As a matter of fact, the objections to the commission plan have been in-creasing and it is doubtful whether the people will long approve the new scheme. Our own thought is that the most serious defect lies in the fact of him for President. a growing indifference of the people to the administration of their own

All the churches of Harrisburg will be crowded to-morrow and not the least be crowded to-morrow and not the least interesting feature of the services of the Eastertide will be the high class music which has been prepared for this glad festival. Harrisburg has long been noted as a music center, and the congregations of this city are favored with some fine choirs.

Certification of the names of men whose candidacies for various positions or nominations will appear on the ballot at the May primary will be made by the department of the Secretary of the Commonwealth as rapidly as the drawals expired last night and to-day was the last day for inaugurating contests of petitions for places on the ballot.

The 2,400 petitions of candidates whose names will be certified are being compared with the entries in the de-

a compared with the entries in the department records so that the material for the ballot will be accurate, and this work is keeping the entire force busy. The certification of names will be made in alphabetical order, each party having its own ballot.

The close of the period of withdrawal was marked by some eleventh-hour filing of affidavits and by telegrams giving notice of intention to send withdrawals. The department took the position that withdrawals not in the post office box by 4 p. m. or in the hands of the department officials at that hour would not be received. Several came in too late. In two or three cases withdrawals failed because not sworn to.

Dr. J. M. J. Raunick, city health officer, has received a number of letters from various parts of the United States from other health officers, asking for information on conducting "baby week" campaigns, and also in regard to the city milk supply, how it is inspected and the methods used. Some of these letters contain numerous questions as to how the milk supply coming into the city is examined. Other requests have been received for the monthly bulletin issued by the city bureau, and for all statistics relative to children's diseases and deaths. Among the letters received concerning "Baby Week," were two from persons in the Children's Bureau of the United States Department of Labor which has been observing this city.

When Wellington G. Jones, sporting editor of the Telegraph, opened his mail the other morning he found a letter from a certain railroad company which shall be nameless, notifying him that there had arrived in Harrisburg to be delivered wherever he desired, two "casket trucks." Mr. Jones remonstrated over the phone. The freight clerk insisted. The coffin repositories were there, they were addressed to him and he simply must take them away. Mr. Jones in vain insisted that he had no use for undertakers' equipment and the clerk said he ought to have thought of that before he ordered 'em. Finally a search of the records showed that the trucks were addressed to a man whose first name and initial were Wellington G. who resides near. Harrisburg, and familiarity with the name of Wellington G. Jones had led a baseball-loving clerk into error in setting down the last name. Such is fame.
