Greatest Blood Remedy

Gives Results When Others Fail Nature's Remedy For the Blood.

The purifying and curative properties of Nature's great remedy have made 'S. S. S. for the Blood' a household name. Thousands to-day enjoying perfect health owe their recovery from blood or skin diseases to this universally used blood purifier. 'S. S. S.' is made entirely from roots, herbs and barks, which possess cleansing and healing ingredients. You cannot be well when your blood is impure; you lack strength and energy, your complexion is sallow, your vitality becomes pale and languid, your system is weakened. When water or refuse matter, which Nature intends shall be thrown off, is left in the system, it is absorbed into the blood and boils, pimples, rashes, blotches and other eruptions of the skin appear. 'S. S. S.' goes into the circulation and removes every particle of blood tainted or of every character. All skin diseases, such as eczema, dandruff, itching, smooth, clean skin, glowing with health, shows that the body is being nourished by rich, pure blood. Rheumatism, Catarrh, Gonorrhea, Syphilis, Blood Poison, all are deep-seated disorders, and for their treatment nothing equals 'S. S. S.' yours is a peculiar case write Swift Specific Co., Atlanta, Ga.—Advertisement.

---a flash; a sparkle; a thousand glistening lights of iridescent beauty that never grow dim---A DIAMOND!

Do you know the joy; the genuine pleasure derived from the ownership of a Blue-White Diamond, perfectly cut and mounted to meet your own personal tastes and individuality? If you do, you'll keenly appreciate the rare opportunity offered in this

EXCEPTIONAL DIENER DIAMOND EVENT

We are truly gratified with the way our announcement of last Thursday was received. Since the opening of this unusual Diamond event, we have sold hundreds of dollars' worth of these beautiful gems.

But what makes this sale of paramount interest is the fact that the steadily increasing prices in the Diamond market have very recently taken another step, still higher—an increase of from 5 to 10 per cent. and still another sharp increase amounting from 12 to 20 per cent. will go into effect within the next two months.

However, before the last increase was effective, I made a trip to New York and personally selected and purchased \$20,000 worth of unmounted diamonds. This magnificent stock of Diamonds, purchased before the price increase, permits you to secure real bargains, selecting your gem from hundreds of fine stones.

And in addition to these money-saving-to-you-prices, I am making the most generous re-purchase proposal ever offered. I will actually pay you for wearing a diamond—I will pay you, in cash, the full purchase price, plus the same interest your bank would pay you on your money.

Prices Range From \$50 to \$400

Facts on Diamond Values and War

Diamonds have never decreased in value. The South African mines produce 98 per cent. of the world's supply. English capital control of these mines which were shut down with the beginning of the war, and are still closed. England, owing to the war will not have the capital to resume at once extensive operations of these mines. Diamonds will be necessary to the war effort consequently increase in value. Diamond cutting requires experienced workmen. Belgium, the country of diamond cutters has sacrificed most of her men in war and the industry in Belgium has been wiped out. These facts compel a steady increase in diamond prices and NOW is the time to buy!

"What We Say It Is, It Is"

My Repurchase Agreement

I will buy back the Diamond, and pay in cash the full purchase price, plus 4 per cent. interest on that sum, if the stone is offered me 4 years after the date of purchase, or within 4 years and 6 months from that date, provided 20 days' notice is given me that the stone will be offered for repurchase.

I will pay in cash the full purchase price, plus 3 per cent. interest on that sum, if the stone is offered me 3 years after date of purchase, or within 3 years and 6 months from that date, provided 20 days' notice is given me that the stone will be offered for repurchase.

I will allow the full purchase price at any time in exchange for a more valuable Diamond; no previous notice being required.

A LETTER FROM THE CONVENT OF ST. MARY AT FARNHAM, N. Y.

The Sisters in Charge Tell of Good Results From Using Father John's Medicine: A Body Building Food

We have permission to quote from the following letter recently received from the Sisters of St. Mary at Farnham, N. Y.: "The sisters who have been taking Father John's Medicine are perfectly cured of their cough, after having tried several other kinds of medicine without the least beneficial effects. We are sincerely grateful and would like to recommend Father John's Medicine to all as the very best for the most stubborn coughs and colds. Gratefully yours, (Signed), Sisters of St. Mary, Farnham, N. Y. Father John's Medicine is best for colds because it is composed of nourishing food elements which give new strength and rebuild wasted tissue. Father John's Medicine is a doctor's prescription, and is free from alcohol or dangerous drugs in any form."

WHAT THE SHOPS ARE SHOWING

Fickle March with all its bluster still gives us some delightful days, when all out-doors calls to us to come and enjoy it. Whatever outdoor pleasures we prefer, everyone agrees on the joys of kodaking and now is the time to plan for the coming season and select the particular kodak one wishes. The Gorgas Drug Store, 16 North Third street, makes a specialty of Eastman kodaks and supplies, and their stock is so large and complete that one may find there anything that could be desired in this line, ranging from the popular little Brownie at \$1.00 to the most expensive and complete kodaks with all the newest attachments.

Warm Again, Cold Again

With one day warm and the next day cold, it is very helpful to have a furnace that can be easily and quickly regulated, and the Penn Perfect furnaces, sold by the Himes Hardware Store, 10 North Market Square, are especially easy to regulate. Large rounded flue strips, and a special jog placed below the drum with outlet through the lower casing from the popular little Brownie at \$1.00 to the most expensive and complete kodaks with all the newest attachments.

Checked Suits

Prominent among the desirable novelties for Spring are the checked materials and suits now so much in vogue, and the new suits offered by Astrich's, Fourth and Market streets, are not only most attractive, but are distinctly out-of-the-ordinary. They are showing some charming suits in white, brown and tan, black and white with just a thread of green and other combinations which give the touch of French chic to these popular styles. The suits exploit a wide variety of pleasing styles, and Astrich's make a specialty of suits priced especially during the Lenten season, at these things are as nourishing as meats, and far more wholesome. The

Studebaker Grocery Store, Second street at the crossing of State, offers not only the ordinary nuts, dates and figs, but has also the shelled nuts, and wonderful preserved and stuffed figs, and dates, unusually fine raisins, and some special pecans of unusual size and most delicious flavor.

Building a Shoe

Did you know that it is just as appropriate to speak of building a shoe as of building a house? It is the construction of a shoe that gives it its appearance and wearing qualities, and it is the excellence of material and workmanship used in the manufacture, or "building" of Walk-Over Shoes, that not only gives them their distinctive appearance, but makes them hold their shape and wear so long. They are showing now a smart model in the new Royal kid—a most especially fine, soft kid in dull finish, which is suitable for dress or street wear. It is well designed with French heel and designated tip, and sells for \$5.50.

Monsen the Explorer Lectures Here Wednesday

Frederick Monsen, explorer, artist, lecturer whose twenty years of experience among primitive people and in little known lands, together with his ability as an artist and skill as a photographer, has given him a wealth of material that few, if any, explorer-lecturer can equal, is just entering his twenty-second year on the lecture platform. During this time he has delivered more than 2,000 lectures. More than ninety lectures before the Brooklyn Institute of Arts and Sciences alone is a record worthy of note, and his lectures in England and the United States, given under the auspices of famous geographical and other scientific bodies, attest his reputation. His famous lecture on "Deserts and Perils of America's Deserts" will be given Wednesday night in the Technical High School under the auspices of the Harrisburg Natural History Society.
