Chief of Staff and General Funston Are Reviewing in Detail History of Expedi- GAINS ALONG THE LINE tion's Operations: Persh-Movements; to Prepare

San Antonio, Texas, April 22.—Secretary of War Baker should be in receipt of a report before night from Major-General Hugh L. Scott, chief of staff of the army, that may assist the staff of the army, that may assist the administration in deciding whether to withdraw the American troops or send them farther into Mexico. Generals Scott and Funston to-day will review in detail the history of the punitive expedition's operations since entering Mexico, almost six weeks ago.

in detail the history of the punitive expedition's operations since entering Mexico, almost six weeks ago.

General Funston has received reports showing novements of Carranza troops in the district penetrated by General Pershing and others have been sent to General Pershing authorizing him to prepare for any aggression.

Carranza officials have given plausible reasons for moving the forces of General Arnulfo Gomez eastward from Sonoro, the troops of General Luis Herrera south from Chinuahua to Parral and a considerable force toward Crays Grandes, but should the war office at Mexico City decide later to use these forces to prevent further American military operations, General Per-

General Trevino has informed citizens who desired to resist the advance of the American troops, that the defacto government had the situation well in hand. General Trevino told them that if they felt that they must fight he would find them places in the army where they could make war on the Villa bandits.

You Can Enlist Here For U. S. Summer Naval Cruise

Official orders have been received

12, this year, by the United States Navy.

The order is the result of following the general outline of the Plattsburg military training camp idea. Enlistments may be made on the third floor of the Bergner building, this city, where the navy recruiting station is located. Certain qualifications are given for enrollment and the object of the cruise is to help equip properly qualified men to act as reserves in time of war or national emergency by giving them a course of training on warships under naval officers and naval discipline.

New York, April 22.—To-day's two-hour session of the stock market was attended by much excitement and further free selling. War shares and the stocks of companies operating in Mexico broke 4 to 8 points and the entire list, including investments, was uncavorably affected.

News over the Good Friday holiday was anything but reassuring from the Wall Street point of view. Latest developments in the German crisis were viewed with increased concern and reports of the proposed cancellation of American concessions in Mexico were responsible for the acute weakness in that quarter of the list.

Colonel Roosevelt to Invade Twice Before **Big Conventions Meet**

Oyster Bay, N. Y., April 22.—Colonel Roosevelt will probably make two in-vasions of the Middle West before the Republican and Progressive national conventions meet on June 7. Deventions meet on June 7.

the representative citizens of that city who are war veterans and members of civic preparedness and business organizations.

Of still greater interest, particularly to the delegates to the Republican convention, is the intimation that Colonel Roosevelt, after having delivered a patriotic address in Kansas City, might enlarge the tour to include two or three other large cities, and then enter Chicago on the morning of the convention meetings, while the effect of talks on preparedness and Americanism was still freshs in the minds of the Middle West.

still freshs in the minus of the Middle West.

Those who could never be convinced that the Colonel is now out for the Republican nomination for President will see in such a move a clever stroke in the preconvention campaign.

Delay in Shipment of Materials Holds Up Federal Bldg. Work

Held up during the winter months because of the difficulty in having an order filled for structural steel and because of the deep snows which tied up shipments from the granite quarries, the H. L. Brown Company, of New York city, contractors for the extension to the Federal building in this city, kept men busy in doors largely on repair work.

Electric conduits and water pipes were laid and repairs in the old and new parts, the brick tiling on the inner walls of the first floor of the extension finished, together with work on plastering and floor repairing.

Work on the granite part of the wings in the new addition will be started withi na week or ten days, according to C. A. Gieselman, superintendent for the Brown company. Other work on the exterior will be pushed rapidly during the coming weeks, as fast as materials are received. The big demand for steel products and the delay resulting in obtaining the necessary structural steel resulted in the Indoor work being pushed during the winter.

Pickets Flag Nearly All Westinghouse Employes

By Associated Press

New York, April 22.—Although the joint subcommittee of anthracite operators and miners who are trying to reach an agreement on wages and working conditions for about 175,000 workers in the hard coal fields will probably not be able to finish its work to day, both sides continued to predict that a satisfactory settlement would be reached probably early next week.

While these optimistic expressions were being indulged in, some of those in touch with the proceedings interpreted the calling of the miners' convention at Pottsville, Pa., on May 2 as the portent of trouble. It was argued that John P. White and his fellow-committeemen would not announce the date of the convention prior to reaching an agreement if they fell that satisfactory terms would be reached. The miners' body must finally pass on the work of the Joint subcommittee here. By Associated Press
