SCHOOL TEACHER

Anaemic, Run-down, Nervous How She Recovered.

There are so many cases like this right here in Harrisburg that we are publishing this interesting letter with the hope that some of our customers will try Vinol and get the same happy result that Miss Baez did.

will try Vinol and get the same happy result that Miss Baez did.

Key West, Fla.—"I am a teacher and became anaemic, nervous, rundown, no energy or desire to do anything, I could not sleep and had that languid, nervous feeling that made me a burden to myself. I had taken various tonics without benefit. I heard of Vinol and tried it. Soon I had a good appetite, could sleep all night and it built me up so I have the ambition to do any kind of work." Mary L. Baez, Key West, Fla.

The reason Vinol was so successful in this case is because it is a constitutional remedy that goes to the seat of trouble. The peptonate of iron contained in Vinol enriches and revitalizes the blood, while the strengthening, tissue-building properties of the extractives of cods' livers and beef peptone aid in building up the tired, overworked, run-down system.

P. S.—In your own town, wherever you live, there is a Vinol Drug Store.

Pennsylvania Railroad President Tells Patrons What Has Been Accomplished in Seventy Years

Seventy Years A Railroad

The Pennsylvania Railroad is seventy years old this month.

Its charter was granted April 13, 1846.

For what our railroad represents after these seventy years, credit belongs-

First, to our stockholders, whose capital made possible the development of this Railroad.

Second, to those directors, officers and employes who have gone before, and to the 250,000 of us who are now working to make this railroad system better every day.

* * * *

Third, to a helpful and reasonable public.

In these seventy years we have learned much. Above all, we know that the future prosperity of our Company depends upon the continued confidence, co-operation and good-will of the people it serves.

Bulletin No. 18. These Bulletins are issued by the Lines comprising the Pennis Ivania Radroid System in Information professions at to facts and problems of apportance to the radroid and the public.

Calling attention to the fact that the Pennsylvania Railroad will be 70 years old Thursday, Samuel Rsigned statement bulletined to-day is sued the above. Posters were placedin every station, roundhouse and sho p on the Pennsylvania Railroadsystem.

Rush of Rail Orders Is Due to Price Increase

Special to the Telegraph

Special to the Telegraph

New York, April 10.—Since the first of April the railroads have been feverishly active in the placing of contracts for rails in anticipation of higher prices to be charged on May 1.

Twenty-five roads placed contracts for 254,000 tons of standard and light section rails, making a total of 450,000 tons ordered in the last two weeks, and 1,214,000 tons bought since March 1. Contracts for 300,000 tons additional are pending, which probably will be closed next week, including 200,000 tons for the Pennsylvania Railroad system. The latest and largest orders placed include 69,000 tons additional for the Santa Fe, 25,000 tons for the Seaboard Air Line, 15,000 tons each for the Boston and Maine, the Wabash, the Minneapolis, St. Paul and Sault Ste. Marie and the Northern Pacific. The export buying amounted to 72,000 tons for shipment to Russia, France, Egypt, Australia and South Africa. Light sections were advanced \$5 per ton.

TO RESUME WORK ON FOUNDATIONS

Under the direction of Engineer George Titzel, work was resumed today on the foundations for the new Pennsylvania Railroad freight station in South Harrisburg. John L. L. Kuhn and Company of Harrisburg bave the contract and 100 men were working to-day. Excavations are being made for the foundations.

The Administrators' Side
The Trust company, incidentally claimed, the rent as trustee for Mrs. Fleming's estate. It based its contention on the ground that the Civic club at the time of the bequest was not incorporated, and therefore not legally entitled to accept it.

In reciting the facts President Judge Kunkel points out the Civic club as incorporated, which the club association and is engaged in the same work.

"It is clear," continues the court's opinion, "that the intention of the testatrix (Mrs. Fleming) was to devote the property to the uses and purposes of the club. That the devise is a charitable gift in the contemplation of the law can admit of no doubt. It takes its character from the character of the club, as well as from the purpose stated in the will. The testatrix was familiar with the work of the club and clearly intended that her property, and its proceeds when sold, should be dedicated forever to the work in which the club was engaged. The court holds untenable the proposition that the "purpose of the gift is void." Judge Kunkel points and indefinite and that therefore the gift is void." Commission, Shade Trees Problem Up Tonight

More important improvement measures will come before Steelton's o'clock under the direction of George ning, than at any single meeting W. Darby. The society will be as- within the memory of anyone in

within the memory of anyone in municipal circles.
Interest among the taxpayers, of course, centers in the ordinance now before council granting the Pennsylvania Railroad the right to cross three streets with their tracks in building its proposed freight spur into the Pennsylvania Steel Works.

As the ordinance now stands the berough receives nothing in return for these valuable concessions. Several of the councilment this evening, it is undecisted, will oppose final passage of the ordinance as it now stands and will vote to permit establishment of three additional grade crossings only should the railroad agree to bear the entire cost of eliminating the old canal nuisance.

Loan Ordinance Up
The ordinance submitting a bond issue of \$50,000 for street paving and \$25,000 for motorization of the fire and garbage departments will be introduced at the session to-night and shelp passed first reading.

The next most important matter

and garbage departments will be introduced at the session to-night and likely passed first reading.

The next most important matter before council is a letter from the Municipal League urging that an ordinance be passed creating a commission of representative citizens to handle the parks and playgrounds movement. It is understood that a majority of the councilmen favor this commission as it will relieve council of much detail work.

Shade Tree Commission's Request Just how much money shall be given the Shade Tree Commission for its work this year will also be decided. From the \$250 appropriated last year the commission has an unexpended balance of about \$225 and now requests that it be given in addition to this amount \$250 for this year's work.

Should council decline to grant the commission's request that body has the power to levy one-tenth mill tax to carry on its work. This would net the commission's This work.

David Jayne Hill Says Administration Has Caused Loss of U.S. Prestige

Washington, April 10.—Delegates representing every State in the Union were in attendance at the opening session to-day of the eleventh annual convention of the Navy League of the United States. The sessions will continue through Wednesday.

Most of the country's foremost authoities on international law, comthoities on international law, commerce and military and naval science are on the program to describe what they believe to be adequate preparedness for national defense.

Robert B. Thompson, president of the league, opened the convention with an address in which he reviewed the work of the league and paid his respects to the pacificists.

He declared that while the league had "earned the hatred of that class which is opposed to preparedness, we trust that you will love us for the enemies we have made."
