Governor Denounces People Who Attack Him and Penrose Makes Comments

Governor Brumbaugh, Senator Pen-ose, Senator Vare and other men who are figuring in the Republican primary campaign indulged in much talking yesterday. The Governor made a speech at Reading last night in which he denounced the tactics of those who opposed him, but did not refer to the charges made by Representative Isadore Stern, of Philadelphia; Senator Penrose declared that Speaker Ambler was candidate for Auditor General as the creature of the Gover-nor and the Vares and Senator Vare charged that Senator Charles A. Snyder was a candidate for the same nom-

the interesting history of the college.

The work of college is divided into
five general departments, college proper, academy, music, oratory and art.
More than a thousand students have
graduated from the various departments, and have gone into various professions in practically all the States of
the Union.

In 1994, a disastrous five practically

fessions in practically all the States or the Union.

In 1904, a disastrous fire practically destroyed the college, so that the buildings are all new but two. It has eight modern buildings. The buildings, grounds and equipment are valued at more than \$300,000. The number of students this year is the largest in the history of the institution, 442. About 50 will graduate from the college department this year with the bachelor degree, while twenty to twenty-five others complete courses in the other four departments. The rapid growth in the student body has overcrowded its buildings, so that 40 to 50 students had to be placed in private homes in town.

Governor Brumbaugh, Secretary
Henry Houck, Bishop W. M. Weekley
and Dr. J. A. Lyter will be among the
speakers during commencement week.
