With Silks Hard to Procure and Constantly Rising in Price Comes This Good News

It is only through a very fortunate circumstance that we are able to announce this special sale, beginning to-morrow, of choice new Spring silks in styles that are full of becomingness. From one manufacturer has come a little lot of striped and checked taffetas representing an actual \$1.25 value which we shall be able to sell at 98¢ a yard. If the manufacturer in this particular case were well stocked with this weave, we do not believe we would be able to buy it at wholesale for less than \$1.15 a yard.

Another very desirable striped taffeta in fifteen distinctly new patterns, 36 inches wide and representing an actual \$1.50 grade, will be offered in this unusual sale at \$1.29.

A very striking value included in to-morrow's sale is a \$2.00 satin striped Crepe de Chine, 40 inches wide in such good shades as navy, wistaria, Hague and black. The price on this special will be \$1.45 a yard.

No Fear of Unstable Dyes Need Be Entertained About These Dress Gingham

We do not believe a more comprehensive showing of dress gingham in checks, fancy plaids, fancy stripes and solid colors can be found in any other store this season in the State and particularly on account of the fact that we can recommend the stability of the dye that we offer this splendid showing to the woman who superintends her own sewing. There are scores of patterns to choose from in the most desirable designs that we have ever seen. The dyes themselves are imported and will stand customary methods of laundering.

This exceptional showing is now ready for your critical inspection in the basement piece goods department, at, yd., 12 1/2¢

- Other notable values of particular interest at this time includes—
- Dress gingham; 32 inches wide, in fancy plaids, stripes and staple fast colors. Yard 15¢
- Chambrays, in plain colors, stripes and checks; 30 inches wide. Yard 15¢

Dives, Pomeroy & Stewart, Street Floor.

"MIRACLE MAN" WAS HERE SAT.

Fortune Gallo, Head of San Carlo Grand Opera Co., Makes Final Arrangements

MARY KAESTNER

Dramatic soprano, as "Aida," who will come to Harrisburg with the San Carlo Grand Opera Company the latter part of this month.

Impressario Fortune Gallo, head of the San Carlo Grand Opera Company was in Harrisburg Saturday on his way from New York west, to make final arrangements for the Grand Opera season scheduled for this city on March 28 and 29.

Gallo is very desirous of putting Harrisburg on the "grand opera" map for all time, and this will be accomplished providing the coming three renditions of the San Carlo company attract the audiences they deserve. He is a man of indefatigable energy and has won for himself a wonderful reputation in the world of music for getting together well-balanced companies in which the stars do not so far over top their associates as to make the performances lopsided and unpleasing.

By it must not be judged, however, that Gallo has any modicor singers with him. On the contrary the critic of the St. Louis Globe dubs him "Miracle Man" Gallo as a tribute to the excellency of the opera company which has just had such a wonderful run in that city and which will be brought here in its entirety and all its wealth of scenic effects, its own large orchestra, ballet, chorus and dancers.

In this city Lucia di Lammermoor will be sung at the opening performance Tuesday evening. Faust at the special matinee on Wednesday and Cavalleria Rusticana and I Pagliacci Wednesday evening. The program has been so arranged as to give Harrisburg audiences the full list of soloists carried by the company, the cast varying at each performance, and at prices ranging from 50 cents to \$2. The same management is in charge as brought to this city Paderewski, McCormack, Mischa Elman, Alice Neilson, the New York Symphony Orchestra and other high class and artistic attractions during the past few years.

9,000 AEROPLANES IN GERMANY

One of the most closely guarded secrets in the military establishments of Europe at the present time is the strength of the flying corps. That Germany at present has at least 9,000 war planes in active use, is the statement attributed to one of the higher officers last month. This officer, when the military attaché of one of the South American nations commented on the plans of the British government to build 10,000 aeroplanes, remarked casually: "We have more than 9,000 ourselves!" In this connection it is also reported that along the Russian front, only an exceedingly thin line of infantry holds the trenches, and that nearly 2,000 aeroplanes are cruising above the battle lines in the East, notifying the German headquarters in ample time of any movements along the Russian front. The crying need of the Russian armies now is flying machines, of which they need at least 2,000 to be able to cover their own movements of troops.—February Popular Science Monthly.

APPLY Q-BAN TO DARKEN GRAY HAIR

It Is Harmless, No Dye, But Darkens Your Gray Hair So Evenly No One Can Tell.

Whenever your hair falls out or takes on that dull, lifeless, faded, streaked or gray appearance, simply shampoo hair and scalp a few times with Q-Ban Hair Color Restorer. All your gray hair then turns a beautiful dark shade, and entire head of hair becomes evenly dark, wavy, soft, fluffy, abundant, thick and charming—just as hair appeared when you were 16 or 18 years old. Q-Ban is a ready-to-use delightful hair color restorer, perfectly harmless, but applies 2 or 3 times a week, besides darkening gray hair, makes scalp healthy and clean. Stops dandruff and falling hair and promotes its growth. Give it a trial. Sold on a money-back guarantee. Only 50¢ for a big 7-oz. bottle at George A. Gorgas, 16 North Third Street, Harrisburg, Pa. Out-of-town folks supplied by mail.

Get the Habit of Drinking Hot Water Before Breakfast

Says we can't look or feel right with the system full of poisons.

Millions of folks bathe internally now instead of loading their system with drugs. "What's an inside bath?" you say. Well, it is guaranteed to perform miracles if you could believe these hot water enthusiasts.

There are vast numbers of men and women who, immediately upon arising in the morning, drink a glass of real hot water with a teaspoonful of limestone phosphate in it. This is a very excellent health measure. It is intended to flush the stomach, liver, kidneys and the thirty feet of intestines of the previous day's waste, sour bile and indigestible material left over in the body which if not eliminated every day, become food for the millions of bacteria which infest the bowels, the quick result is poisons and toxins which are then absorbed into the blood causing headache, bilious attacks, foul breath, bad taste, colds, stomach trouble, kidney misery, sleeplessness, impure blood and all sorts of ailments.

People who feel good one day and bad the next, but who simply can not get feeling right are urged to obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to make anyone a real crank on the subject of internal sanitation.

Just as soap and hot water act on the skin, cleansing, sweetening and freshening, so any drug, phosphate and hot water act on the stomach, liver, kidneys and bowels. It is vastly more important to bathe on the inside than on the outside, because the skin pores do not absorb impurities into the blood, while the bowel pores do.—Advertisement.

What to Do For Eczema

Greasy salves and ointments should not be applied if good, clear skin is wanted. From any drug store, get a bottle of Zemo. When applied as directed, it effectively removes eczema, quickly stops itching, and heals skin troubles, such as burns, wounds and chafing. It penetrates, cleanses and soothes. Zemo is dependable and inexpensive. Try it, as we believe nothing you have ever used is as effective and satisfying. Zemo, Cleveland.

STATE AIMING TO HALT WOOD FIRES

First Conferences Will Be Held This Week in Central Counties of State

The first county meetings for fire wardens and those attached to the fire prevention service of the state and local forestry organizations will be held this week in Central Pennsylvania counties as a means to stimulate public interest in the movement to stop forest fires. The State authorities have been given the support of the Boy Scouts, rural mail carriers' or-

ganizations, sportsmen's associations such as the Wild Life League, United Sportsmen, State Fish Protective and others. The meetings, which will be addressed by the chief of the new bureau of forest fire protection, George H. Wirt, and forest wardens and rangers, will be held as follows: Bellefonte, March 17; Pocono Summit, March 18; Wellsboro, March 20; Huntingdon, March 23; Clearfield, March 27; Bedford, March 28; Lock Haven, March 30, with meetings to be arranged in the northern half of Center, Elk, Mifflin and Cameron counties. In the last half year the organization of forest fire prevention has been extended over practically every county having extended wooded tracts and an elaborate system of telephone warnings has been worked out, farmers and others agreeing to telephone at the first sign of a fire, while owners of automobiles and motorcycles have entered into the plan of preparedness by offers of service. It is believed at the Department of Forestry that with this

system the time of thousand-acre forest fires in Pennsylvania will soon be brought to an end. The State, which has over 1,000,000 acres in State reserves, has agreed to help the forest fire service by State police, fish and game wardens as well as stream inspectors when necessary.

ESCAPING AUTOMOBILE TUBE FORMS MINIATURE BALLOON

A curious accident happened to an automobilist recently. While howling along at a 30-mile-an-hour clip, a rear tire came partly off, permitting a portion of the inner tube to escape. When the driver had succeeded in stopping the car and got down to inspect damages, he beheld the inner tube swelled into a huge balloon of football shape. The outer tire had pinched the inner one tight enough against the rim to inclose a considerable volume of air, thus causing the bulge. The queer sight is shown in an illustration in the January Popular Mechanics Magazine.

COUNTY FAIRS TO GET SOME ADVICE

Secretary Patton Will Talk Over the Necessity For More Farm Exhibits

Important matters in regard to the future policies of county fairs, agricultural exhibitions and similar affairs receiving State aid in the form of an annual allowance for premiums are to be settled at the annual meeting of the Association of State Fairs which is to be held in Harrisburg Tuesday and Wednesday of this week. Secretary of Agriculture Charles E. Patton, who has been urging that more attention be given to the display

of livestock, fruits, vegetables and other products of agriculture and its allied industries, will address the association and outline some plans. The association came into being a few years ago when the bill to establish a State fair was attracting much attention in the Legislature and at that time there was a general sprucing up among men interested in the fairs and arrangements to increase the agricultural end of exhibits. However, it is said that in the last two years many fairs have been visited by men connected with the State government and reports showed more attention to amusements, racing and the like than to the exhibits, which the State grants toward premiums are meant to encourage. What the State will expect in return for the appropriations and how the fairs can help encourage agriculture and build up a healthy rivalry among farmers will be outlined.
