Men Who Wear Bannister Shoes Are Usually Men of Big Affairs

There is as safe a hallmark in the matter of men's shoes as there is in gold or silver — and that proof of genuineness is to be found in any shoe that bears the Bannister name.

Bannister shoes embody a characteristic difference which is not to be found in shoes of the ordinary type, and, besides, they represent a quality that is the aim of every man to attain.

Bannister shoes are true to the principles that have made them the most favored of the better grade of shoes.

—and Bannister shoes are to be found only in Harrisburg at the Dives, Pomeroy & Stewart store.

Now shown in a variety of styles of new leathers and new shades—\$6.50 and \$7.00.

Easter Apparel For Women, Misses and Children in Styles Featuring Exclusive Ideas

Easter fashions are so diversified that it is not a matter of difficulty to select any one of a dozen styles for a particular type of figure. Checks and navy and Belgian blues are strong features in cloth suits.

One of the season's most attractive styles for misses is a revised Norfolk style with a broad belt buttoning through to the throat with a faille silk collar which is convertible. The back of the coat is trimmed with a large metal buckle and the cuffs follow the same form of trimming as is shown on the collar \$17.50

A style that is especially good in Belgian and navy blue is a broad reverse in addition to a rolling collar of faille silk. The style is belted and gathered in the front with a trimming of buttons on sides and back and lined with excellent quality Peau de Cygne \$18.50

A jaunty style for misses and women is a Norfolk suit of men's wear serge, gathered front and back are effectively trimmed with double rows of small buttons which are latticed with rope silk; the buttons themselves are sewn with a rose-colored silk to match the latticed rope; the collar and cuffs are trimmed with white Faille silk, the collar carrying three rows of rose stitching and the cuffs two rows \$20.00

In Belgian blue, navy and black is a new style flared coat, trimmed in front and back with self-covered buttons. The skirt is a belted style with a novel treatment over the hips \$22.50

At \$25.00, \$27.50, \$30.00 and \$35.00 are shown upwards of a dozen styles that are irresistible in their attractiveness. The materials include gabardine, poplin, black and white checks and velour checks and the linings are of the finest quality Peau de Cygne and fancy silks. In this group are to be found Belgian blue, navy, tan, green, white and black, brown and white checks and rookie. Some of the styles are trimmed with bands of taffeta and others are severely plain, depending on style alone to bring about a charming effect.

Fine Quality Poplin Suits For Large Women

Women of large figure may enjoy this season as comprehensive a style showing as is usually to be found in garments for average figures.

Fine quality poplin suits in staple shades of navy, Copenhagen and black are shown at \$22.50

One style that is notably good in sizes up to 47 is made with a trimming of buttons and braid on either side of the hips; the sides and back of the coat end in an inverted pleat trimmed with buttons, while the collar is of Faille silk; the lining of the coat is an excellent quality of Peau de Cygne.

Another very attractive garment is finished with silk arrows and buttons; a collar of self material is given greater attractiveness by a large Faille silk collar; the skirt is in a style that every woman will appreciate. At \$27.50 to \$35.00 are shown semi-belted and several tailored styles with little touches of pearl buckles and beautifully stitched silk collars.

Truck Hauls Big Howitzer Over Hill and Dale in Record Time During Test

San Francisco, Cal., April 10.—Officers of the coast artillery expressed satisfaction over a test made to test the value of the automobile as a factor in coast defense. The Thirteenth Company was rushed from Fort Miley, on San Francisco harbor, to Half Moon bay, a point on the coast where an enemy might land. The artillerymen took with them a 7 1/2-inch howitzer, weighing four tons. The distance is thirty-eight miles over a hilly road and the trip with horses would take, army officers estimated, about a day and a half. The artillerymen, in motor cars, covered the distance in 90 minutes and the way was only three hours on the way and was ready for action fifteen minutes after arrival.

MATTRESSES ARE SAID TO BE POOR

Labor and Industry Department Inspectors Find a Number of Violations

Thousands of mattresses, offered for sale in various sections of Pennsylvania, have been condemned by inspectors of the Department of Labor and Industry in the campaign instituted by Commissioner John Price Jackson to enforce the "pure mattress law" passed by the Legislature. Prosecutions for flagrant violations have been instituted and fines have been imposed. The inspection of mattresses offered for sale has been conducted under the direct supervision of Dr. Francis D. Patterson, chief of the division of hygiene and engineering of the Labor Department. In the Pittsburgh district alone 39,514 mattresses offered for sale in violation of the act were discovered. Of these mattresses 25,000 were not properly tagged, 13,165 contained material prohibited by law and 1,346 were secondhand mattresses. Inspectors of the department have discovered that the tremendous demand for cotton and similar material in the manufacture of ammunition for the European war has caused a dearth of material suitable for filling mat-

tresses of the cheaper grades. Some manufacturers claim that this lack of material has been responsible for many of the violations of the law. It has also been found that many mattresses not conforming to the Pennsylvania law are being shipped into Pennsylvania from factories in adjoining States. Several carloads of mattresses have been condemned before they were unloaded. Mattresses must be manufactured of approved material, thoroughly sterilized and disinfected. A secondhand mattress may not be sold unless it has been sterilized by an approved method and a mattress that has been used by a person having any contagious or infectious disease may not be resold under any conditions. Every mattress offered for sale must have securely sewed to its cover a linen or muslin tag not less than 2x4 1/2 inches in size and bearing the name of the manufacturer and vendor as well as a complete description of the contents of the mattress. Shoddy may not be used in any mattress. The campaign to enforce the "pure mattress law" is being waged in all sections of the State and will be continued to prevent the spread of contagious or infectious diseases by the sale of contaminated mattresses.
