

The Force of Repetition

Repetition makes or unmakes our National life. Disaster, constantly repeated, terminates in disaster.

Over fifty years ago a few medical men gathered various roots and herbs together and the medicinal qualities extracted proved of great value in treating disorders of the blood.

Give Nature a Helping Hand

In working off the diseased condition unwillingly thrust upon it. You are only retarding a permanent cure when you pour mineral drugs into the system.

A booklet has been prepared giving, in an interesting way, much valuable information about blood disorders.

A New, Harmless Way to Banish Hairy Growth

(Beauty Topics)

By following this suggestion any woman can, in the privacy of her own home, remove every trace of hair or fuzz from her face.

BASEBALL LID IS OFF IN STATE LEAGUE

(Continued From First Page)

GEORGE COCKILL

Games will be played at Reading, Allentown, Pottsville, Shamokin and Paterson. President William E. Douglas, of the State League, who took in the opening game at Lancaster to-day, said:

Put the Magnifying Glass on ALPHA Cement

You will see none of the coarse, under-ground particles that lower binding power and sand-carrying capacity. ALPHA chemists, by hourly tests, make sure that the raw materials are proportioned exactly right.

ALPHA THE GUARANTEED PORTLAND CEMENT

because we know its uniform high quality and know that it can always be depended upon to make concrete that will stand the severest tests.

Be careful to use a guaranteed cement, is the advice of the U. S. Government. ALPHA is guaranteed by the manufacturers and by us to more than meet the U. S. Government standard for strength.

ANECDOTES OF THE FAMOUS Queen Wilhelmina of Holland tells a delightful story about her mother, Queen Emma. The latter's husband, King William, owned a valuable porcelain tea service, and he thought so much of it that he sometimes dismissed any servant who should be unlucky enough to break any part of it.

YOU'LL GET RID OF BLACKHEADS SURE There is one simple, safe and sure way that never fails to get rid of blackheads and to dissolve them. To do this get about two ounces of plain powdered norexin from any drug store—sprinkle a little on a hot, wet sponge—rub over the blackheads briskly—wash the parts and you will be surprised how the blackheads have disappeared. Big blackheads, little blackheads, no matter where they are, simply dissolve and disappear, leaving the pores with whatever whatever blackheads are simply a mixture of dust and dirt and secretions from the body that form in the pores of the skin. Pinching and squeezing only cause irritation, make large pores, and do not get the blackheads out. They become hard. The powdered norexin and the water simply dissolve the blackheads so they wash right out, leaving the pores free and clean and in their natural condition. Anyone troubled with these unsightly blemishes should certainly try this simple method.—Advertisement

ONE DA YA BUTLER who had been in the royal service for many years had the misfortune to smash one of the precious cups, and in an agony of fear he went to Queen Emma and told her what he had done.

"Never mind!" said her majesty. "Stick the cup together with cement and leave the rest to me."

"This was accordingly done, and when the royal family sat down to tea the next day the mended cup was placed close to Queen Emma on the table. Suddenly her majesty turned hastily round to speak to the King, and as she did so she swept the cup on to the floor with her arm. As it crashed into a dozen pieces she pretended to be deeply upset, and said timidly to the King: "There, see what an awkward servant I am! You will have to dismiss me from your service."

Bowman's BELL--1991--UNITED FOUNDED 1871

So humble an occupation as "drain cleaner" is glorified in the play, "A Servant In the House," because he was a good drain cleaner. Whatever the task, pleasure can be found in doing it well.

All Eyes On The Home---The Porch and Round-About
