Che Terror of Grip is the After Effects

TUESDAY EVENING,

Grip leaves its victims weak with localized troubles. Many of them drag along for months after an attack with aching backs, coughs and colds and impaired digestion.

Grip is a catarrhal disease and it leaves the system full of that dread malady. Drive out the catarrh and you overcome

There is one treatment that seldom fails to bring relief, one remedy that time has tested and thousands have proved.

Rebuild Your Lost Strength with PERUNA-a good tonic

Because PERUNA is a good tonic and because it has special reference to catarrhal conditions its use in the weakness following Grip has proven very beneficial. It clears up the system of all the poisonous matter left after the attack, gives tone and strength to the digestive organs and overcomes the congestion and inflammation. What it has done for thousands is well told in the letter below.

LOOK AT THIS LETTER Mrs. Frank Stroebe, R. F. D. 1, Appleton

"I began using Peruna a few months ago when my health and strength were all gone, and I was nothing but a nervous wreck. Could not sleep, eat or rest properly, and felt no desire to live.

desire to live.

"Three bottles of Peruna made me look at life in a different light, as I began to regain my lost strength. While my recovery took nearly four months, at the end of that time I was better than I ever was before. I had a splendid color and never weighed more in my life.

"I certainly think Peruna is without a rival as a tonic and strength builder, and it has my endorsement."

PERUNA IN TABLET FORM

PERUNA is now put up in tablets, not un-pleasant to take. They are very effective and convenient treatment for catarrh in whatever form it manifests itself. They are invaluable in colds, affording quick relief, and are a prevent-ive if taken in time. Carry a box with you.
