SOLDIER'S LETTER ON CRACKER BOX

Sergeant Homer D. Martin, of Eleventh U. S. Cavalry, Send Unique Missive

Special to the Telegraph
Carlisle, Pa., May 1.—Probably the most unique missive that ever came through the local post office was a letter from Homer D. Martin, sergeant in the Eleventh United States Cavalry now "somewhere in Mexico" just received by his mother who resides here. The letter was written just after he left Columbus for service in the southern country. It is written on the inside of a cracker box, which was later folded and tied to constitute an envelope with the address on the wrapper and the phrase "soldier mail" for postage. He gives little information relative to the movement of troops other than that the United States men expected to easily win.

Governor Brumbaugh's plans for speech making this week includes visits to Easton, Norristown and Pittsburgh, although all details have not yet been arranged for the Montgomery county visit.

The Governor will not go to Allentown and Bethlehem to-morrow, the plans for visits to those places having been cancelled to-day. It was said that a hall could not be secured in one of the cities. The Governor plans to leave late to-morrow afternoon for Easton where he will speak at night, returning to this city the next day. The Norristown plan is for Thursday, Friday morning the Governor will go to Pittsburgh to spend the week-end. Further plans will be worked out later in the day.

Governor Brumbaugh was at the Capitol to-day to attend a meeting of the Meade Memorial Commission and said that he had enjoyed his visit to Cambria county yesterday. During the day he had a talk with Attorney General Brown about his campaign plans. Gossip was rife to-day about the successor to the late Highway Commissioner Cunningham, but the Governor declined to talk about the matter. While the name of J. Denny O'Neil, former county commissioner of Allegheny, has been mentioned for the place there is also talk of others, among them William D. Ulmer, the chief engineer who was Mr. Cunningham's right hand man.

Diseases That Show In Your Face?

It matters not how little confidence we may have in our ability as mind readers, all of us by life-long practice are face-readers. A considerable part of our attitude toward our fellows is determined by what we see in their faces. Most of us have become surprisingly accurate face-readers in regard to moral and emotional tendencies. And we also read just as well when the face indicates either internal or external disease. The tense, drawn features indicating continued pain from some internal ailment, or the breaking out of one of the many skin diseases, which speak only too plainly for themselves, because most, if not all skin diseases show on the face sooner or later. Impure, impoverished or impaired blood are the prime causes of disease. Therefore the blood should be nourished, as well as purified.

One of the striking changes in modern medication is the way the use of iron for blood troubles has decreased. It was discovered that iron was not a blood food. When people are suffering from poisoned blood, impure or impoverished blood, there needs a remedy that will not only drive out the impurities but that will nourish the blood at the same time—S. S. S., the standard blood purifier for 50 years, is purely vegetable and will absolutely drive out the impurities and will nourish and tone up the entire system, both physical and nervous. Purify and nourish your blood by taking S. S. S. If you need special advice, write Medical Department, Room 18, Swift Specific Company, Atlanta, Ga.

COVERS DOUBLE THE SURFACE Of Cheap Paint

THE WIFE OF A MAN WE KNOW came home the other day with a great "bargain" in silk.

SHE HAD PAID "ONLY" 79 CENTS a yard for six yards of silk. The silk was eighteen inches wide.

IN ANSWER TO HER HUSBAND'S questions she said she could buy silk of the same quality, thirty-six inches wide, for \$1.25 a yard. How much did she lose?
