### BEAUTIFYING RIVER PARK

Cover Upper Walk With Fine Stone; Build Steps to Wall

Under direction of the Department of Parks the upper walk along the river slope is being covered with the

finest stone procurable and the edges are being trimmed and realigned. Certain stretches of the walk have been almost impassable for pedestrians because of large sharp stones which have rendered walking anything but pleasant. Also, the rough stone has resulted in promenaders walking upon the grass on either side. This has caused a more or less ragged border and it is the hope of Superintendent V. Grant Forrer that the rolling of the walk and the regrading of the same will correct this situation.

concealed in some measure by immediate planting. It is also the intention of the department to plant the several places along the bank which have been used by boys as runways. Much of the damage to the planting was caused by the contractors during the construction of the "Front Steps."

Since the standard lights have been installed in the section between the Walnut and Market street bridges the temporary poles and wires placed during the celebration last September will be moved. It is also the intention of the department to put the old roadway leading from Walnut street along the embankment in

proper condition for a walk and also plant the slope in that section. There is much to be done in the way of planting along the River Front and the department is ready to employ a considerable number of men if they immediately apply at the offices in the Calder building.

**Want Steps Through Hardscrabble**  
Hundreds of people who enjoy the walk along the "Front Steps of Harrisburg," and this promenade is becoming famous throughout the country—are now expressing general regret over the fact that these steps were not carried through the Hardscrabble section. There has been some unfair criticism of the people of

this district for their opposition to the closing of the gap at that point, but it is not generally known that a petition was numerously signed by the Hardscrabble residents urging the city to close the gap during the work on the wall last summer. Opposition to the steps came largely from boating and coal interests and not from the average citizen.
