" I Hope That Other Mothers May Learn Its Value as I Have"

Writing from Rock Island, Illinois,

Writing from Rock Island, Illinois, a grateful mother says: "I miss Father John's Medicine when I am out of it more than anything else from my medicine chest. I have it on hand summer and winter. I give it to my two children whose pictures are shown. I hope that other mothers may learn to know its value as I have. (Signed) Mrs. G. H. Biehl, 1004 Eleventh Ave.

Thousands of mothers know from experience the value of Father John's Medicine as a tissue and strength builder at this time of year. It is all pure and wholesome nourishment which the system easily takes up and changes into fighting strength to ward off disease. Because it does not contain alcohol or dangerous drugs, Father John's Medicine is safe for children as well as older people. Get what you call for.

### Civic Club Commends Manufacturers of Hill

At a meeting of the Board of Directors of the Harrisburg Civic Club held this morning, the Municipal Department called attention to the fact that three manufacturers of Allison Hill have abolished the smoke nuisance, and commend them for their work. This is to be noted at the April meeting of the club and the names of the firms put on a roll of honor. The Civic Club has been trying for a long while to rid the city of smoke and has urged that manufacturers take measures to abolish it.

"Pollyanna."

"Curiously enough, Jean Webster was akeptical about the play possibilities of "Daddy Long Legs" when Henry Miller insisted upon dramatizing it. It has turned out that the producers and playwrights sensed the possibilities of popular stories much more accurately than to their own errors of judgment when they bank the fat royalty checks that the managers send them.

It is a coincidence that "Pollyanna" and "Baddy Long Legs" both scored their original stage hits in Cicago. It is a coincidence also that the bachelor in each comedy is named Pemberton, but there the resemblance ceases, the scenes, characters, plots having no resemblance, although the two plays are second coustins in spirit, charm and the power to good, be true."

### RESISTANCE TO DISEASE

RESISTANCE TO DISEASE

Debility is a loss of vitality, not affecting any one part of the body particularly but the system generally. It is dangerous because it reduces the body's resistance to disease.

When debility follows acute diseases, convalescence is slow and the strength does not return as it should. An attack of the grip often results in debility that persists for months. Everybody recognizes that the remedy for debility is to build up the blood because the blood goes to every part of the body and an improvement in its condition is quickly felt throughout the system. The problem in every case is to find something that will enrich the blood.

Dr. Williams' Pink Pills suit most people's need because they are non-alcoholic and they really build up the blood and strengthen the nerves. Dr. Williams' Pink Pills are useful for growing children and for men and women whose nervous energy has been overdrawn. Try them whenever your blood is thin.

# WHAT THE SHO

Saturday's belated snowstorm is apt to be hard on budding vegetation, but delicious Spring vegetables are not entirely dependent on fresh green goods, for the Studebaker Grocery Store, Second street at the crossing of State, offers the Ferndell canned vegetables which are so perfectly produced and canned that they often excel fresh vegetables in quality. The string beans, kidney beans and lima beans are particularly choice, and afford a pleasing variety for the menu. Little omions of the Ferndell brand are, too, a real delicacy, and when used with the beans, they make a novel and most delicious salad.

April Snows

Snow in April is apt to make extra coal necessary for the furnace, and if you are burdened with a furnace which consumes quantities of expensive coal, you will be interested to know of the splendid Penn Comfort and Penn Perfect furnaces, sold, by the Himes, Hardware Store, 10 North Market Square, for these are so constructed that the greatest possible heat is obtained with the smallest amount of coal. With one of these furnaces in the cellar, even snow and rough weather in April have no terrors, for the sum weather in April have no terrors, for the house may be kept warm without excessive coal bills.
