### NERVOUS WOMEN

Are troubled with the "blues," anxiety, sleeplessness, and warnings of pain and distress are sent by the nerves like fiying messengers throughout body and limbs. Such feelings may or may not be accompanied by backache or headache or hearing-down. The local discorders and inflammation, if there be any, should be treated with Dr. Pierce's Lotion Tablets. Then the nervous system and the entire womanly make-up feels the tonic effect of Dr. Pierce's Favorite Prescription. Take this in tablet or liquid form and be a well woman.

Carlisle, Pa.-"When I needed to Carlisle, Pa.—"When I needed to be built up and get strong I used Ir. Prerce's Favorite Prescription. I was in a nerrous and run-down condition. I took it for a period of six months and at the end of the treatment was much stronger and better."—Miss Anna P. Chomlich, 60 E. North St.

Many mothers of families in Pennsylvania have reason to be grateful to the person who recommended Dr. Tlerce's Favorite Prescription. It is put up for the single purpose of curing diseases peculiar to women. Another point in its favor; it is a temperance remedy and does not contain a single drop of alcohol or of any narnotic. Its ingredients are printed on the wrapper. It banishes pain, headache, backache, low spirits, hot flashes, draggingdown sensation, worry and sleeplessness surely and without loss of time.

Why should any woman continue to worry, to lead a miserable existence, when certain help is at hand?
What Doctor Pierce's Favorite Prescription has done for thousands it will do for you. Get it to-day!

The sluggish liver can be cured by the use of Dr. Pierce's Pleasant Pellets, Biliousness, coated tongue, bad breath, are all cleared up and banished by the use of these tiny sugar-coated granules—purely vegetable and harmless. They do not cause a habit.

## **COAL MEN SIGN** AGREEMENT FOR WAGE INCREASE

Miners Will Get General Raise of About \$10,000 a Year; Coal May Jump 25 Cents

Special to the Telegraph
Philadelphia, Pa.. May 6.— In the
office of W. J. Richards, president of
the Philadelphia and Reading Coal
and Iron Company yesterday the subcommittees of the anthracite operators and miners met and formally
signed the new working agreement,
which is to continue in effect until
March 31, 1929, and which will mean
a general increase in wages of between \$10,000,000 and \$12,000,000 a
year.

a general increase in wages of between \$10,000,000 and \$12,000,000 and \$12,000,000 and \$20,000 aper. The cipher seight hours generally understood, however, that it will cause coal to jump 25 cents a ton. The operators were equally reticent on the proposals they made several months ago th: t they were planning to lower prices through resizing the coal. The method put forth then was that the six sizes most used should be cut to three by mixing the two nearest sizes. The feeling is growing stronger all the time on the part of those close to the situation that this method will be resorted to in softening as much as possible the blow caused by an increase to cover the raise granted to the miners.

180,000 Men Raised

By the terms of the agreement, 180,000 miners will receive an aggregate of about \$45,000,000 in the four years the schedule is in effect, or between \$10,000,000 and \$12,000,000 ayear. The eight-hour day is extended to compay men paid by the day or hour. Besides this, a general increase of 3 per cent, in wages is granted. A minimum wage scale is established for machine workers and a raise of 7 per cent, is allowed hoisting engineers, who will continue to work on the ninehour basis. Both miners and opera-

per cent. is allowed hoisting engineers, who will continue to work on the nine-hour basis. Both miners and operators regard the settlement as a victory, the miners claiming the new agreement means a raise of 15 per cent. in wazes, while the operators are satisfied with having come to an amicable settlement without having officially to recognize the union, a point that was warmly contested.

FLOWER THIEVES AT WORK

Already malicious persons have begun the destruction of flowers and plants in the western section of the city. It has been reported to the Telegraph that several attractive yards in the vicinity of Fifth and Maclay streets have been despoiled this week.
