

WONDERFUL TALE OF AN ACTRESS

Struggled with Sickness and Discouragement; How Relieved.

Dayville, Killingly, Conn.—“I shall be glad to have every woman know what I know now, after using Lydia E. Pinkham's Vegetable Compound. Although I am only 24 years old, I have suffered for the past eight years. I hated the doctors, for a doctor told me to give up the stage where I was playing with my husband.

I had bearing down pains, my health failed me, and I could not work on the stage, and wasn't able to tend my baby or even get around myself. I was always downhearted and discouraged with the world, and only lived for the sake of my little girl. The doctor said to move to some quiet little town away from the noisy city, and I might be able to live and feel well, so I went to Dayville in November. At that time I was so sick I could not walk around, and my husband kept house and I stayed in bed. One day in January I read your advertisement in a newspaper, and I sent for Lydia E. Pinkham's Vegetable Compound, and started taking it. Within two weeks time I was a different woman, could get around, and felt so good that it was a pleasure to do my household work. I felt contented and happy, and now am the picture of health, and am tempted to return to the stage. We appreciate my health as the most precious thing on earth.”—Mrs. H. L. KLENETT, Box 85, Killingly, Conn.

RECIPE TO CLEAR A PIMPLY SKIN

Pimples Are Impurities Seeking An Outlet Through Skin Pores

Pimples, sores and boils usually result from toxins, poisons and impurities which are generated in the bowels and then absorbed into the blood through the very ducts which should absorb only nourishment to sustain the body.

It is the function of the kidneys to filter impurities from the blood and cast them out in the form of urine, but in many instances the bowels create more toxins and impurities than the kidneys can eliminate, then the blood uses the skin pores as the next best means of getting rid of these impurities, which often break out all over the skin in the form of pimples.

The surest way to clear the skin of these eruptions, says a noted authority, is to get from any pharmacy about four ounces of Jad Salts and take a tablespoonful in a glass of hot water each morning before breakfast for one week. This will prevent the formation of toxins in the bowels. It also stimulates the kidneys to normal activity, thus coaxing them to filter the blood of impurities and clearing the skin of pimples.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice combined with lithia. Here you have a pleasant, effervescent drink which usually makes pimples disappear, cleanses the blood and is excellent for the kidneys as well. —Advertisement.

NERVES TREATED FREE

DR. FRANKLIN MILES, THE GREAT Specialist, Gives New Book and a \$2.50 Neuropathic Treatment Free as a Trial

Sick people whose nerves are weak or deranged—who have blues, headache, dizziness or dullness; nervous dyspepsia, irritability, cold hands and feet, shortness of breath, palpitation of irregular heartbeat, drowsiness, nervousness, sleeplessness, trembling, wandering pains, backache, irritable spine, hysteria, and many cases are complicated with heart, stomach, bowel, bladder or rheumatic troubles—would do well to accept Dr. Miles' liberal offer. You may never have another opportunity. Write now.

His Book contains many remarkable testimonials from those who report cured after many physicians failed, and also endorsements from Bishops, Clergymen, Statesmen, Editors, Business Men, Farmers, etc.

Send For Remarkable Testimonials. His Improved Special Treatments for these diseases are the result of 30 years' experience and are thoroughly scientific and remarkably successful, so much so that he does not hesitate to offer Free Trial Treatments to the sick that they may test them free. Write at once.

Describe your case, and he will send you a two-pound Free Treatment and Book. Address: Dr. Franklin Miles, Dept. NS, 525 to 535, Main St., Elkhart, Ind.—Advertisement.

TONIC TIME IS HERE AGAIN

So take the tonic that hundreds of others take. Everyone who tries our carefully made

Beef, Iron and Wine

always take it again when their system is run down. Contains soluble beef for food—best wine for stimulant—soluble iron for blood making properties. Try it now—Be Strong

MARKS OF VILLA REBELLION FOUND AT GOLDSBORO

Bullet Holes Found in Lumber For Cigar Boxes; Town Is Busy

Special to the Telegraph
Goldsboro, Pa., March 24.—Although thousands of miles from the scenes of the exploits of Villa and Carranza, Goldsboro every few weeks is receiving echoes of the revolution which has been raging in that country for many months.

One of the industrial plants in this borough is a cigar box factory, owned by Smith & Spahr. Shipments of cedar from Spain, Cuba and Mexico are received every few days and for several months past bullet holes have been found in the shipments from Mexico.

The owners of the factory have learned that the lumber is being taken from woods and mountains where Villa and Carranza forces have been engaged at various times. Naturally some of the bullets struck the trees and following the battles, woodchoppers went into the woods and mountains to carry on their work. Trees hit by Villa or Carranza bullets were among those felled and when the trunks were cut into strips of cigar box lumber, the bullet holes showed very plainly. Some of these strips have been received in the bundles sent to the Goldsboro factory so that the box makers know beyond all doubt that some shooting is being done in Mexico.

Smith & Spahr employ five people and they are kept busy throughout the year making boxes for the J. C. Herman and C. E. Bair & Sons' cigar factories. About 10,000 boxes are turned out each month. The plant has been in operation for a number of years and is equipped with the latest machinery used in turning out cigar boxes.

In any town where a cigar box factory is found, one can usually find a cigar maker and this is true here. In Goldsboro is located the big plant of C. E. Bair & Sons. This, too, is the home of such cigars as the General Hartranft and Even Steven which are well known and widely advertised in Central Pennsylvania. The Bair company employs seventy people, mostly men, at the local plant and 12,000 cigars are manufactured daily. There are forty-six cigar makers at the plant and the majority of them are expert cigar makers and old hands at the business. The remainder of the seventy employees are strippers and packers, etc.

The Bair plant for many months past has been so rushed with orders that it was necessary that a branch factory be opened. This branch was established in Strinestown last year and twenty-five persons were given employment. The output at the Strinestown plant is about 4,000 daily.

The local factory was established about seventeen years ago and has now become the town's largest industry. The company would willingly take on more help if it could be secured in the borough.

Another industry of which the town can boast is the Goldsboro Shirt Factory, managed by Alphas Aughenbaugh. This plant has been in operation for about eight years and just now Mr. Aughenbaugh says he will employ fifty girls if he can get them. At the present time there are thirty-five girls employed and they are working full time. However, this force is unable to meet the demand for the factory's product and for this reason the factory's manager is ready to employ all the help he can get. The Goldsboro plant manufactures work shirts and some dress shirts, too, and about seventy dozen are produced daily. The shirts are manufactured for a Philadelphia concern and are sent here already cut out.

Goldsboro, although not a large town, has a population of live wires and progressive citizens and at the present, plans are being made to build a sewage system. Next Tuesday evening the borough council has arranged for a meeting of citizens so that the expressions of the residents may be heard before an ordinance is drafted. The plan is to sewer one street in the beginning and then when finances permit, sewer the other streets in the borough.

CIVIL SERVICE EXAMINATIONS

The United States Civil Service Commission announces the following examinations to be held in this city on the dates named:

April 18, 1916: Engineer-Economist (male), salary \$2,000 to \$2,500 per annum; assistant petroleum engineer (male), salary, \$1,800 to \$2,500 per annum; April 19, mechanical and electrical inspector (male), salary, \$6.72 per diem. April 19-20, domestic science teacher (female), salary ranging from \$600 to \$720 per annum.

Application blanks and additional information regarding the above examinations can be secured from the secretary, board of examiners, post office, Harrisburg, Pa.

PRIMARY LAW IS TO BE OPERATIVE

For First Time National Delegates Will Be Elected by the People Direct

Discussion by Chairman Hilles, of the Republican national committee, of the lack of uniformity in the presidential preferential primaries in the various States, has directed much attention to the fact that on May 16 of this year Pennsylvania would put into operation the State-wide primary act of 1913, so far as that act applies to the election of delegates to the national convention. In 1912, just before the primary law was enacted, national delegates were chosen in State conventions.

This year national delegates will be elected directly by the people in the primaries. At the same time the voters may express their choice for President. A separate place will be provided on the ballot for candidates for President. The electors of the State, therefore, as divided among the several parties, may express their choice for President without regard to candidates for delegate. The theory of the law is that the delegates when chosen will know how to vote in the national convention.

On the other hand, the candidate for delegate need not announce in advance how he will vote in the convention. It is optional for him to declare or not to declare himself. It will be generally understood if a candidate does not declare himself that he is "uninstructed" and free to vote for whom he pleases. If the candidate promises to sup-

port the popular choice, there will be printed beneath his name on the ballot the following:
"Promises to support popular choice of party for President."
If he does not make that promise, then there will be printed:
"Does not promise to support popular choice of party for President."

The inscription that will appear on the ballot will be determined by whether or not the candidate for delegate files with his nomination petition the following statement:
"I hereby declare to the voters of my political party that if elected and in attendance as a delegate to the national convention of the party I shall with all fidelity, to the best of my judgment and ability, in all matters coming before the convention, support that candidate for President of the

United States who shall have received the highest number of votes cast by the voters of my party for said office in the ensuing primary, and shall use all honorable means within my power to aid in securing the nomination of such candidate for President."

Adopts Nameless Child, Her Husband Its Father

Special to the Telegraph
Chicago, Ill., March 22.—Mrs. Charles Stockwell, herself childless,

adopted her husband's child, born to an unmarried girl, Miss Gertrude Rhodes.

For two months previous to the birth of the child, Mrs. Stockwell nursed the girl, and when the baby was born asked the Court of Domestic

Relations if she could adopt it. Mrs. Stockwell also insisted that her husband pay the girl \$500, which the Illinois law allows an unwed mother from the father of her child. "I blame my husband more than I do the girl," said Mrs. Stockwell.

Scripps-Booth Roadster
