27x54 inch Axminster rugs; \$2.00 value. Friday only **\$1.59**
Dives, Pomeroy & Stewart, Third Floor.

"I give Father John's Medicine to My Children and It Keeps Them Well and Strong."

In a recent message from Cedar Rapids, Ia., Mrs. T. F. Gaines, the mother of three children says: "I am pleased to recommend Father John's Medicine to anybody who wants a medicine to build them up. I give it to my children and it keeps them well and strong." (Signed) Mrs. T. F. Gaines, 251 So. 2nd St., W., Cedar Rapids, Ia.

It is of vital importance to mothers of growing children to know the value of Father John's Medicine as a safe family remedy, because it is pure and wholesome nourishment and is free from morphine, opium, chloroform or any other dangerous drugs. It has had more than 50 years success in the treatment of colds, throat troubles, stubborn coughs, sore throats and as a tonic and body builder. It is especially valuable in the getting-well stage following any serious illness when strength building food is required. Be sure you get what you ask for.—Advertisement.

SHOOTING RANGE IS REPORTED SET ON MT. CALVARY

Place of Christ's Crucifixion Is Desecrated; Many Holy Places Change Hands

London, March 9.—(Correspondence of The Associated Press).—The care of the Holy Places brought on the Crimean War, with the siege of Sebastopol, the battle of Inkerman and the Charge of the Light Brigade, just as the care of these Holy Places, so called, had before that convulsed all Europe with the three Crusades, and yet the care of these same Holy Places—the Holy Sepulcher at Jerusalem, the place of the Nativity at Bethlehem, and the countless other landmarks of the birth of Christianity—are changing hands as an incident of the present war, and almost imperceptibly because of the noise of the conflict in so many other theaters of warfare.

One report is that a military shooting-range has been set up on Mount Calvary, the site above all others venerated by the Christian world as the place of the crucifixion. But inquiry establishes that if this rifle-range exists it is at the Gordon Calvary, so called, after General Gordon of Khartum fame, who designated it as what he believes to be the real site, though it is not the Calvary commonly accepted by tradition, venerated and guarded by pilgrims and the church, and contended for by European nations. This Gordon Calvary is in the outskirts of Jerusalem, some distance from the traditional site of the Holy Sepulcher.

Holy Land Occupies
From a military standpoint, all at-

tention to the German-Turkish military operations in Syria has been absorbed in the slow approach southward toward Egypt and the Suez Canal, that rich prize supposed to be the link between Europe and the Orient. But while this main military object has been going on, it has involved at the same time the steady occupation of the entire Holy Land as part of the field of preparation and advance, with military forces in control at Jerusalem, Bethlehem, Nazareth and throughout the region of the Holy Places, and the countless other English and other custodians of these sites, expelled or interned. Seven of the Italian custodians at Bethlehem—the site of the nativity—have recently been interned by the military authorities, and their place is to be taken by Austrian custodians.

The sweep of this German-Turkish movement through the Holy Land is shown by the fact that the military railway, on which the approach to Egypt depends, is believed to be constructed to the desert outskirts of Beersheba. This is the same town referred to in the holy books which created the Biblical phrase "from Dan to Beersheba," as it is the uttermost limit of the Holy Land, where it merges into the desert leading to Egypt. It is this Biblical point, Beersheba, which is expected to be the military base, to which the railway will bring down supplies from the north, for the advance across the desert, should the attack on Egypt ever be carried out as it has been loudly heralded. So that Beersheba to-day is performing the same function as in Biblical days—the last outpost before entering the desert, 150 miles across, with an ocean of white sand and almost no water holes—none adequate for the watering of a great army. The only water here must be such as is mounted on camels, with the dazzling white sand as deadly to the eyes and throats of beasts and riders as poison gas is to the men on the firing line.

Cardinal Bourne in the course of a talk with the Associated Press mentioned the solicitude felt for these sacred shrines and the gradual way their care was changing hands. He pointed out, however, that the Sultan of Turkey had in past years given

guarantees for the continued Christian protection to the shrines, so that while the nationality of this care might change the Cardinal felt that it would still be Christian. For specific inquiries on the Holy Places, the Cardinal's entourage referred to the Commissioner for the Holy Land, a member of the Franciscan community located in the outskirts of London.

Seen at the Franciscan monastery, the Commissioner, Fr. Albert, gave such information as had filtered through. As to the report of a shooting-range at Calvary he pointed out that this did not refer to the sacred spot accepted for centuries as Calvary, but to the so-called Gordon Calvary first located by General Gordon a few years ago. After Gordon's services in China, where he became famous as "Chinese" Gordon, he spent some time in the Holy Land, and then in the Sudan where he was a victim of the Mahdi at Khartoum before the Kitchener Relief Expedition arrived.

Have Custodians
The last time Fr. Albert visited the Holy Land he was in company with Lord Bute, and as they passed this so-called Gordon Calvary, Lord Bute stated that Lord Kitchener had told him he supported the claim of General Gordon as the Gordon Calvary. This was a curious circumstance, Gordon, the victim of Khartoum, locating a new Calvary, and then Kitchener of Khartoum, supporting the theory of the explorer whose fame was so closely linked with his own at Khartoum.

The reports reaching Fr. Albert indicated that the Italian and French custodians of the different Holy Places had been interned by the military authorities, Austrians or some of the Eastern sects replacing them. There are many of their sects—Coptic, Greeks, Armenians and even Abyssinians—though little is known of who is in charge, except that most of the Latin custodians are interned.

While the changes do not constitute a loss of Christian control, yet they show the shifting of the nationality of that control, which has been a frequent cause of international complication in the past.

Besides the main points of military

operation in this locality, like Beersheba and Jerusalem, the whole range of this Biblical country is affected by the military activity. But the chief interest is at Bethlehem, Nazareth and Jerusalem. At Bethlehem is the sanctuary of the Nativity, a subterranean chamber thirty-two feet long, enclosed in rare marbles and constantly guarded and lighted, with a marble slab making the place of the Nativity. At Jerusalem is the basilica over the Holy Sepulcher, first built by Constantine, often swept away and built again, and now a vast monument, embracing within its walls and beneath its dome the sacred tomb which has been guarded for ages.

Socialist Presidential Candidate Gives Views
Yonkers, N. Y., March 20.—Allan L. Benson, of this city, Socialist candidate for President and the earliest named party leader for the November battle, to-day in an interview told why he believed socialism has an especial appeal now and prophesied the organization will get between 1,500,000 and 2,000,000 votes this Fall.

"It is very simple," Mr. Benson said. "The European war is opening the eyes of the working people and the fact that the competitive system—the private ownership of industrial organizations—creates an owning class. That owning class which has the trade at present must struggle to keep it, and must struggle to extend it to other countries. That owning class which hasn't the trade is bent upon getting it, no matter how."

"The soldiers in this war, I think, are realizing more and more that they are not fighting for themselves or their country but for their industrial masters. More soldiers are reading and learning the truth in this war than ever before. They are learning that fighting is a business no man should take part in except for self defense."

"My campaign will be an effort to save the United States from the fate of Europe, for forty years European Socialists have been warning the old countries that this war of owning classes would take place. But their warnings went unheeded. Now we propose to warn the United States. Our eyes has come to a state where it is what the economists call an 'exporter

of capital.' It has so much money that it must seek space beyond its own borders to invest that money."

In No Danger
"I do not believe we are in any danger of being attacked. I do not believe President Wilson thinks we are facing that danger. If he did, wouldn't he be pushing the completion of the two super-dreadnaughts, authorized in March, 1915, two years ago, which were to be the biggest things in the world? Why, their keels haven't been laid yet! I believe that it is capital which is stirring up all this business of 'preparation.'"

I purpose in my campaign to show what brought about this European war and to demonstrate that the same forces are now at work here and will inevitably plunge this country into war. I do not mean war this year, or in ten years or in twenty. I think Europe is sick of fighting, and no nation or combination of nations has the stomach to attack us. But if our owning classes keep reaching out, like those others did, we will eventually be at war with some one.

"Then I purpose to argue that if the people owned the nation's industries (which is the Socialist platform) and if those industries were operated for use—not for profit—there would be no wars. Peoples themselves would never go to war unless urged by monarchs or industrial rulers. There would be nothing under Socialist rule but kindness and a spirit of help the other way around."

"All natural resources, all industries, would be in the hands of the government. The government would be in the hands of the people—which it certainly is not now—and the people therefore would truly and actually govern themselves and their work and their production."

The Socialist candidate expects to swing around the northern section of the United States from September 1 on, going from coast to coast. The candidate for Vice-President, George R. Kirkpatrick, of Newark, will tour the Southern States at the same time.

Today's Aid to Beauty

An especially fine shampoo for this weather can be easily made at trifling expense by simply dissolving a teaspoonful of canthrox in a cup of hot water. Pour slowly on scalp and massage briskly. This creates a soothing, cooling lather that dissolves and removes all dandruff, excess oil and dirt. Rinsing leaves the scalp spotlessly clean, soft and pliant, while the hair takes on a glossy richness of natural color, also a fluffiness which makes it seem very much heavier than it is. After a canthrox shampoo arranging the hair is a pleasure.

Gray Hair Restored to its Natural Color

In a few applications to its original dark, glossy shade, no matter how long it has been gray or faded, and dandruff removed by
