

IMMEDIATE RELIEF FOR ITCHING SKIN

Pimples, Rashes, Eczema, All Effectively Removed by Ucanol. No matter how long you have been tortured by itching skin or annoyed because of unsightly blotches, rashes, pimples, or any other skin eruption, just apply antiseptic Ucanol. It is a wonderful ointment, antiseptic, soothing and healing. It makes you forget eczema, for it even to scratch. You can go to sleep with Ucanol—Snuggle right down under the covers. The old, almost forgotten way, with none of those nail-digging spasms to disturb your rest. Ucanol cleanses the diseased tissues, gets right down to the bottom of your trouble, and speeds up nature in the forming of clean, new skin. Hundreds of sufferers from piles have testified how quickly this simple remedy brings blessed relief. Mothers say they would not be without Ucanol because there is nothing so good for itchy cuts and scratches. Ucanol should be in every household. A large box will last a long time. H. C. Kennedy and the better druggists everywhere sell lots of it, and each box has guarantee of satisfactory results or purchase price is refunded.—Advertisement.

MONKEYS WEAR GLASSES AND RUIN THEIR EYES

Hospital Experiment of World-wide Interest. BALTIMORE, MD.—At Johns Hopkins Hospital, they are putting glasses on monkeys for the purpose of unsealing their vision. This will cause a severe eye strain, and impaired vision, which in turn affects the thyroid glands, and is expected to produce such diseases, as nervousness, insomnia, melancholia, irritability, headache, goitre, palpitation of the heart, protruding eyeballs, and mild forms of tubercular affections. You must admit that if glasses on monkeys will cause such conditions, they will do the same on human beings. Eyeglasses in many cases are unnecessary and even dangerous. Many think because they see well with their glasses, that they fit, but this is not always true. Mist glasses have ruined the eyes of thousands of people, for at times nearly every wearer of glasses wears glasses which do not fit. In the United States alone there are over 300,000 blind people, thousands of whom can trace their misfortune to neglect, as neglect has caused more blindness than any other one thing. You value your eyesight above everything, therefore you should know something about your eyes, and what to do to strengthen and preserve them. Leading druggists are now authorized to distribute to those interested, a valuable book pertaining to eyes and eye saving entitled, "Healthy Eyes And How To Obtain Them." This book should be in every home. It tells of a highly efficacious home remedy, which has enabled many to strengthen their eyesight 50 per cent. in one week's time, and by so doing they are able to discard their glasses. Through its use, many others have avoided the necessity of resorting to these windows. If you are a wearer of glasses and want to get rid of them, if your eyesight is weak and you wish to strengthen it, if you would like to test the remedy, go to any drug store and get 5 rain optona tablets. Put one tablet in a quart glass of water, allow to thoroughly dissolve and with this refreshing solution, bathe the eyes from three to four times daily. Everyone, whether they wear glasses or not, will be greatly helped through this method of eye saving. Since this formula has been published, H. C. Kennedy, of this city, has been kept busy filling it. If you follow this method, your eyes will clear up perceptibly right from the start. It strengthens vision even in old eyes, and its use will tone and strengthen the eye muscles and nerves so they quickly become healthy and strong. If you would over-look bloodshot eyes and red lids, if you would have good eyesight and eyes free from blurring, inflammation, itching, burning and aching due to eye strain from overwork, try this solution at once. Don't put it off until tomorrow, as delays are dangerous, and the sooner you take care of your eyes, the better it will be for you. Advertisement.

Look and Feel Clean, Sweet and Fresh Every Day

Drink a glass of real hot water before breakfast to wash out poisons.

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath. Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter. Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleanses, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs. The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatic aches, others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store which will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.—Advertisement.

TIME TABLE Cumberland Valley Railroad

In Effect June 27, 1916. TRAINS LEAVE HARRISBURG: For Winchester and Martinsburg at 5:05, 7:52 a. m., 3:40 p. m. For Chambersburg, Carlisle, Mechanicsburg and intermediate stations at 7:52, 11:53 a. m., 2:40, 5:37, 7:45, 11:00 p. m. Additional trains for Carlisle and Mechanicsburg at 9:45 a. m., 2:16, 3:26, 6:20, 9:35 p. m. For Dillsburg at 5:05, 7:52 and 11:53 a. m., 2:16, 3:40, 5:37 and 6:30 p. m. Daily. All other trains daily except Sunday. J. H. TONGE, H. A. RIDDLE, G. P. A.

ENCAMPMENTS TO BE HELD AS USUAL

Tentative Dates Are Announced, Subject to Unforeseen Circumstances

Important information for members of the National Guard of Pennsylvania concerning the summer encampments is contained in a bulletin of notes issued by Adjutant General Thomas J. Stewart for information of the officers and men of the organized militia of the State. The bulletin is the first to be issued since last July and is as follows: "Owing to the insufficiency of available funds, no camp of instruction for officers of infantry will be held during 1916."

The following tentative dates have been fixed for annual encampments during the year 1916: First, Third and Fourth Brigades, at Mount Gretna, July 7-15; Second Brigade, August 5-12, inclusive. Location to be selected by the brigade commander; First Cavalry, not determined as to date or place, but awaiting action by War Department as to joint camp (early information will be given); field artillery, at Tobyhanna, Pa.; Batteries A, C and D, July 25 to August 4; Batteries B, E and F, August 8-15; field hospitals and ambulance companies at Tobyhanna, Pa., August 10-20; engineer companies, at Belvoir Tract, Virginia, July 5-15; signal troops, with Second Brigade, August 5-12; rifle camp of instruction and State matches, at Mount Gretna, August 16-25; camp of instruction for officers and enlisted men, cavalry, Fort Myer, Va., May 21-28; medical officers and enlisted men of field hospitals and ambulance companies and sanitary detachments, at Tobyhanna, Pa., June 19-28; artillery, Tobyhanna, Pa., May 21 to June 4.

The pending legislation in Congress may result in new regulations regarding enlisted men attending annual encampments or camps of instruction, but at the present time the following regulations will govern: "No enlisted man will be entitled to pay from Federal funds unless he has had sixty days' service immediately preceding the camp and has had during that period not less than fourteen periods of practical progressive military instruction. No enlisted man will be taken to camp who has not been enlisted at least thirty days prior to the opening of the camp in which the organization participates, except in cases of re-enlistment made immediately upon expiration of previous enlistment."

An investigation made as to enlistments of men in past years immediately prior to annual encampments indicates that in many instances commanding officers did not exercise proper care as to the character of men enlisted or as to their intention to at least make an effort to become desirable and efficient members of the organization. To enlist men merely for the purpose of taking them to camp and then after camp to find them either undesirable or disinterested members of organizations is a waste of public funds as well as an effort. It is not absolutely necessary to take the minimum number of enlisted men (65) to camp, but the men who are taken should be dependable men who are interested in the service and have had a reasonable amount of military instruction, and have the self-respect and characteristics of a good soldier.

An enlistment is an important matter and entails an exacting obligation on the part of the individual, and hence it is necessary and required that the enlistment papers be prepared with the utmost care. The physical examination must be made prior to the administration of the oath to the recruit, and must be made by an officer of the medical department or a physician or surgeon in active practice, as required by law. Dentists, osteopaths, oculists or opticians are not considered physicians or surgeons within the meaning of the law referring to physical examination of recruits. Commanding officers of companies, troops and batteries are authorized to administer oaths in cases of enlistment. By commanding officer is meant the captain. If, however, a subordinate administers the oath, a letter should be forwarded with the enlistment papers in explanation.

MACHINE TOOLS CHEAPEN AUTOMOBILES

On account of the greater cutting power inherent in present-day machine tools, the cost of factory production has been greatly reduced, so that many things formerly considered luxuries can now be produced and sold at prices within the reach of people of moderate means. The automobile is an excellent example of the reduced cost of production from improved design and modern machine shop methods.—A. A. Dowd, in the Engineering Magazine for May.

MRS. HERSHMAN HOSTESS

Special to the Telegraph. Mechanicsburg, Pa., May 5.—Mrs. George W. Hershman was hostess for the organized Bible class, taught by Miss Anna Brownwell, in the Methodist Episcopal Sunday School, of which she is a member, at her home in West Coover street last evening. Following the business session the time was spent socially and refreshments were served.

CLASS GIVES PLAY

Special to the Telegraph. Williamsport, Pa., May 5.—Wednesday evening the Academy of Music was filled to its capacity when the senior class of the Williamsport high school produced a Southern drama, entitled "The Thread of Destiny."

DIES IN NEBRASKA

Special to the Telegraph. Shiremanstown, Pa., May 5.—Phineas B. Miller, of Diller, Neb., died at his home following an operation. Mr. Miller was a native of Cumberland county and emigrated to Nebraska a number of years ago, where he conducted an implement store.

"THE NEW STORE OF WM. STROUSE" Adler-Rochester Clothes of Dignity For the Man of More Conservative Ideas

Judging from most clothing advertisements, all the men in the world are young men, and the man of more mature years must dress either flashily or with a touch of foggism. In The New Store of Wm. Strouse, at least, the man of more conservative ideas may find exactly what he requires; rich, but quiet-toned patterns, styled in neither of the extremes. Materials of dark backgrounds and neat mixtures, plain serges in varied shades; the even plainer weaves of Homespun and Tweeds, or smooth Worsteds in quiet, dignified tones. These, and many more are built into clothes of character and refinement for the man of dignity and taste—tailored by the famous Adler-Rochester tailors and priced at

\$20 to \$35

"Wesco Fifteens"

are intended more for the dressy young chaps who treat clothes seriously and who want every dollar they spend built right into the clothes they're paying for. They expect—and they get—up-to-the-minute styles both in materials and patterns. Take the Pinch-Back, for instance—introduced by The New Store—you'll find it in a rare variety of weaves and fabrics from the handsome Tweed to the beautiful Checks, Serges, Worsteds and Flannels. Here you'll find the material you've waited for in the style and cut you've wanted and at a price you want to pay—

Fifteen Dollars

TOMORROW IS STRAW HAT DAY and the man who cares about appearances will come out in his new Panama, or Straw. Sennits, the new shape, will be the Summer's leader—a mighty dressy creation. The new Indestructible Panama will create a sensation; it's such an unusual hat. Sennit Straws \$1.50, \$2 and \$3 Panamas \$3.50, \$5.00 and \$6.50

MORE SHEEP PLAN GIVEN SUPPORT

State Commission Doing All That It Can to Help Along the General Scheme

"More sheep," the issue raised by the Philadelphia Wool and Textile Association, was the chief subject for discussion at the regular meeting of the State Commission of Agriculture this week. As a result of the conference held in the Union League, Philadelphia, on April 4, under the auspices of Charles S. Calwell, president of the Corn Exchange Bank, A. C. Bigelow, president of the Philadelphia Wool and Textile Association, was invited to attend this month's regular meeting of the commission. Clarence Sears

Kates, honorary secretary of the Philadelphia Agricultural Service Bureau, also was present by invitation.

As a result of the deliberations it was agreed by the commission that a formal plan to encourage sheep raising in this State should be drawn up. This plan to be known as "the sheep project." This followed the presentation of a formal request by President Bigelow, of the Wool and Textile Association, to Chairman H. V. White, of the Agricultural Commission, that the commission, as a logical body, should make a survey for the purpose of rebuilding the sheep-raising industry. Mr. Bigelow's letter said in part: "This study and survey would naturally solicit and obtain the cooperation of the United States Department of Agriculture, the Pennsylvania Department of Agriculture, Secretary Patton, Pennsylvania State College, Professor Tomhave, University of Pennsylvania, Wharton school, Dr. J. Russell Smith, veterinary department, Dr. Carl B. Gray, Pennsylvania State Grange, Master J. A. McSparran. "It would appear that such a survey would establish the causes which have

operated in the past to cause a diminution of sheep, such as markets, dogs, disease, influence of meat prices on mutton, range conditions, etc. If your study and survey of this proposition should indicate that there is a sound basis for an effort to remove preventable causes heretofore existing, and on which a sound project can be formulated for an increase in production, I would submit the request that you formulate a plan for this purpose."

As the movement for "more sheep" originated with the Philadelphia association, it is hoped to make Pennsylvania the leader among the States in this movement, and it is believed that the Agricultural Commissioners can produce a plan which will stand as a model for other States to follow. The National Association of Clothiers, the Philadelphia Chamber of Commerce, the Philadelphia Bourse and the agricultural departments of railroads are interested in the success of the sheep growing campaign and are counted on for support of any movement which has "more sheep" as its goal. Those who attended the meeting in the Capitol, besides Mr. Bigelow and Mr. Kates, were Secretary of Agriculture Charles E. Patton, Chairman H. V. White and Agricultural Commissioners H. T. Moon, M. T. Phillips, M. E. Bushong, A. J. Gillilan and L. E. Sexton.

BRETHREN BISHOP DIES

Marietta, Pa., May 5.—The Rev. M. Mummert, aged 59, bishop of the Brethren Church for the past thirty-five years, died Wednesday from blood poisoning.

PICNIC AT THE ELM

Special to the Telegraph. Dauphin, Pa., May 5.—The grammar room of the borough public schools enjoyed a picnic yesterday at The Elm.
