Carranza Troops Engage Band of Fifty Left at Cianeguilla by Villa to Cover Up; Prisoners Say Chief Is Pushing Onward With 200 Men

AMERICAN TROOPS PUSHING FORWARD

Reach Satevo and Will Soon Be on Heels of Outlaw; Advance Columns Are in Rags; Find Peons Facing Starvation

San Antonio, Texas, April 7.—Francisco Villa was at Cianeguilla, ten miles south of Satevo on April 4 according to General Luis Gutierrez, commanding the Carranza troops in Chihuahua. General Bolle received this information from Chihuahua and transmitted it to General Funston today. American cavalry are pushing forward along the trails to and beyond Satevo.

Gutierrez reported that Carranza troops engaged fifty Villa men at Cianeguilla, killed ten and captured two. The prisoners said Villa had left there early in the morning with 200 men, leaving the fifty as a rear guard.

Another column of American cavalry arrived at Cianeguilla to report that of Col. W. C. Brown, who reported there April 4, according to reports at General Funston's headquarters today.

Colonel Brown explained his delay in rendering a report after the engagement a few days ago at Aguascalientes, near Bachiniva, by saying he and his forces had exhausted their money and he had none to pay the expense of getting a message to a commercial wire.

General Bell reported that information from Mexican sources indicated that some thousands of the de facto government troops were being moved south of Chihuahua, with the purpose of checking the retreat of Villa.

Feeling of Expectancy El Paso, Texas, April 7.—Two Americans, the first to arrive here from the Interior for several days, reached El Paso to-day on a train from Chihuahua City. They said

The lecture last night was the first to be given in this city on the subject of the trip and was held under the auspices of the Immanuel Presbyterian Church men's class.

RUNAWAY AIRSHIP WILL BE PURSUED BY AEROPLANES

New U. S. Navy Dirigible Valued at \$60,000 Breaks Moorings

MAY BE HEADED TO SEA Officers at Pensacola Station at Loss to Explain How Vessel Got Loose

Pensacola, Fla., April 7.—The new dirigible airship recently brought to the aviation station here for experimental use in connection with aerial and water maneuvers by the navy broke away from its moorings in a high wind early to-day and rising rapidly soon was lost to view. Telephone notices were sent to Mobile and other points to the westward warning the residents to be on the lookout for the big craft. No one was aboard, but the dirigible was fully inflated, and naval officers said there was nothing to prevent its remaining aloft for many hours.

Shoots Upward The wind was blowing briskly from the southeast when the dirigible slipped its moorings, shot quickly to the upper currents, and was swept away toward the west. A later shift in air currents made naval officers fear the dirigible may have been carried out to sea.

The airship is said to be worth between \$50,000 and \$60,000 and is practically new. It was received here only a few days ago. How it happened to break away has not been determined. Preparations were made to pursue the escaped dirigible with aeroplanes as soon as weather conditions permit.

Fully Inflated The balloon was 31 feet long and was fully inflated with 25,000 cubic feet of gas when it broke away from the ropes with which it had been held to the ground. The stabilizer was not attached and officials believed if the balloon should turn over some valves might be opened and cause the craft to descend. Should the balloon remain upright officers said it might float for hundreds of miles.

MAINTAIN LOOKOUT Mobile, Ala., April 7.—A sharp lookout is being maintained here for the dirigible escaped from the Pensacola naval aviation station. Men with powerful glasses were stationed on top of high buildings in the hope that they may be able to sight the runaway.

Three Badly Hurt, Four Injured When Big Freight Elevator Falls 35 Feet

Three men were badly hurt, and four others narrowly escaped injury when the elevator on which they were standing in the addition being erected at Blough Bros. Manufacturing Company plant, Fulton and Reilly streets, dropped four floors to the ground at noon to-day.

The men, employed by Joseph Pomering, contractor, were standing on a freight elevator when the floor fastenings snapped. They fell 35 feet. Those injured were: Albert Horstlick, twenty-eighth and Main streets, Penbrook, severe bruises of back and hips; E. S. Westphal, New Cumberland, probable fracture of both lower limbs; both treated at Harrisburg Hospital; Edward McKee, Third and Calder streets, both bones in lower right leg, and bones of foot fractured, treated at home by physician.

Detectives Would Have Complete Census Made of Harrisburg's Slums

Following an inspection of "slums" in parts of the Eighth and Ninth streets and in North Seventh street by members of the city detective bureau a request will be made to Mayor Meals to permit the detectives taking a census of the slum areas.

During the inspection four detectives say they saw conditions that are worse than the East Side of New York. In many places sewage was dumped into place black and white people were found under the same roof. In North Seventh street a foreign family was found who used their bath tub as a garbage collecting device.

At many places users of dope were found, and these places will be subjected to further investigation, it is said.

SUSPECT YOUTH MURDERED

Marks On Body Throw Doubt On Suicide Pact Theory Pottsville, Pa., April 7.—While State police were dragging the Schuylkill river yesterday for the body of 14-year-old Helen Hopler, supposed to have died in a suicide pact with Clayton Mengel, evidence developed that Mengel had a rival who was forcing his attentions on Miss Hopler.

The body of Mengel, which was dragged from the river, was found to have marks of violence upon it. Surgeons say these wounds could not have been inflicted while the body was in the river, and the police say Mengel may have been murdered and his body thrown into the river.

GANG OF HOBOES TERRORIZING PAXTANG SUBURBAN SECTION

This is the hobo den just outside the borough limits of Paxtang where gangs of hoboes, who have been robbing and terrorizing the people of that suburban section, spend the night. It has been a favorite haunt for the knights of the roads for many years and frequently the homes of Paxtang folk are robbed. The people are up in arms at a number of recent robberies.

Residents of Paxtang are beginning to take the offensive and are planning death blows for the tramps who are suspected of stealing food supplies from the rear porches of a number of homes and of entering the residence of Dr. D. I. Rutherford Wednesday night. Last evening quite a few revolvers were taken down from the shelf and cleaned and then some of the residents of the town went out to the back lots to practice and improve their aim.

The lime kilns which adjoin the borough furnish a good place of shelter for many tramps each winter and they call the place "home." However, at this season of the year they begin to move out and others make the kilns their stopping place over night and it is these who scour the town and steal provisions and enter homes.

Last year about this time attempts to enter quite a number of houses were made. Last night at least one tramp strolled about the town and then made the porch of one man's house his bed. Nothing has been done thus far to rid the community of the tramps and desires of some residents to have the authorities make a raid on the kilns were not carried out last night. However, there will be very little need for law in the borough if any of the armed residents get the "drop" on a tramp who makes any queer moves about back porches.

Amsterdam, Holland, April 7, via London.—The assertion is made by the Echo Belge that Miss Gabrielle Petit, of Molenbeek, Belgium, has been put to death by Germans after trial by court-martial on a charge of treason. It is alleged she conducted an information bureau in the interest of German's enemies.

The newspaper also states that Louise de Bettignies, of Lille, has been sentenced to death, but that the sentence has been commuted to imprisonment for life.

Another woman, Marie Van Houtte, the newspaper says, has been sentenced to imprisonment for fifteen years.

DOVE OF PEACE IS DRIVEN FROM THE STATE'S CAPITOL

Gov. Brumbaugh Was Aroused by Threats of Attacks Upon His Character by Newspapers

The dove of peace which was hovering over the rival Republican trenches in this State disappeared to-day when it became known that Governor Brumbaugh had reconsidered his announced purpose to eliminate himself from the conflict in the interest of party harmony.

It is believed that the construction placed upon the negotiations by certain newspapers to-day was responsible for the determination of the Governor not to withdraw from the fight. These newspaper stories intimated that he was being forced to surrender to the Republican organization and this interpretation of his probable action in the hope of restoring harmony has aroused all the combativeness of his nature. It is also reported that he

C. Ross Boas Buys Old Gutelius Store; to Build August 1

C. Ross Boas, one of the city's leading jewelers, who for more than twenty years has conducted his place of business at 214-216 Market street, has purchased the "Gutelius Store" property at 28 North Second street, and about August 1 he will begin work on the erection of a modern apartment and store building.

"The first floor store will be occupied by our own store, of course," said Mr. Boas.

The Gutelius notion store property is a little 90-year-old frame structure owned by Henry M. and Mary Oliver. They are residents of Clark's Valley, back of Dauphin. The consideration was not made public. The property got its name from the fact that for many years it has been occupied by the Misses Jennie and Ellen L. Gutelius. Their little place of business was one of the most exclusive of its kind in the city and even since the death of Miss Jennie Gutelius a few years ago, the surviving sister has maintained a store that is still patronized by the older families.

The Harrisburg Trust Company owns the present store room of Mr. Boas but he plans to move as soon as his new quarters are ready. The Gutelius lease doesn't expire until August 1. The deal was closed according to Mr. Boas to-day through John W. Reilly. The property has a frontage of 25 feet and a depth of 97 feet.

Body of Unidentified, Well-Dressed Man Found by Crew in Paxton Creek

Lying partly immersed in the Paxton creek near the bridge along the Philadelphia and Reading Railway tracks near Berryhill street, the body of an unknown man was found this morning by a train crew just about to leave the yards.

The man was well dressed, wearing a black cheviot suit with patch pockets, a new pair of black shoes, size 5, white shirt with narrow black stripes and black bow necktie. A pair of gold nose-glasses and an old knife were the only articles found in the pockets. A small gold ring was found on the little finger of the right hand, but the setting had been lost.

Coroner Eckinger was called and turned the corpse over to Charles H. Maulk, undertaker, Sixth and Kelker streets, where it may be viewed in the morgue. The authorities are making every effort to have the dead man identified. He is 5 feet tall, weighs about 110 pounds, is about 45 years old, has a brown mustache and brown hair tinged with gray. It is not believed that the body was in the water more than three days, and no marks of violence were found during the examination. The city and county authorities are not positive whether the man committed suicide or was drowned accidentally.

PENNSY REFUSES TO PAY ANYTHING FOR NEW BRIDGE

Throws Cold Water on Plan For Viaduct Over Tracks at Walnut Street

OPPOSE ABUTMENTS City Will Now Prepare Plans in Accordance With Ordinance on Books

In a concise letter to-day to City Commissioner W. H. Lynch superintendent of streets and public improvements, Superintendent W. B. McCaleb, of the Philadelphia division of the Pennsylvania Railroad pointed out that the company will "not voluntarily pay any part of the cost" of the construction of the proposed new bridge across the Pennsylvania tracks at Walnut street.

That wasn't the only cold water the railroad company splashed on the viaduct project, either.

Several weeks ago Mr. Lynch wrote the Pennsylvania officials that the city would welcome any suggestions as to modifications in plan, and asked if the company would assume half the cost of the construction. In the event this much of the job would not be paid for by the railroad company Mr. Lynch had hoped that it would assume the expense of as much of the bridge as would cross its right of way. In this letter Mr. Lynch enclosed a

Bandit's Brother Wanted by U. S. Is Released

Havana, Cuba, April 7.—Colonel Hipolito Villa, brother of Francisco Villa, who was arrested here on February 7 at the request of the American minister and has been held pending extradition proceedings, has been released.

He is under indictment in Texas on the charge of complicity in cutting a railway line near El Paso last December in an attempt to hamper the movement of Carranza forces through American territory to attack the Villalobos in Mexico, but the Cuban secretary of state announced the United States had failed to produce evidence warranting his extradition.

WILL INVESTIGATE ALDERMEN'S FEES

Harrisburg.—Because of the unusually heavy bills for aldermen's fees collected during the quarter just closed by those justices who conducted hearings for Mayor E.S. Meals, the County Commissioners late this afternoon decided to investigate the problem more fully. No figures were possible, the Commissioners said until County Controller Gough examines the bills. The Commissioners contend that the Mayor, instead of holding court himself and turning the fees into the city treasury, often allows aldermen to conduct the hearings and that the justice himself individually nets the fees. While the question of legality is not raised the Commissioners contend the economical problem is involved. The city losses, it is said, are from \$1500 to \$2000 annually.

He said that a list of the proposed assassinations was headed by the Czar of Russia and that Emperor William was second.
