

Mothers Here Interested in New Treatment

Relieves Colds Over Night and Croup in Fifteen Minutes—Applied Externally

NOTHING TO SWALLOW NO DOSING THE STOMACH
Druggists Below Have Arranged to Sell 25c, 50c and \$1.00 Packages on 30 Days' Trial

Local druggists report a great deal of interest among the ladies, especially among mothers with small children in the new external treatment. Vick's "Vap-O-Rub" Salve, recently introduced here from the South.

This new treatment goes away with injurious internal medicines, flannel jackets and vapor lamps. In treating the various forms of cold in Salve form and is applied over the throat and chest, covering with a warm flannel cloth. The body heat releases medicated vapors that are inhaled with every breath all night long through the air passages in the lungs. These vapors loosen the phlegm, and clear the air passages.

In cases of deep chest colds, first apply hot wet towels over the throat and chest to open the pores. Vick's Salve is then absorbed through the skin, taking out that tightness and soreness.

While the profit on Vick's is smaller than on the old time preparations, the druggists, whose names are given below, have the welfare of their customers more at heart than the interests of their pocket books, and have arranged to sell Vick's on 30 days' trial, giving with each sale a refund blank that is good for your money back if you are not delighted.

SAGE TEA DANDY TO DARKEN HAIR

It's Grandmother's Recipe to Bring Back Color and Luster to Hair.

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a 50-cent bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old famous Sage Tea Recipe, improved by the addition of other ingredients, are sold annually, says a well-known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray or becoming faded have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful.

NEW BAKESHOP RULES ARE DRAWN

State Industrial Board Prepares For Safety in Several Lines of Employment

Public hearings on revised regulations for bakeshops in Pennsylvania will be held by the Industrial Board of the Department of Labor and Industry in the Hartie Building, Pittsburgh, March 14, and in the North American Building, Philadelphia, March 15.

Under existing regulations no bakeshop may be located in a cellar, which is considered a story more than one-half below level of the ground surrounding the building. The revised regulations will permit cellar bakeshops if they are at least seven feet in height and illuminated wholly by electricity or by some illuminant which does not consume oxygen and are ventilated by approved systems which introduce clean air and remove impure air or by improved ventilating fans.

The committee on Safety Standards of the Industrial Board will hold a public hearing in the North American Building, Philadelphia, March 15, to consider portions of the code that will govern installation of elevators in Pennsylvania excepting in cities of the first and second class.

The committee of the Industrial Board which approves safety devices will meet in Harrisburg March 21, to consider thirty different mechanical appliances submitted as safety devices. Among these devices are motion picture machines, elevator gates, fire doors, safety valves and safety shoes for ladders. No safety devices may be used in Pennsylvania unless approved by the Industrial Board.

Permanent Improvements in Panama

Now that the canal is completed and in working order, the government is going about the task of making its structures on the Canal Zone permanent. Neat and substantial structures are growing up on the zone.

Most of them are of concrete and are finished in buff tint, with red-tiled roofs. This color combination, in a setting of green tropical hills and well-kept lawns, is particularly pleasing to the eye.

Ancon and Balboa are also remarkable for their fine macadam roads. Large gangs of West India blacks are kept constantly at work on these, and they are as smooth and perfect as floors. Uncle Sam now has a jitney service which for a dime will swiftly whirl you anywhere you want to go in the neighborhood of Ancon and Balboa.

Ancon, Balboa and the city of Panama are all grouped together at the Pacific entrance of the canal, and their growth has made them practically one city. Tourist freedom stays on the isthmus long enough to be quite sure when he is in Ancon and when in Balboa; but he has no difficulty in distinguishing the ancient Spanish city of Panama.

Big Red Fox Without Tail Shot by Monterey Hunter

Special to the Telegraph
Waynesboro, Pa., March 9.—Walter Benchoff, of Monterey, succeeded in shooting in the mountain east of Rouzerville a large red fox, which was minus its tail. It weighed 35 pounds. Mr. Benchoff was accompanied by his uncle, John A. Johnston, east of Rouzerville, when the dogs started the animal from the underbrush early in the afternoon and chased it around in a circle to the hunters in waiting. Mr. Benchoff was sitting on a fallen tree, partially concealed, when suddenly the fox bounded through the brush and came within a short distance, and he killed it with a single shot.
