### EXCESSIVE MEAT EATING

Most people who are troubled with flatulency eat more meat than is good for them. Flatulency is wind on the stomach. Excessive meat eating or defective nerve force is responsible in most cases.

Cutting down the amount of meat in your diet and taking a course of treatment with Dr. Williams' Pink Pills to strengthen the weak nerves that control the digestive processes is well worth trying if you have wind on the stomach, sour risings in the throat, a feeling of weakness in the stomach and palpitation of the heart. Dr. Williams' Pink Pills are recommended for thin blood and weak nerves, whatever the cause.

Send today to Dr. Williams Medicine Co., Schenectady, N. Y., for the diet book "What to Eat and How to Eat." It gives information regarding the tonic treatment for many forms of stomach trouble. There cannot be perfect digestion without a sufficient supply of red blood and there is nothing better than Dr. Williams' Pink Pills to enrich the blood and tone up the stomach.

Your own druggist sells Dr. Williams' Pink Pills or they will be mailed, post-paid, on receipt of price, 50 cents per box, six boxes \$2.50, by the Dr. Williams Medicine Co., Schenectady, N. Y.
