wet the hair roots thoroughly with it. Rub it well into the scalp until dry, and a soft tingling glow is felt over the entire scalp. Do this regularly for a few days and occasionally wet your brush with the tonic and gently brush the hair. You will certainly be astonished and your friends also at the remarkable transformation this simple treatment will make in the appearance of your hair, giving it life, luster and beauty.

Two important things to remember are that the hair must be kept clean and that you surely use Parisian Sage. The genuine Parisian Sage may be secured at H. C. Kennedy's or any first class drug store. Its cost is very small and it is absolutely guaranteed to give you satisfaction or money back.—Advertisement.

LOCKED IN JAIL, EIGHTEEN DIE IN BIG EXPLOSION

Forty Prisoners in Germicide Bath at El Paso When One Lights Match

El Paso, Texas, March 7.—Eighteen persons are dead to-day and a number of others are not expected to live as the result of the explosion which occurred yesterday in the disinfection bathroom of the city jail. More than forty prisoners were in the bathroom when the explosion took place and nearly all of them suffered serious burns, nine dying within a short time. Nine others who were taken to hospitals died during the night.

A lighted match ignited the vapors arising from the mixture of gasoline, kerosene and vinegar in which the prisoners, mostly Mexicans, were being bathed in conformity with sanitary measures devised by city health authorities to prevent the spread of disease by Mexican arrivals. Sheets of flame flashed through the entire east wing of the prison and almost immediately the street fronting the jail was filled with naked shrieking men enveloped in fire. A fire company housed in the jail building extinguished the flames.

Fifteen other Volturno heroes still are being sought by the government so their medals may be given them. The forty men were members of the crew of the steamship Kronland who manned the lifeboats and rescued the passengers and crew of the burning steamer Volturno in the North Atlantic ocean in October, 1913.

WHARTON HITS AT THE CRITICS

Charity Board Secretary Discusses What the Commonwealth Is Doing

Persons who "delight in disparaging the work of our own Commonwealth" were censured by Bromley Wharton, secretary of the State Board of Charities, who spoke yesterday in Philadelphia. "From the days of Penn and Logan," he said, "when this province early established her almshouses and hospitals, for which a bill was passed in 1790, on our own time, Pennsylvania has claimed the services of her ablest sons and daughters and poured forth her treasures for the benefit of her helpless and unfortunate citizens.

"In 1913 a bill was drawn by the Public Charities Association, providing for a village for feeble-minded women of child-bearing age. It was introduced by Representative Ambler, and after a stormy time in the House, reached the Senate, carrying an appropriation of \$20,000, instead of \$250,000, as originally asked. Through the efforts of the Board of Charities, this amount was increased to \$60,000 in the Senate and concurred in by the House. The Governor later cut this to \$40,000. While the sum is insufficient, it commits the State to the care of this class and is a move in the right direction.

"Another matter which I wish to bring to your attention is the unfortunate delay in the completion of a group of buildings for the feeble-minded at Byberry, Philadelphia county. These buildings should have been completed during 1913, but in consequence of over carelessness on the part of the last city administration, a holdup for further investigation was ordered, and they are just about being completed, but cannot be occupied on account of having no power house for heat and light. I am glad to say, however, that the present Mayor, Mr. Smith, has shown a sympathetic interest in the matter."

U. of P. Tossers Win From Cornell; Put Tigers on Defensive

The University of Pennsylvania basketball team last evening won a well-earned victory over the red and white Cornell five on the latter's floor, and with the ending of their last game by a 10-9 score placed Princeton on the defensive for the Intercollegiate title. Before the two contenders met on the Ithaca's battleground last evening the Princeton and Penn teams were tied for first place with seven games won and two lost. Penn, by defeating Cornell, and by the way it is the first defeat administered to Cornell on its home floor this season, puts itself in a position where it cannot be beaten for the championship, and the best Princeton can do is to tie her by defeating Cornell on Princeton's floor on Thursday night. Many believe the league race will end a tie, but others feel that Cornell will come back and put the Tigers, giving Penn a clear title to first position.

The battle was a sensational one, and Penn led at the end of the first half 6 to 2. McNichol's foul gun shooting for the visitors kept Penn in the lead. It was the closest and most closely fought game of the season. If Princeton loses to Cornell on Thursday night the best she can do is to tie for second place. The rest of the teams are hopelessly out of it.

DEATH PREVENTS SUIT

The death of William Henry Young, member of the election board of the Sixth Ward, Second Precinct, late Sunday night, prevents the State from carrying out its suit against him, charging him with conspiracy and violating the election laws. His funeral will be held to-morrow afternoon at the home, 349 Rely street, followed by burial in the Lincoln cemetery.

How To Break Up A Bad Cough

The following prescription is now being widely used in New England for breaking up severe coughs and colds, catarrh, bronchitis, and thereby preventing Grippe, Pneumonia or other serious ailments. Get from your druggist a large bottle of Oxidaze (containing ninety tablets) and every two hours allow one of the tablets to slowly melt in your mouth so that its powerful healing juices, mixing with the saliva, will reach and heal the inflamed membranes, clear the throat of all dangerous germ life, loosen a dry hoarse or tight cough and by stopping the formation of phlegm in the throat and bronchial tubes quickly end the persistent "hang on" loose cough. Many a serious, possibly fatal, case of lung trouble or pneumonia can be prevented by the simple use of Oxidaze in this way. And, as the tablets are pleasant and easy to take, are not at all expensive, contain no harmful or habit-forming drugs, and as G. A. Gargas, druggist, and other leading druggists everywhere sell them on a positive guarantee that they will stop a cough or money back, no one who has a cough or cold can lose by giving them a fair trial. Be sure to insist on Oxidaze and take nothing in its place. A single package taken now may easily save many dollars in doctors' bills in future.
