FOODS THEY BUILD OR DESTROY

Amazing but Rarely Suspected Truths About the Things You Eat. (Copyright, 1916, by Alfred W. McCann.)

CHAPTER 32 The evils of constipation, ignored by the false and dangerous attitude of the public, are due to the modern system of denaturing the most important natural products of the nation's food supply.

The world little suspects the gravity of constipation, or the readiness with which it submits to correction. Even the physician needs to be reminded of the serious nature of this preventable and entirely unnecessary evil.

Listen to what Drs. John H. Musser and George Morris Piersol, of the University of Pennsylvania, have to say to their brother physicians throughout the United States if you would begin to appreciate the folly of looking upon constipation as a trifling disease. Here are their words:

"No clinical symptom is more frequently encountered in the practice of medicine than constipation. The commonplace and obstinate character of the affection is perhaps responsible for the prevalence of the idea that constipation is a necessary evil rarely capable of permanent cure."

"As a result of this false and dangerous attitude the people are prone to look upon the condition with indifference, while the physician content with a certain degree of temporary relief, too often brought about by the easiest means at their disposal, namely, the use of purgative drugs."

"This attitude is not only erroneous, it is harmful. Constipation is but a symptomatic expression of some underlying disorder, and attention to the efficient must be directed, not to the temporary removal of the symptom, but at the cause."

"Dietetic errors are among the most frequent causes of constipation. These consist in food which is deficient in residue (bran) by reason of which the bowel is deprived of the mechanical stimulus necessary to promote proper intestinal activity."

"A diet suitable for constipation must be one which furnishes adequate stimuli to the intestine, which by means of undeposited residue and the various chemical substances elaborated during its digestion."

"Do these words mean anything to the mother who feeds her child with the mother's milk, or the child with wheat, oatmeal, cornmeal, etc.?"

"The intestines of the child are also undergoing vital changes at this period, and it is therefore vital to the offspring to establish perfect peristalsis of the mother's intestines. Elimination and evacuation should be regular without drugs. Constipation is the enemy of both mother and child."

STYLE SHOW OPENS AT D. P. & S. STORE

All Manner of Beautiful Things in Women's Wear Are on Display

More beautiful than ever is the Style Show at the formal opening of the Spring season at Dives, Pomeroy & Stewart.

Greater weeks past this store's corps of artists and decorators has been busy preparing a brilliant setting for the presentation of the season's new modes in millinery, outer garments and dress accessories.

There never was a time when the offering of new spring goods was of such especial beauty as at this time. First of all, beautiful colors are predominant in the new styles.

Buyers from each department on their trips to Philadelphia and New York have returned with what they believe will please the patronage resulting in a vast variety of the season's best offerings.

The references of Drs. Musser and Piersol to whole oatmeal, whole cornmeal, and the coarser cereals will, in their proper places, release a volley of protests, each one of them sufficiently startling in itself to provoke a panic among the commercial beneficiaries of denatured breakfast foods and cereals.

It has been conclusively established that bread made of the whole wheat, just as it comes through the cleaning and sifting process, together with the other unrefined foods to which these words are dedicated, will save our daughters and our daughters' children from the hundred evils which food fakes have imposed upon them.

Dr. Albert Westlake, in his paper on "Babies' Teeth to the Twelfth Year," says:

"The teeth should receive consideration at least six months before the child is born. Necessary elements in their building are furnished at this period by the mother's blood."

"The materials for gowns other than coat suits which will be the most general worn this year are taffetas, plain, striped, or plaid patterns. Black or white, or blue shading from the darkest blue to the light Helian blue, brown, purple and old rose are the colors of the season."

Coat suits of taffeta silk are generally of dark blue and black, but here and there one sees a modish suit of taffeta or serge of the lighter color and certainly nothing more beautiful can be imagined than the suits of old rose serge or the very fashionable "deer" serge.

May Wear Top Coats Owning to the fact that light gowns and the silk coat suits are to be most generally worn this year, many women and young girls will feel it necessary to have a top coat for the cool spring days and evenings.

Hats Large or Small Prettier models of millinery have never been shown than those presented this season. And surely there never was a wider variety of styles.

Waists, lingerie and undergarments are not the least of the attractions for many new articles of apparel are seen and familiar ones fashioned along new lines are hardly recognizable.

For SHAVING TELERICKS CUTICURA SOAP IS ALWAYS BEST

Because of its super-creamy emollient properties. Full directions for sensitive shaving without mug with Cuticura.

Sample Each Free by Mail With 3c in Skin Book on request. Advertisers post-card "Cuticura, Dept. 146, Boston." Sold throughout the world.

Won His Fight Bet, but Lands in Police Toils

An argument over a game of pool last night, resulted in the arrest of W. J. Baymiller and Mark Vecchione, alias "King Bull" after a fight had been started in Market street.

Baymiller, who has a reputation according to the police, of being a prize-fighter of renown in the west end of the city, bet \$50. It is said, that he could get a decision over Vecchione. The two went out into the street, and "King Bull" dropped in the "first round." Sergeant Drabentz broke up the fight, and took the pair to police headquarters.

Friends of the two furnished them \$5 each as a forfeit. They were given a hearing this afternoon before Mayor Meals, who fined both of them.
