INDIAN SKELETON FOUND ON FARM

Lancaster County Farmer Turns Up Bones of Aborigine While Plowing Field

Special to the Telegraph Columbia, Pa., April 28.—Edgar N. Shultz, of Manor township while plowing in a field on his farm, between Washingtonboro and Creswell, turned up the skeleton of an Indian which was almost complete except the skull, which was broken when struck by the plow. The place in which this skeleton was found evidently was used as a burying ground by tribes in the earliest history of the existence of the Indians on this continent, there having been other discoveries of skeletons in the same neighborhood that have revealed evidences of antiquity and some of which have been preserved. In the earliest history of the Indians in America it was customary to bury their remains with shells, then supposed to have been used as money by the natives, and this skeleton having been embedded in shells, which was the medium of exchange, affords evidence of its antiquity. The same farm has revealed many other Indian relics.

BLACKHEADS GO QUICK BY THIS SIMPLE METHOD

Blackheads—big ones or little ones—soft ones or hard ones—on any part of the body, go quick by a simple method that just dissolves them. To do this get about two ounces of powdered norexin from your druggist—sprinkle a little on a hot, wet sponge—rub over the blackheads briskly for a few seconds—and wash off. You'll wonder where the blackheads have gone. The powdered norexin, while the hot water have just dissolved them. Pinching and squeezing blackheads only open the pores of the skin and leave them open and unsightly—and unless the blackheads are big and soft they will not come out. The simple application of norexin and water dissolves them right out, leaving the skin soft and the pores in their natural condition. You can get powdered norexin at any drug store and if you are troubled with these unsightly blemishes you should certainly try this simple method.—Advertisement.

YOUTH IN OLD AGE

How to Live to be One Hundred Years Old.

With proper attention to diet, prevention of colds, exercise, plenty of sleep, proper care of the skin and the use of a strengthening tonic like Vinol, years may be added to one's life.

A Civil War veteran, Mr. W. H. Bowers, of Steubenville, Ohio, says: "I am 77 years of age. I suffered from general weakness, nervous breakdown and dizziness. An old doctor recommended Vinol. It built me up so that I was able to go to work as strong and well as ever."

The reason Vinol is so beneficial to old people is because it contains the very elements needed to replace declining strength with renewed vigor. The medicinal elements of fresh cod livers, without oil, peptonate of iron, beef peptonate and a mild tonic wine.

If Vinol fails to build up the feeble weakened system of old people, we will return the amount of money paid us for it.
