Changing Styles in Men

The man of to-day is accused of being a coldiy business-like person whose heart resides in his pocketbook and whose sympathies are always with the winning side. That is about as true as the sweeping assertions which deny to the woman of to-day heart and feeling.

Efficiency is a modern fetish, and sometimes admiration for efficiency carries this beyond the bounds of normal human action into almost machine-like precision.

Money does seem to be the god of the modern world, but, after all, it is more seeming. And underneath his hurry and bustle and high tension and iraselbility the man of to-day is a kindly, fatherly sort of person if only you know him.

Of course, if you approach any human being with a flustered feeling that he is a money-making machine and must be placated with all gentleness he is likely to roar very much like the beast of prey you take him to be.

But styles in men fit styles in times, To-day a gallant courtier with powdered wig and satin breeches would be decidedly an anachronism. Strong mentality and power probably flourished in the day when men wore patches on their faces, shook out ruffees and walked with mincing steps. Those externals would be absurd now, and so, too, would be the methods and manners that fitted in with them.

The world to-day is in a state of rapid change. It is advancing from movement to movement, and the man who does not want to be hopelessly left behind in weak, old fogyishness must move with it.

Efficiency, strong determination and clear-sighted vision of the goal ahead

Without doubt the cape makes a salient feature of spring fashions. Here is a costume that shows one of plain taffeta worn over a gown of flowered taffeta trimmed with plain. The effect is attractive and smart and the costume one of the really useful sort, for it will be found available for the summer as well as the spring. The little cape tells its own story. It may be made as it is on the figure or shorter. The gown allows the choice of a draped or plain skirt. In this instance, the little chemisette is made of Georgette crêpe.

As a result, many of the boroughs wherein the State Highway Department had planned to do work during the coming season on a State-aid basis will be deprived of this opportunity to gain improved highways.

Deputy Attorney General Keller goes into the law quite thoroughly and is way Commissioner Cunningham adversed a letter to the Attorney General's Department on March 30 in which he asked to be advised whether the department was permitted to improve as State-aid highway sany portion of State highway within a borough silinits. He also asked whether or not the application by a borough constituction for construction process. Mr. Keller, in his opinion, declares that this application would evidence the consent of the borough. Commissioner Cunningham also asked whether a section of State highway route that constructed in a borough since of the consent of the borough. Commissioner Cunningham also asked whether a section of State highway route that if the street has been reconstructed with permanent paving material the department must pay see. This maintenance charge, however, he said, must be paid out of State highway funds.

But this also led the Deputy Attorney General royles material the department must pay so of this kind in boroughs must be paid out of State highway funds.

Delaware Delegates Are Bound to Vote For Du Pont

Dover, Del., April 12.-The Delaware Republican convention indorsed the candidacy of General T. Coleman ney General William H. Keller that, under the law, it was not permitted to construct or improve as a State-aid highway any section of a State highway route within the limits of a borough. This opinion upsets the plan under which the State Highway Department has been acting in the past whereby State-aid money has been used for construction work on State highways.

As a result, many of the boroughs wherein the State Highway Department had planned to do work during the coming season on a State-aid basis will be deprived of this opportunity to
