EARLY MORNING FATIGUE

When you awake in the morning feeling tired out, feeling worse in fact than when you went to bed, you are confronted with one of the characteristic symptoms of neurasthenia. It is due to the run-down condition of the nerves that rest does not bring renewed strength and sleep refresh the tired brain. Over work and worry are the most frequencauses of this condition. Neurastheris is the name given to this common form of nervous debility in which the power to recuperate is gone.
