

DYSPEPSIA OF WOMEN

Special Treatment Required.

Many women suffer from a form of indigestion or dyspepsia which does not yield to ordinary treatment. While the symptoms are similar to those of ordinary indigestion, yet the medicines usually prescribed do not restore the patient's normal condition.

There seems to be a kind of dyspepsia caused by derangement of the female organism. While this appears to be the same as ordinary indigestion it can be relieved only by a medicine which, besides acting as a stomach tonic, is good for female ailments. Read what such a medicine did for Mrs. Williams:—

She says:—"Before I began taking Lydia E. Pinkham's Vegetable Compound I was troubled with dyspepsia and bearing down pains in my back and sides, and after my meals my stomach would bloat up till I could scarcely get my breath. At times I was so weak I could hardly stand on my feet and I looked hollow-eyed and my skin was yellow. Now I have a good color, have gained in every way and can do my work without any pains. I think it is the best medicine on earth for stomach troubles of women."—Mrs. NELLIE WILLIAMS, 31 West 3d Street, New Albany, Ind.

DRINK HOT WATER IF YOU DESIRE A ROSY COMPLEXION

Says we can't help but look better and feel better after an inside bath.

To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of incombustible material in the form of ashes, so the food and drink taken each day leave in the alimentary organs a certain amount of indigestible material, which if not eliminated, form toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body.

If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon arising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and purifying the entire alimentary tract, before putting more food into the stomach.

Men and women with sallow skins, liver spots, pimples, or pallid complexions, also those who wake up with a coated tongue, bad taste, nasal breath, others who are bothered with headaches, bilious spells, acid stomach or constipation should begin this phosphate hot water drinking and are assured of very pronounced results in one or two weeks.

A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, purifies and freshens the skin on the outside, so hot water and limestone phosphate act on the inside organs. We must always consider that internal sanitation is vastly more important than outside cleanliness, because the skin pores do not absorb impurities into the blood, while the bowel pores do.—Advertisement.

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No griping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth" now and then—bad breath—stomach tired feeling—sick headache—torpid liver and are constipated, you'll find quick, sure and only pleasant results from one or two little Dr. Edwards' Olive Tablets at bedtime.

Thousands take one or two every night just to keep right. Try them. 10c and 25c per box. All druggists. The Olive Tablet Company, Columbus, O.—Advertisement.

To Avoid Dandruff

You do not want a slow treatment when hair is falling and the dandruff germ is killing the hair roots. Delay means—no hair.

Get, at any drug store, a bottle of Zemo for 25c or \$1.00 for extra large size. Use as directed, for it does the work quickly. It kills the dandruff germ, nourishes the hair roots and immediately stops itching scalp. It is sure and safe, is not greasy, is easy to use and will not stain. Soaps and shampoos are harmful, as they contain alkali. The best thing to use is Zemo, for it is pure and also inexpensive.

Zemo, Cleveland.

PARALYSIS Conquered At Last By **DR. CHASE'S Special Blood and Nerve Tablets** Write for Proof and Booklet. Dr. Chase, 224 N. 10th St., Philadelphia, Pa. **BO-SAN-KO'S PILE REMEDY** Gives instant relief in itching, bleeding, protruding Piles. Dr. Bo-San-Ko Co., Philadelphia, Pa.

GOVERNOR TALKS ABOUT THE FAIRS

Urges Men Interested to Advance Agriculture More Than in the Past

Governor Brumbaugh in an address to members of the State Association of County Fairs late yesterday outlined the way in which he proposes the State shall help the fairs and the way the fairs can advance agriculture in the State. The address was much commented upon for the manner in which the Governor set forth the situation.

In the course of his speech the Governor said:

"In the first place, the Department of Agriculture here, under Mr. Patton, whom you will find to be a competent, capable and loyal friend of your work, will be so reorganized this coming summer that we shall hope to have very much larger exhibits of real Pennsylvania products than we have ever had before. Now, therefore, we look upon you as an agency for the making of this work of the Department known to the public at large. You are the advertising side of that whole proposition, because at your county fairs thousands and thousands of people will be there to see what is being done and they will go back and try to repeat what they have seen in their own enterprise, and in that way build up the agricultural interests of the Commonwealth.

"I am interested also in your work because I recognize another feature which you can necessarily attach to your county fairs, and that is the recreational side of that work. You have got to have there something that will attract a large number of people and give them the entertainment they want, and which, if it is proper, means not only wholesome enjoyment but a source of education as well. I am not opposed to that, but I ask that you take this up in such a way as to give clean and wholesome pleasure. You can do that, and you know it is important if you want to continue to have successful exhibitions.

"I want to add also that in whatever way we can add to the wholesome pleasure of our people, in whatever way we can get large masses of our people to these county fairs, the thing seems to me to be wholesome, feasible and wholly desirable, and I shall do everything I can to help you make for each of your counties a satisfactory and helpful exhibition."

The Governor also suggested that a small committee be appointed, under whatever name might seem best, "from time to time as your problems come up, to talk it over with Mr. Patton and secure definite official relation between the State administration and your organization. Thus we might know what you are doing and what you are trying to do. We could also help you in that way, and come to a definite and complete understanding from time to time as to what is best. We are always ready to receive delegations, as you understand."

Soldiers in Trenches May See "The Movies"

A letter from the war front in Europe gives an interesting description for a motion picture theater near the firing line in Flanders. The theater is operated by several British army officers to provide relaxation and amusement for the troops when off duty.

There are usually two performances each evening, with a four-reel program. The soldiers pay twelve cents admission, while the officers are charged a little more. The expenses are very low, since most of the work is voluntary, and all profits are devoted to charity. The operator and pianist were both formerly employed in the same capacity in motion picture theaters in London. The power for the lights and the machine is obtained by fastening a dynamo to an automobile.

At first all the films were obtained from Paris, but the cost was so high that the theater was being operated at a loss. The lieutenant in charge of the theater then went to London to attempt to rent the films at a more reasonable price. When he had explained his desires to the officials of a motion picture concern he was offered sixteen thousand feet of film monthly until their supply was exhausted.

It is said that it is by no means unusual to hear the reports of shells while the performance is progressing, as the firing line is but a short distance away.—February Popular Science Monthly.

PARK HIGHWAY CUTS CONTINENTAL DIVIDE

One of the interesting stretches of the new park-to-park highway, extending between Yellowstone and Glacier parks in the continental divide section. This part of the road has been constructed by the forest service with the co-operation of the county through which it passes. On the crest of the Bitter Root Range at Sula, Mont., a rustic archway has been erected. About 100 yards east of this log structure is the source of Trail Creek, which leads to the Missouri River. Camp Creek a tributary to the Missoula River, which feeds into the Columbia, begins about one mile to the west. Signboards carrying information of interest to overland tourists are attached to the supporting columns on each side of the arch. The mountainous part of the continental divide section is about seven miles in length and much of it is margined by cliffs and precipices. Dangerous points in the road are marked by warning signs, and the respective distances to various places are likewise given at intervals. The road will be opened to the public in 1916, and it is expected that a motorage service will be inaugurated between the two parks.

A full page illustration in the January Popular Mechanics Magazine gives a number of interesting views of the road.

THE IMITATIVE CHINESE

On October 10 was celebrated the fourth year of the Republic of China; and the newspapers counseled, "Celebrate well, for it will be your last opportunity; the Republic is about to go." I did not believe it then, but I do now. Plans are well under way for the coronation of H. I. M. Yuan Shi Kai.

On Monday last there was an election day in the land, and selected men from each township were notified of their right to vote, and were called upon to put their mark to the question: "Are you willing for the country to become a monarchy?" Men who saw the ballots say that there was a just room to write "Yuan Shi Kai" (willing), but no room for "Pu" (not). They say there were soldiers and other signs that "not" was not wanted at Peking, all of which makes Southern China restive.—Correspondence of the Christian Herald.

GORGAS, The Druggist

16 N. Third St. Penna. Railroad Station

IMPROVEMENT PLANS DISCUSSED
Penbrook, Pa., March 15.—At a meeting of the Parent-Teacher Association and the Civic Club of Penbrook last evening the question of a new town hall, plans to lower the borough tax rate, additional school facilities, the annexation of new territory and a number of other municipal subjects were discussed.

BOY FALLS UNDER TRAIN
Hagerstown, Md., March 15.—Ernest Ferris, aged 15, was probably fatally injured by falling under a Baltimore and Ohio freight train at Hancock station while attempting to board the train. One leg was severed at the hip and the other leg badly mangled.

WAGES INCREASED
Washington, March 15.—Wages of farm laborers increased slightly in the leading grain States and remained stationary or declined slightly in the cotton States, according to figures today by the Department of Agriculture. The changes are attributed to higher grain prices and lower cotton prices.

ENTERTAINING GUESTS
Lemoyne, Pa., March 15.—Mr. and Mrs. Earl Witman are entertaining Misses Edith Hills and Mary Hoffman, of Washington, D. C., and Miss Grace Houghton, of Milton, in their charming flat on Hummel avenue.

FREDERICK KILHEFFER DIES
West Fairview, Pa., March 15.—Frederick Kilheffer, aged 90 years, died at his home here on Monday. Funeral services will be held from the house to-morrow afternoon at 2 o'clock.

SANDBAGGED AND ROBBED
Special to the Telegraph
Waynesboro, Pa., March 15.—John Dennison, of Mercersburg, was lured into a watch box on the Western Maryland railroad, Chambersburg, and Clerk Barry M. Hartle, of Hagerstown, sandbagged and robbed. Stewart Clugston was arrested.

ORDERED TO REGIMENT
Hagerstown, Md., March 15.—Lieutenant Russell P. Hartle, of the Twentieth United States Infantry, stationed at El Paso, Texas, a son of ex-County Clerk Barry M. Hartle, of Hagerstown, has been ordered to the Mexican border to report for duty.

CASTORIA For Infants and Children. The Kind You Have Always Bought. Bears the Signature of J. C. Atchison
