FAMILY BUDGET By Frederic J. Haskin

[Continued From Editorial Page]

ments and savings. There is no universal consensus of opinion as to how much should be expended on each item, as some people prefer to pay more for rent and less for food, or more for clothes and less for rent, but various schedules have been suggested. An equitable adjustment of incomes from \$1,200 to \$1,600 a year, for example, is given as 30 per cent for food; 23 per cent for rent; clothing 14 per cent; operating expenses 13 per cent; education 6 per cent, luxuries, including amusements, 4 per cent, which leaves 10 per cent to be saved. The majority of persons spend more nearly 10 per cent for luxuries, and as a consequence other things must suffer—usually the savings account.

The thing to do is to make up your mind what means the most to you, and plan the rest of your income accordingly. If you think that education is the most essential thing in life and wish to have your children well educated, you may be able to take 3 per cent out of the luxuries column and 2 per cent off of operating expenses and add them on to education, increasing it to 11 per cent. On the other hand, if you find that your social or business status requires the wearing of good looking clothes, you may be able to cut down your rent or food. In any case, it is the old-time process of robbing Peter to pay Paul, but don't make Peter the savings account.

When a family moves to another city, or even to a different neighborhood, it often requires a readjustment of the family budget. One family including a man and his wife and three children, were living in a small western city on \$200 a month. The cost of living was not as high as in cities of larger size, and their budget was divided into 17 1/2 per cent for rent; 25 per cent for food; 10 per cent for operating expenses; 17 per cent for clothes, and 30 1/2 per cent for education, amusement and savings.

Later, they moved to New York, where they altered their standard of living to 25 per cent for rent; 15 per cent operating expenses, the same 25 per cent for food, which left only 35

WELLY'S CORNER

Baseball fans throughout the State League circuit will anxiously await the results of the opening games in three cities to-day. Some folks predicted that the league would not start. Barring rain, there will be games at York, Lancaster and Reading.

Leo Groome, who with Abraham Rosenbluth started the State League, is in Harrisburg until the baseball season closes. He has been a busy man for five months. As backer of the Harrisburg team he promises a good sport as can be found in Class B. All the responsibilities have been on Mr. Groome's shoulders, and even to-day he was obliged to go to Lancaster before joining Manager Cockill at York.

Players on the Harrisburg team of the State League got together yesterday afternoon. It was the first line-up of the entire squad. According to Walter Blair and Buck Ramsey there are some husky boys who will make good. Bolinsky, a boy from the coal regions proved a big winner at the bat. He was played in the outfield but may go to the infield later.

President William R. Douglass of the Pennsylvania State League held a conference last night with his umpires. He gave them instructions as to their duties and outlined rules for fining players who get bad. The fines, while not heavy, will be factors in a player's standing. Dismissal will also

follow certain violations and as the league will be under protection this will prove serious to offending players.

The first shoot yesterday between the Harrisburg Academy and Tech High teams was a big success. It was witnessed by many local shots who look upon the beginners as comers for future target contests in Harrisburg.

President John G. Martin of the Harrisburg Sportsmen's Association is home from New York City where he made good scores and won prominent recognition. He is now arranging the program for the big State shoot in this city June 23-24 which will be attended by crack shots from all over the United States.

The Blue Ridge League will open to-morrow. Chambersburg and Hagerstown, old rivals, meet on the first day. Martinsburg plays at Frederick and Gettysburg at Hanover. Each team has signed up a big bunch of young players and a successful season is predicted.

The Harrisburg Academy baseball team yesterday defeated Tech high players in the second of a series between these two clubs, score 11 to 5. Most of the Tech hits went for nothing. McLaughlin pitched a good game for the Academy. The next game will be played Tuesday, May 16.

Football Captain Knows Not Sensation of Being Kissed

Athletics and kissing do not seem to go hand in hand, judging from the statistics collected from the senior class of Columbia University. Francis M. Simonds, Jr., captain of last fall's varsity football team and voted the handsomest man in his class, has never felt the touch of maidenly lips. Francis Appleby, famous as a billiardist, is another of the very few who have reached voting age without being kissed. Among the other who have never had the privilege, or discomfort, according to the individual, of being kissed, are the business manager of the Columbia Spectator, an associate editor of the same publication, the mild and modest manager of the Glee Club, a wrestler, a debater, a Chinaman, and a plain, unadorned, hard-working student.

Your Money Buys Quality! Coupons or premiums have never been used as an inducement to smoke Prince Albert! Neither national nor state restrictions on the use of premiums or coupons can in any way affect Prince Albert's sale! It is not to be wondered at that when smokers consider a choice of tobaccos, their tastes—based on quality—instantly turn them to PRINCE ALBERT the national joy smoke. Prince Albert is sold strictly on merit. It is a tobacco of choice quality, and made by an exclusive patented process that does cut out bite and parch! It took three years and a fortune to perfect that process so that today every man with a desire to smoke a pipe or roll his own cigarettes can do so without a comeback, no matter how tender his tongue or throat may be! Your taste and satisfaction is proof that Prince Albert quality is more desirable than coupons or premiums. You buy Prince Albert everywhere tobacco is sold, in tippy red bags, 5c; tidy red tins, 10c; handsome pound and half-pound tin humidors, and in that fine crystal-glass humidior with sponge-moistener top that keeps the tobacco in such perfect condition.
