LEGISLATOR IN STATE POSITION

Attorney General Holds That It Is Not Illegal to Appoint William L. Adams

Appointment of Representative William L. Adams, of Beaver Brook, member of the House from the First Luzerne district, to the position of claim adjuster under the State Workmen's Insurance Board at a salary of \$1,200 was defended as not illegal by State officials to-day. Adams is now a member of the House by election in 1914 and is a candidate for renomination. The Constitution forbids a legislator from holding any civil office under the commonwealth. Attorney General Brown said to-day that appointments of legislators to positions which were merely clerical were not barred and held that as long as members were not named to offices which carried discretionary power there could be no objection. It is understood that members of the State Insurance Board were informed of this conclusion of the Attorney General before they elected Adams. In addition to Adams, Representative Joseph Evans, Jr., of Nanticoke, is holding a clerical place in the Department of Labor and Industry. This place, said Commissioner Jackson, was

merely temporary and could be terminated at any time.

The commission to-day heard the first complaint that a gas company has not obtained authority before commencing operations, the Clarion Gas Company, of Clarion, charging that the Myer Gas Company was operating illegally.

Petitions Filed.—Nominating petitions were filed to-day as follows: Congress, W. E. Champaign, Wellsboro, Republican, Fifteenth; House, L. F. Penchoff, Waynesboro, Republican, Franklin; John M. C. A 10 Days Flesh Building Test For Thin Men and Women Who want to Increase Weight

Report Gains At Rate Of Three To Five Pounds A Week In Many Instances. Full Directions Given

Most thin, rundown men and women would probably be glad to increase their weight with ten to twenty-five pounds of good, firm, solid, healthy stay there flesh and fat if they believed it possible to accomplish such result by merely making the flesh making materials in their daily meals do a little more work than they are doing now. This is said to be the chief reason why most thin people do stay underweight. They are so constituted that they fail to fully assimilate the nourishment of their food, a great deal of which passes from the body as waste. Increase assimilation to normal and normal weight follows as a matter of course. If you are ten pounds or more underweight and believe this can't be done in your case, here is a simple inexpensive and really harmless test that is well worth trying. First weigh yourself. Then with each meal for ten days and each night as you go to bed take a single Sargol tablet. Then weigh yourself again and let the scales tell the story. Sargol may not increase your weight as much as one pound a day but with whatever increase in your weight may be shown you can decide what its continued use for a few weeks further may be able to do for you. Sargol does not of itself make fat, but consisting of a

splendidly balanced combination of assimilative aids and flesh-building agents it mixes with your meals for the purpose of making it easier for your blood to accept their strength, flesh and fat-making nourishment and turn it into strength, flesh and fat upon your body. A great many people have gladly told that it succeeds. There are many reports like the following: "I have increased 18 pounds in less than a month," wrote a man from Colorado. Another man who said he had been losing over a pound a week and was under 125 pounds, gained two pounds in 30 days while taking Sargol and "been gaining ever since." Last report over 170 pounds. Better than 15 pound gain. A lady from St. Louis wrote, "Have gained 16 pounds and am still gaining." Sargol rule should be taken 30 days or more where results like above are desired. The tablets are small, easily swallowed, produce no disagreeable effects, contain no habit drugs, are harmless and not at all expensive as compared with results said to be obtained. NOTE—Sargol, referred to above, is well known as a flesh builder to G. A. Gorras as well as many other of the leading local druggists who further, more sell it on the positive guarantee, as found in each large package, of satisfactory weight increase or money back. In view of this liberal offer and the harmless nature of the remedy, it would seem that all who desire increased weight should be glad to give this method a trial.—Advertisement.
