CARLISLE PLANS GREAT JUBILEE

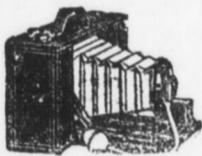

To Combine Molly Pitcher Celebration, Old Home Week and Fourth of July Parade

Carlisle, Pa., April 24.—A movement has been launched here to have the celebration attendant to the unveiling of the monument to Molly Pitcher, the heroine of Monmouth on June 28, extended to more elaborate proportions and to include an Old Home Week and Fourth of July observance.

It had been decided practically by the executive committee to have all of the events in one day. A movement had been on foot, however, to have an Old Home Week here in the Fall and at the next meeting of the committee the plan of combining the two and moving the annual Fourth of July observance forward several days will be presented. A tentative schedule for the new plan calls for the following program: Tuesday, June 27, enrollment and greeting of returned citizens with reception in the evening; Wednesday, June 28, unveiling of Molly Pitcher memorial, parade by patriotic organizations and speaking; Thursday, June 29, firemen's parade, to include all of the companies in the valley, various tests and contests; Friday, June 30, industrial day, with an industrial pageant showing the town's business enterprises, baseball games and contests between representatives of local plants; Saturday, July 1, suffrage and military day, pageant under the auspices of the national suffragists in honor of Molly Pitcher, sometimes known as the "original American suffragist"; military parade, and drills by guardsmen and Indian cadets. Fireworks display would come on Friday evening and on Sunday patriotic services and special sermons in the churches would follow. Many businessmen are in favor of extending the celebration.

WHEAT SHOWING NEARLY AVERAGE

Ninety-five Per Cent. Is the Rating Given by the State Agriculturists

Pennsylvania's wheat and rye crops were ninety-five per cent. of the average for April 1 in the last ten years according to reports made to the statistical bureau of the State Department of Agriculture by crop reporters on the first of this month. The acreage devoted to both grains is larger than a year ago and the reports show that winter wheat was the average snow protection during the winter just over. The summary of reports issued declares that twenty per cent. of the ground that will be used for this year's corn was ploughed last Fall and that livestock is up to the average in condition.

The bureau has prepared a statement showing the prices received by farmers for various produce as of April 1. Wheat is given as \$1.12 per bushel, corn \$2 cents, oats 52 cents, rye \$2 cents, potatoes \$1.15, hay \$17.50 per ton; eggs 23 cents per dozen and butter 33 cents per pound.

White Oak Tree, Two Centuries Old, Cut Down

Carlisle, Pa., April 24.—Under a plan of road improvement, the supervisors of Silver Spring have had an ancient white oak tree, a county landmark for two centuries, cut down. The tree measured six feet in diameter. It was one of the original markers of the land of the congregation of the Silver Springs Presbyterian church, one of the oldest congregations in the country which was founded in 1734 and is mentioned in the original deed for the plot. Marked on the tree show it to be aged about two centuries. Readjustment of boundary lines in the section made the tree come in the center of a road and for this reason it was removed.

Discuss Japan's Protest to Immigration Bill

Washington, April 24.—Japan's protest against inclusion in the pending immigration bill of a reference to the Root-Takahira agreement restricting immigration of Japanese laborers, was discussed to-day by Secretary Lansing, Chairman Stone, of the Senate Foreign Relations Committee, and Chairman Smith of the immigration committee.

Senator Sith later called a meeting of his committee for Thursday when an effort will be made to modify the bill to please Japan.

PLANNING ALUMNI MEETING Hummelstown, Pa., April 24.—A meeting of the Hummelstown High School Alumni Association will be held in the school building to-morrow evening to make arrangements for the annual alumni meeting.

True Secret of Keeping Youthful Looking

(The Beauty Seeker.)

"The real secret of keeping young-looking and beautiful," says a well-known hygienist, "is to keep the liver and bowels normally active. Without these requisites, poisonous waste products remain in the system, polluting the blood and lodging in various organs, tissues, joints. One becomes flabby, obese, nervous, mentally sluggish, dull-eyed, wrinkled and sallow of face."

"But to get liver and bowels working as they ought, without producing evil after-effects has been the problem. Fortunately, there is a prescription of unquestioned merit, which may be had in convenient tablet form. Its value is due largely to an ingredient derived from the humble May apple, or its root, which has been called 'vegetable calomel' because of its effectiveness—though, of course, it is not to be classed with the real calomel of mercer's origin. There is no habit-forming constituent in 'sentinel' tablets—hence the name—and their use is not followed by weakness or exhaustion. On the contrary, these harmless vegetable tablets tend to impart tone, and elasticity to the relaxed intestinal wall. Sentinel tablets, which may be procured from any druggist—a dime's worth will do—will prove a revelation to any constipated, liver-troubled person."

The Constipation Curse

Constipation—clogged bowels cause pain and sickness; 95 per cent of our ills, say the authorities. Sentinel Laxatives bring quick relief. All vegetable—contain no calomel. Ten doses for a dime at any druggist. Physician's sample free, upon request, if you mention this advertisement. The Sentinel Remedies Co., Inc., 800 Madison Ave., Covington, Ky.

VOTERS TO DECIDE ON SCHOOL LOAN

East Pennsboro Township Directors Plan Two New Buildings

Enola, Pa., April 24.—School directors of East Pennsboro township have completed plans for a loan of \$40,000 and Solicitor J. E. Myers was instructed to have the details arranged so that an election may be held by the voters of the township. It is the intention of the board to build an addition to the Washington Heights School at a cost of \$5,000; heating apparatus \$1,100; to take the place of the stoves that have been used in this building; \$30,000 to be used for the erection of a 12-room building at Enola, to take the place of the one destroyed by fire and \$2,000 for the purchase of the lot on which the burned building was erected, now owned by the Enola Realty Company.

The directors plan to have the building erected and fully equipped for the above amount. The insurance of \$18,240 on the building will be used in erecting a building near Highland Park to be used for the new High School and the purchase of a suitable lot.

The law requires that thirty days before the resolution can be put to a vote and it must be advertised. Nothing can therefore be done on the new Summit street building until June 1, but an architect will be employed to draw plans for a suitable building and all arrangements made for its erection.

The assessed valuation of the township is about \$1,500,000 and the present indebtedness \$33,000. The tax rate is about 11 mills and with the proposed increase in indebtedness of \$40,000, the directors do not expect to increase the mill rate much as the bonds to be sold will be for 30 years.

Dr. G. Frank Ritchie Dies at Mechanicsburg

Mechanicsburg, Pa., April 24.—After several months' illness Dr. G. Frank Ritchie died early yesterday morning at his home in East Main street of grip and pleurisy, combined with nervous trouble. He was aged 50 years and was a successful and well-known medical practitioner. He was a resident of Mechanicsburg the past five years, coming here from New Kingston, where he lived fifteen years.

Dr. Ritchie was born in Loysburg, Bedford county, June 13, 1865. He was graduated from Jefferson College in the class of 1889 and commenced the practice of medicine at Pittsburgh. From there he went to Texas, thence to New Kingston. He was a thirty-second-degree Mason, being past master in Eureka Lodge, No. 302, of Mechanicsburg. He was a member of the Business Men's League and of the Citizens' Fire Company. His wife and one son, Frank Arthur, at home, survive. Of a family of ten children, Dr. Ritchie is the first to die, and the following brothers and sisters survive: Dr. M. M. Ritchie, James Ritchie and Dr. Herman Ritchie, all of Harrisburg; V. H. Ritchie, druggist, of Carlisle; John and Howard, of Altoona, and Daniel, of Dillsburg; Mrs. John Green and Miss Ida Ritchie, of Harrisburg.

The funeral service will be held to-morrow afternoon at 2 o'clock, conducted by the Rev. H. Hall Sharp, pastor of Trinity Lutheran Church. Burial will be made in the Longsdorf Cemetery, New Kingston.

Heavy Earthquakes Are Recorded at Georgetown; Seismograph Is Broken

Washington, April 24.—Two severe earthquakes were recorded on Georgetown University seismographs to-day. The heaviest shocks came at 3.21 a. m. The first began at 11.31 o'clock last night and continued until 12.07 o'clock this morning. It was estimated that its center was about 1,600 miles from Washington.

The second series of shocks, decidedly stronger than the first, began at 3.08 a. m., reaching a maximum intensity at 3.21 a. m. At this point the needles of two of the seismographs were thrown off their recording, so severe were the shocks. The shocks continued until 4.12 a. m. Director Tongorff said that the center of the second earthquake was 2,400 miles from Washington and he believed if it occurred in an inhabited zone it must have done considerable damage.

GOVERNOR HAS BUSY ITINERARY

Goes to Boston Tomorrow; Starts Speechmaking Tour Saturday

Governor Brumbaugh was at the State Capitol to-day for the first time since April 13 when he left for Washington and after clearing up accumulated business, announced that he would leave to-morrow for Boston where he is to make two addresses. On Wednesday, the Governor will speak before the Merchants' Club on "Education a Factor in Preparedness" and on Thursday before the Middlesex Club on "Grant."

The itinerary for the Governor's speech making tour is being revised to-day. Instead of starting at Williamsport on Friday he will likely make his first campaign speeches in Huntingdon and Blair counties on Saturday. A number of changes in the list announced for next week will be made so as to reduce the number of talks and the mileage to be covered.

The Governor showed traces of his illness when at the Capitol and appeared to be tired after receiving numerous visitors.

The Rev. W. N. Yates, Washington party candidate for State Senator, may ask leave to amend the Republican and Democratic petitions filed for him and which were returned as defective. He discussed the situation with Deputy Secretary of the Commonwealth Godcharles to-day and will consult attorneys. He said this morning that he had not yet determined upon his course. Whether he will contest anyone else's papers is not known.

Showing in Battle Practice Gratifying to Officers in Navy

San Diego, Cal., April 24.—Naval officers here expressed gratification to-day over records made by vessels of the Pacific fleet at elementary and battle practice this year. The Maryland scored 16 hits out of 17 shots and the Cleveland 15 out of 16. In battle practice the Cleveland made 32 hits in 40. In torpedo practice Friday the San Pedro the destroyer Stewart scored two hits in as many shots steaming at twenty knots. The range was between 3,500 and 4,000 yards.

GOOD WORK Proper Food Makes Marvelous Changes.

Providence is sometimes credited with directing the footsteps by so simple a way as the reading of a food advertisement.

A lady in Mo. writes, "I was compelled to retire from my teaching because I was broken down with nervous prostration. I suffered agony in my back and was in a dreadfully nervous condition, irritable with a dull, heavy headache continually, had no appetite and could scarcely digest anything. I was unable to remember what I read and was, of course, unfit for my work. "One day, as if by providence, I read the testimonial of a lady whose symptoms were much the same as mine, and she told of how Grape-Nuts food had helped her, so I concluded to try it."

"I began with Grape-Nuts, a little fruit, and a cup of Postum. I steadily improved in both body and mind. Grape-Nuts has done more for me than all the medicine I have ever taken. I am now well again and able to do anything necessary in my work. "My mind is clearer, my body stronger than ever before. There's a Reason." Name given by Postum Co., Battle Creek, Mich.

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

Premier Confident New Chinese Cabinet Will Be Able to Restore Peace

Peking, China, April 24.—Confidence in the ability of the new Chinese cabinet to restore peace was expressed to-day by Tuan Chi Jul, who on Saturday accepted the premiership, in an interview granted the correspondent of the Associated Press. The first task of the cabinet, he said, would be to restore tranquility. Kang-Tung is the only province in which fighting is now going on.

Dickinson Students Favor Military Training Plan

Carlisle, Pa., April 24.—Compulsory military training for students at Dickinson College is being advocated and there is a sentiment among the members of the student body in favor of a plan of drill and the formation of cadet battalions similar to those of the Carlisle Indian school. The "Dickinsonian," the official newspaper publication, is devoting much space to a discussion of the topic.

Special to the Telegraph Enola, Pa., April 24.—G. W. T.

WORLD'S MIGHTIEST LOCOMOTIVES

Great as are steam locomotives—yet far greater are obstacles of mountain operation. To successfully overcome these the steam locomotive has had to yield the sceptre to a mightier giant—the electric locomotive.

World supremacy in locomotives is now held by the powerful electrics of the "St. Paul" that haul the superb all-steel trains—"The Olympian" and "The Columbian" over the completed unit of the electrified main line of this railway across the Great Continental Divide.

This supremacy rests on their ability to pull heavier loads with greater speed over the mountains—to master snow and cold—to effect vast economies in operation and to travel farther without overhauling—than any other locomotives, either steam or electric.

Electric operation adds much to the comforts and delights of travel. It means smoother riding and freedom from smoke, cinders, gases and other undesirable incidents unavoidable with steam travel.

On your next trip to the Pacific Northwest journey via the "St. Paul" and enjoy the combination of luxurious service, electric travel through the mountains amid magnificent scenery not surpassed on the continent.
