HAIR GRAY? THEN APPLY Q-BAN It Darkens Gray Hair Evenly—No Dye—Harmless

Actually does—so you can see it with your own eyes—turn every gray hair in your head beautifully dark. If your hair is gray, streaked with gray, prematurely or just turning gray, or if your hair is dry, harsh, thin or falling, simply shampoo hair and scalp a few times with Q-Ban Hair Color Restorer. Every strand of hair (whether gray or not) then becomes evenly dark, soft, glossy, fluffy, full of life and health, full and heavy and fascinating, and so beautifully and evenly darkened no one could suspect you had applied Q-Ban. It is absolutely harmless and no dye. Ready to use, nothing to be added. Give it a trial. 50c for a big bottle at Geo. A. Gorgas' Drug Store, Harrisburg, Pa. MOSLEMS PREACHING FROM THE BIBLE [From the Christian Herald.] There is a changed attitude throughout the Moslem world, also on the part of the educated Moslems, as regards their own religion. Where formerly they were in a defensive attitude, and their method of attack the statements of the Koran, they have now chosen for their arena in the fight for truth the old New Testament.

REPORTS THAT CORPSE OF VILLA IS DUG UP

[Continued From First Page.]

Villa had been exhumed at San Francisco Borja and was being brought into Cusihuiriachic, whence it was to be sent on a special train to Chihuahua City.

Official word from Washington that the United States troops would be immediately withdrawn from Mexico if Villa was dead will undoubtedly result in expediting the efforts of the de facto government to ascertain the truth of the reports of the locating of Villa's body.

May Baffle Identification If the supposed body of the bandit is still interred at San Francisco Borja, as stated in latest Mexican City advices, it would likely be many days before identification can be made.

Identification of the body at this time may prove baffling. According to reports from Mexico City, Villa has been dead over two weeks and physical changes may be such as to preclude any positive proof that the dead man was Villa. Mexican officials here made the United States Government undoubtedly would accept the identification if made by reputable Mexicans who knew Villa and by Mexican officials.

Rioting in Chihuahua A number of newspaper correspondents and a few other Mexicans here early today for Chihuahua in the hope that the story of the finding of Villa's body was true. Several other Americans who had at first intended to go abandoned the trip because of rioting that was reported here to have occurred in the Mexican State Capital during the last two days.

Messages received here regarding this rioting stated that there had been no anti-American outbreak, but that the trouble was due solely to the people who are among the masses of Corn in Chihuahua at two pesos, worth four cents American, a quart, beans, the staple food of the people, a quart, cost two and a half pesos a kilogram (a little over two pounds); lard is 15 pesos a quart. With the standard of pay for a day's work at two pesos, the laboring classes are finding it hard time keeping body and soul together.

Loot Food Shops According to the messages received here the rioters have looted several food shops and only virtually half-hearted attempts to control them have been made by the soldiers, who are themselves in almost as bad plight as the Mexicans.

Arrivals from Parral report that there are only three Americans left in that city. These three are men who have married Mexican women and regarded themselves as immune from the prevailing hostility toward the "gringos." Among the Americans who left Parral following the fighting between the Mexican garrison and the American soldiers on Wednesday was a woman missionary.

"It was hopeless for me to think of continuing my work," she said today. "The feeling against Americans was growing in volume every day and the fighting on Wednesday was the climax. The people of Parral are strongly sympathetic with Villa whom they regard as a Mexican hero who is being persecuted by America. They have been told the old story about General Carranza having sold Mexico to the United States. There is no question that Carral will be a hotbed of anti-Americans at present and I am afraid that it will be a long time before the bitterness dies down on account of the number of Mexicans who were killed by the United States soldiers."

A new war of secession by which Texas, New Mexico, Arizona, Utah, California and Colorado will declare their independence with a view to annexing the territory of the republic of Mexico is the news that El Democrat, a newspaper, published in Chihuahua City, has just announced. Jails are to be suppressed and the negroes and Indians are to be liberated.

Mexican War Office Says Troops Will Not Advance Until Exchange of Notes

By Associated Press Mexico City, April 17.—The war office received a dispatch to-night in which further details are given of the Carral affair. It was asserted an American officer had been culpably guilty for entering the town.

The dispatch also says American troops have ceased their movement toward Carral, and that the negotiations between the United States and Mexican governments are terminated. The full text of the dispatch follows:

The American army officer extended regret at what had happened and the American troops and the constitutionalists are working in complete harmony.

The Americans will not move further south until the result of the exchange of notes between Mexico and Washington becomes known.

Washington Is Growing More Doubtful of Reports

By Associated Press Washington, D. C., April 17.—As the hours pass without confirmation of the story of the finding of the body of Francisco Villa, Washington grows more doubtful of reports that he has been exhumed at Chihuahua City by a special train some time last night, but American Consul Fletcher has not even forwarded the rumors as to Villa's death which must be in preparation.

The Mexican embassy here has received additional information. It is reported from Consul Garcia at El Paso that he was seeking information.

for withdrawal was still in preparation today. It will outline the terms under which the United States will discuss the withdrawal of its forces and until report of the death has been confirmed no change in the program will be made.

It was reiterated today that should the reports be true as to that of Villa, the expedition would continue with the expedition at once. No instructions have yet been sent to Consul Fletcher or General Pershing, however, as to the situation.

"None will go forward until these officials transmit some report
