Hair Removing Essential with Up-to-date Gowns

Observe well-gowned women everywhere,—in the ball-room, fashionable restaurants, and on the stage. Hair-free undergarments are absolutely necessary to the present mode.

The quickest, safest, and most "womanly" way to remove hair from the face, lip, neck, or arms is by soaking it off with El Rado, a sanitary liquid toilet preparation, easily applied with a piece of absorbent cotton.

NOT GOING TO BE DEFEATED--REPLY

Asquith Answering German Chancellor's Speech Denounces Military Caste

London, April 11.—On the occasion of a government reception to visiting French Senators and Deputies at Lancaster House last night Premier Asquith took the opportunity to reply to the speech recently delivered in the Reichstag by the Imperial German Chancellor, Dr. Von Bethmann-Hollweg.

Earl Kitchener, the Marquis of Lansdowne, Sir Edward Grey, J. Austen Chamberlain, Sir Walter Runciman, Lewis Harcourt, Viscount Bryce, A. J. Balfour and Lord Robert Cecil were among those present.

Not Going to Be Defeated.—The Premier in proposing the toast "Our Guests" referred to von Bethmann-Hollweg's claim to readiness on the part of Germany to negotiate peace and said: "The German Chancellor wants us to assume the attitude of a defeated to a victorious adversary. But we are not defeated; we are not going to be defeated."

Reterring that the allies were only prepared for peace on the terms of his declaration of November, 1914, Mr. Asquith proceeded to say: "The Chancellor first misquotes my language, then proceeds to distort its obvious meaning and intention. Great Britain and France entered the war not to strangle Germany or wipe her off the map of Europe; not to destroy or mutilate her national life; certainly not to interfere with, to use the Chancellor's language, the free exercise of her peaceful endeavors."

Firm For Equality of the Free.—"As a result of the war we intend to establish the principle that international problems must be handled by free negotiation on equal terms between free peoples, and that this settlement shall no longer be hampered or swayed by the overmastering dictation of a government controlled by a military caste. That is what I mean by the destruction of the military domination of Prussia—nothing more, but nothing less."

Alluding to the fate of Serbia and Montenegro, following a similar fate suffered by Belgium, the Premier said: "We are in this struggle the champions not only of treaty rights but of the independent status and free development of weaker countries."

"In the circumstances, cynicism should hardly go further than in the Chancellor's claim that it is for Germany—of all powers—to insist, when peace comes, upon giving various races a chance of free evolution along the lines of their mother tongue and national individuality. Apparently this principle is to be applied, I suppose, on approved Prussian lines, both to Poland and Belgium."

RIVERSIDE FOLK TO MEET.—Citizens of Riverside will meet to-night, at 8 o'clock, in the Methodist Church. Routine business matters will be discussed.

DON'T GO TO BED WITH COLD FEET

Says: "Often Brings on Attacks of Acute Rheumatism"

An ounce of prevention is worth a pound of cure, and people who are subject to attacks of rheumatism should never go to bed with cold feet. A whole lot is being said about taking salts and effervescent tablets for rheumatism and sciatica, but those who suffer sharp twinges and painful swollen joints need something powerful to overcome their piteous suffering.

Any broad-minded druggist will tell you that one-half teaspoonful of Rheuma taken once a day is driving more rheumatism out of afflicted people than all the salts on earth. Right in this neighborhood H. C. Kennedy and all druggists sell large quantities of it, and it's the surest and most inexpensive remedy—about 50 cents a bottle.—Advertisement.

Thin People Gained Weight Quickly

By Following This Simple Suggestion. Thin men and women who would like to increase their weight with 10 or 15 pounds of healthy "fat" should try Sargol with their meals for a while and note results. Here is a good test worth trying: First weigh yourself and measure yourself. Then take Sargol—one tablet with every meal—for two weeks. Then weigh and measure again. It isn't a question of how you look or feel or what your friends say and think. The scales and the tape measure will tell their own story, and many thin men and women we believe can easily add from five to eight pounds in the first fourteen days by following this simple direction. And best of all, the new flesh stays put.

Sargol does not of itself make fat, but mixing with your food, it aims to turn the fats, sugars and starches of what you have eaten, into rich, ripe fat producing nourishment for the tissues and blood—prepare it in an easily assimilated form which the blood can readily accept. Much of this nourishment now passes from your body as waste. But Sargol works to stop the waste and do it quickly and to make the fat producing contents of the very same meals you are eating now develop pounds and pounds of healthy flesh between your skin and bones. Sargol is safe, pleasant, efficient and inexpensive. G. A. Gorras and other leading druggists in this vicinity sell it in large boxes—forty tablets to a package—on a guarantee of weight increase or money back as found in each large box.—Advertisement.
