GERMAN SECRET AGENT REVEALS BOMB DETAILS

Von Der Goltz Gives Information Which Leads to Many Indictments

EXPECTED TO BE SHOT

Captured by British, Soldier of Fortune Thought He Would Be Killed

By Associated Press New York, April 21.—Horst Von Der Goltz, the German soldier of fortune and secret agent whose statement of details of the plot to destroy the Welland canal was made public by the British government last night, is now detained at the Ellis Island Immigration Station here.

He was brought here from Liverpool on March 28 in the custody of a Scotland Yard detective with the understanding that after he had made his statements to federal officers or a grand jury, he should be returned to England to be detained as a war prisoner until the war is over.

As a result, it is said, of the information he gave to federal officers, indictments were found a few days ago charging complicity in the Welland Canal conspiracy against Captain Von Pappen, the recalled military attaché of the German embassy; Captain Hans Tauscher, who is said to be agent of the Krupp; Wolfe Von Igel, Von Pappen's former secretary, in whose office federal officials seized the documents now claimed by the German embassy; Alfred A. Fritzen and Constantine Covanu.

There was no mention of Von Igel's name in Von Der Goltz's statement as made public in England. The German embassy now demands Von Igel's release from arrest on the ground that he is a member of the German diplomatic organization in this country.

Many names of German propagandists or Germans employed in alleged unneutral activities mentioned in Von Der Goltz's statement have never before figured publicly in that connection, and can only be identified by inference. Captain Tauscher was arrested about two weeks ago and is at liberty under bail. Fritzen and Covanu have not been arrested and the latter is believed to be in Italy.

Von Der Goltz is about 25 years old and looks younger. While on his way from England to this country he said that he was a witness in the canal plot, but he believes this was the only alternative to death. If he refused to testify, he said, he expected to be taken back to the Tower of London and shot.

Papers Taken From Igel May Be Returned by U. S. With Official Apology

Washington, April 21.—The State and Justice Departments announced today that they will return to the German embassy all the papers seized in New York with the arrest of Wolfe Von Igel which Count Von Bernstorff will identify as official. Photographs and documents have been made and will be returned to Count Von Bernstorff protested vigorously against the taking of the papers and it was said at the State Department that Secretary Lansing was considering the necessity of an official apology. Should the ambassador assert that all the documents are official, it is understood, they will all be returned to him, but it was said by the State Department that it will keep all the photographic copies. Officials were interested today in learning if Count Von Bernstorff would declare any documents to be the property of the German embassy. The papers were said to disclose several subjects of an unusual nature which had not before come to the attention of this government. Definite connection with the German embassy would be confirmed, it was believed by a declaration that the documents are official, if none of the documents is declared official, it was understood the United States will proceed with the prosecution of Von Igel, his associates and possibly others as yet unnamed.

Whether Secretary Lansing would send a note to the German ambassador expressing regret for the seizure was not announced, but such action is believed probable. It was also suggested that the State Department might delay action until the submarine dispute with Germany assumed definite status.

German Pirate Reveals Secret of Bomb Plots

By Associated Press Wilmington, Del., April 21.—Ernest Schiller, the pirate who was sentenced to life imprisonment by Justice Bradford, in the federal district court here for seizing the British ship Matoppe, and who was lodged in the federal prison at Atlanta last night, is understood to have told Marshal Farry, or his deputies, of his experience in trying to purchase bombs in New York, which will result in a federal probe.

Schiller is said to have told the authorities somebody connected with a New York German publication instructed him how he could obtain bombs, and was told he says to join a certain German society, and was also given a letter to the secretary. The latter refused to propose him for membership, however, fearing that he was a British spy. Being released, he next planned to seize a British ship en route.

Federal Investigators Knew Many Allegations in Der Goltz Statement

Washington, April 21.—Many of the allegations in the sworn statement of Von Der Goltz made public last night, have been known to the Department of Justice for weeks and investigation has been made particularly into the activities of German consuls in Chicago, St. Paul and Baltimore. Officials said today the Baltimore investigation was the only one to produce results and the facts collected there will be laid before a grand jury. The Chicago and St. Paul investigations are

not now expected to lead to any court proceedings. Why do Americans choose ships in which they can be hurt? Does the American government deny there are threats among America's sons? If such rascals are paid with British gold to make dangerous ocean trips, why should Wilson make us responsible for their lives? U. S. and German Crisis Known in Mexico First. Special to the Telegraph El Paso, Tex., April 21.—On Monday the Chihuahua newspapers printed dispatches supposed to have come from Juarez, stating that President Wilson was about to deliver an ultimatum to Germany and that war would be declared within a week.

Crime For President to Cause War, Bryan Claims; Bursts Into Fray Again. Washington, April 21.—"I do not believe our Congress would declare war against Germany for any cause that has arisen on either side so far. I take it for granted, however, if the question arises that Congress will act as independently of the President in the discharge of its duties as the President acted toward Congress in the discharge of his constitutional prerogatives; in other words, that Mr. Wilson will be as little inclined to embarrass Congress as Congress was to embarrass him."

American Note Overshadows All News in France; Makes Deep Impression on Public. Paris, April 21.—The comment of the French press on President Wilson's address to Congress may be summed up in these words: "The Petit Parisien prints in large type as a heading over the text of the speech: 'Never has the head of a state pronounced such grave words against a state with which it was not at war.' The President's address has made a deep impression in France. All the newspapers give it the place of honor, and overshadows the entire news of the crisis and even the arrival of Russian forces at Marseilles. The speech is not merely a formal injunction, the Petit Parisien says; it is a closely knit and stern indictment pronounced in the name of all neutrals 'against German barbarity and duplicity, marking the German government with a brand which no nation can efface.' The article characterizes the address as epoch-making and continues: 'When the responsible and almost sovereign head of a hundred million free citizens mounts the rostrum in congress to declare 'We are the spokesmen of the rights of humanity,' he has performed an act of immense moral importance. It is in the name of this statesman that we have behind him the country on which the whole world depends, declares before the whole world: 'We will not tolerate injustice.' In those few words his whole message is summed up. It is an historical event, which is deserving of our admiration as one of the noblest acts in the memory of mankind.'"
