STEWARD OF HOME KEPT NO BOOKS

Cumberland County Auditors Surcharged Keeper and Poor Board

Special to the Telegraph Carlisle, Pa., March 15.—Because John H. Westfall, former steward of the county home kept no books, and investigation shows a deficit in the amounts he was shown to have received over what he turned over, the board of county auditors have entered a surcharge against him in the sum of \$158.25.

These facts have become public, although the report of the auditors will not be presented until next Tuesday when the court meets in regular session. The portion of the report finding a surcharge has been given out. The auditors have been conducting an investigation of the matter and a number of hearings were held. The surcharge amount is arrived at after considering all of the sums which the investigation showed were received for board and produce, from the total amount which the treasurer's books show was turned over.

Mr. Westfall, the former steward, is now engaged in business in the lower end of the county. The members of the former board were Jacob Ruth, S. M. Hertzler, Mechanicburg, and D. W. Sunday, Middlesex. The members of the board of auditors are J. J. Brehm, Walnut Bottom; William Doehl, Carlisle, and S. H. Elmer, Getter, Newville. The former poor board was Democratic, the auditors and present board Republican.

Lumber Quality--And Price

If somebody tells you he can sell you lumber at a lower price than we offer you, don't be "taken in." He is offering you a "bait." We don't believe there is a dealer in the country who makes prices lower than ours, quality equal. He can't do it and stay in business. Examine our grades and prices before giving out your lumber contract. United Ice & Coal Co. Forster and Cowden Sts.

What About the Teeth?

Statistics show that only about 14 out of every 500 New York City school children have sound teeth. Probably similar conditions prevail elsewhere.

There's a Reason! And it lies to a great extent in the demineralized foods that make up the usual diet of children. The body must have its quota of mineral elements—lime for the teeth, iron for the blood, phosphate of potash for the nerves, etc.—or disaster is pretty sure to follow. Many foods—especially white bread—are woefully lacking in these vital mineral elements.

Grape-Nuts

The famous food, is rich in these elements. It is made of whole wheat and malted barley, retaining the mineral salts so abundantly stored in the grain by Nature. Grape-Nuts is easily digested, appetizing, and highly nourishing. Along with other food, a daily ration of Grape-Nuts does much toward correcting dietetic faults in both children and adults.
