

GIRLS! LOTS OF BEAUTIFUL HAIR

25 cent bottle of "Danderine" makes hair thick, glossy and wavy.

Removes all dandruff, stops itching scalp and falling hair.

To be possessed of a head of heavy, beautiful hair; soft, lustrous, fluffy, wavy and free from dandruff is merely a matter of using a little Danderine. It is easy and inexpensive to have nice, soft hair and lots of it. Just get a 25 cent bottle of Knowlton's Danderine now—all drug stores recommend it—apply a little as directed and within ten minutes there will be an appearance of abundance, freshness, fluffiness and an incomparable gloss and lustre, and try as you will you can not find a trace of dandruff or falling hair; but your real surprise will be after about two weeks' use, when you will see new hair—fine and downy at first—yes—but really new hair—sprouting out all over your scalp—Danderine is, we believe, the only sure hair grower, destroyer of dandruff and cure for itchy scalp and it never fails to stop falling hair at once. If you want to prove how pretty and soft your hair really is, moisten a cloth with a little Danderine and carefully draw it through your hair—taking one small strand at a time. Your hair will be soft, glossy and beautiful in just a few moments—a delightful surprise awaits everyone who tries this.—Advertisement.

Rub Out Rheumatism With WONDEROIL Stiff Joints Loosen Up Like Magic; Lumbago Relieved Over Night

Antiseptic Wonderoil draws all the painful stiffness, soreness and swelling from rheumatic joints, and does it so surely and speedily it seems almost like magic. It takes little more than a 25-cent box bought from George A. Gorgas or any leading dealer here in Harrisburg to prove it in almost every case. First heat Wonderoil, then rub in gently and bind up with flannel. It never just drives pain from one spot to another, but draws it right out of the body. Wonderoil is a physician's prescription and has been in successful use for over 50 years. It is pure and antiseptic. It never blisters and is pleasant to use. A generous sample will be sent on request by M. E. Raymond, Inc., Ballston Spa, N. Y.

FLUSH KIDNEYS WITH SALTS IF BACK IS ACHING

Noted authority says we eat too much meat which clogs Kidneys. Take glass of Salts when Kidneys hurt or Bladder bothers you.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which excites the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys. The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness. Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.—Advertisement.

STEELTON NEWS

EUROPE NOW INDEPENDENT

No Longer Needs American Munitions; Increase Steel Workers' Wages

"The uppermost concern of the week in steel and security markets," says the Iron Age in its weekly review today, "has been the intimation of the leading buyer of munitions that the British and French war departments are now 'relatively independent' of the United States in munitions supplies."

"What France and Great Britain have done is chiefly to speed up the machining of shells, so that later there will be less dependence upon American machine shops. As for the steel itself, this country must still help out largely. The British order last week prohibiting general pigiron and steel exports means more British steel for France and more calls for American steel from neutral countries."

Steel manufacturers have just announced wage advances of 10 per cent, forestalling the May turmoil of which there are signs in various directions. Advances without any publicity have been made since the first of the year at a good many blast furnaces and rolling mills. The last advances are in many cases treated as bonuses, terminable when the war prosperity ends.

"The Steel Corporation's 10 per cent wage increase, extending also to the Lake Superior iron ranges, means increases at other mines there. These will help in stopping losses of men to Western copper camps, where wages are the highest ever paid."

"The Pennsylvania Railroad order for 205,000 tons of rails becomes the largest single contract on record because it calls mostly for 125-lb. rails, this road leading in the use of the heaviest sections on such a scale. Extras for the heavy Pennsylvania discard and for reheating of blooms are higher in this contract than before. The Great Northern has bought 30,000 tons of rails, the Wheeling & Lake Erie 15,000 tons, the Clover Leaf 5,000 tons, and Southern roads 28,000 tons additional."
