## A Heavy Weight Needs A Firm Foundation

A 30-story skyscraper needs more substantial foundations than a frame bungalow. Likewise heavy men and women need shoes that provide the base or foundation the weight demands. Ordinary shoes do not supply this; hence the discomfort and foot-weariness heavy people suffer from.

are built like the skyscraper—the bottom of the shoe is as large as the bottom of the foot, the heel is extended to receive the weight-thrust. The result is greater foot-comfort than you have dreamed possible. Every heavy person and everyone who has to stand or walk much should read the Anatomik booklet—"Which is Scientific?" Come in and try on your size and see how different they are from ordinary shoes.

Made for men and women. Anatomik Shoes are to be had in Harrisburg only at our store.

## Stunning New Sailor Effects in Trimmed Hats at \$6.50

One of Spring's most popular styles in Millinery is the large Sailor Hat.

At \$6.50 we show a splendid assortment of extremely smart sailor effects, smartly trimmed with French fruit and flowers, with shades softened in some instances by the entire crown and brim covered with maline.

These are the best sailor styles we have ever seen anywhere at this price. The favored shades are shown.

## Stylish Millinery at \$3.95, \$4.95, \$5.95 and \$6.50

Hundreds of attractive hats are to be found at these prices—and no two styles are alike. We know that no woman wants to wear a hat that is duplicated on the heads of others and we have been careful not to select more than one of each style in assembling our stocks. The variety of shapes and shades at these prices is accordingly ample to meet many tastes.

## AGED MILLIONAIRE SUES CHILD WIFE

Showered Wealth on Her in Vain, He Testifies in Divorce Suit

Pittsburgh, Pa., March 29.—That a doting husband of three score and Public Accountant and Auditor J. C. Shumberger Union Trust Building Harrisburg, Pa. SYSTEMS ORGANIZED AUDITING STATEMENTS PREPARED

fifteen, even though he showered the object of his affections with every luxury that his millions could command, did not for long, meet with favor in the eyes of his 18-year-old wife, was revealed yesterday in the testimony taken here in the divorce proceedings brought by Edward B. Alsop, Pittsburgh's millionaire, against Effie Pope Alsop, a noted Southern beauty, now living in New York.

The testimony was taken before B. L. Sichelstiel, the master appointed by the court, who recommends that the aged husband be given a decree. Mrs. Alsop did not appear at the hearing, although her attorney previously had notified the master that she would.

Showered With Luxury The septuagenarian husband told, with considerable feeling, of his short-lived marital bliss and his efforts to hold his wife's love. How he anticipated her every wish with trips to

Europe, unlimited funds, automobiles, riding horses, retinues of maids and servants and installed her in palatial homes, yet was unable to retain her affection.

Although the young wife was represented by Minter Wimberly, one of the most prominent lawyers in Georgia, no testimony was offered to refute the story of her desertion of the aged husband.

At the time of their marriage, the aged husband gave his wife \$100,000, and securities to the value of several hundred thousand, from which she was to receive the income. After their marriage, he also gave her large sums of money.

The marriage was the culmination of a romance which started more than four years ago when Effie Pope Hill and her mother were stopping at a Virginia resort, where the Pittsburgh millionaire also was a guest.

Miss Hill, at that time a girl of 14, attracted Alsop's attention. He began paying her attention. Their friendship ripened into love and marriage soon followed.

## BAKE SHOP CODE READY FOR STATE

Industrial Board Completes Its Plans For the Promulgation of Rules

The Industrial Board of the Department of Labor and Industry has adopted the revised bakeshop code, which, under conditions the board deems sanitary, permits cellar bakeshops.

In order to stimulate interest toward greatest cleanliness and highest sanitary conditions, the Industrial Board has designated a standard for what is designated as a "Gold Medal Sunlight Bakeshop." Any bakeshop

that meets this standard will be furnished with a certificate which may be prominently displayed.

The standard for the "Gold Medal Sunlight Bakeshop" requires it to be at least ten feet in height, wholly above ground, well lighted and well ventilated. The bakers are to be given regular medical inspection, and all modern methods are to be employed to insure clean and sanitary results for both the workers and the customer.

Permission to build or use a bakeshop in a hotel or restaurant may be granted if plans are submitted to the department for criticisms and approval. In hotels and restaurants contracted for after July 1, 1916, the height of the bakeshop, if located in the cellar or basement must be equal to the greatest height of any other story of the building or at least twelve feet in height if any other story of the building exceeds twelve feet.

After July 1, 1916, all cellar and basement bakeshops shall be illuminated by electricity, or by an illumination which does not consume oxygen, and shall be ventilated by an approved system. After January 1, 1920 all cellar and basement bakeshops not conforming to such standard shall be discontinued.
