WHY HAIR FALLS OUT

Dandruff causes a feverish irritation of the scalp, the hair roots shrink, loosen and then the hair comes out fast. To stop falling hair at once and rid the scalp of every particle of dan-druff, get a 25-cent bottle of Danderine at any drug store, pour a little in your hand and rub well into the scalp. After a few applications all dandruff disappears and the hair stops coming out.—Adv.

In pursuance of the policy of submarine warfare against the commerce of its adversaries thus announced and entered upon by the imperial German government in spite of the solemn protest of this govern-ment, the commanders of German vessels an undersea vessels have attacked mer-chant ships with greater and greater activity, not only upon the high seas undersea wasels of any kind; and have delivered their attacks without com-punction against vessels of every na-tionality and beligerent upon every sort of errand.
