MICHELIN

12 to 15% Extra Weight

When you buy your next tire make this simple test. Let us weigh a Michelin Universal Tire in comparison with any other non-skid of the same size.

You will find the Michelin 12 to 15% heavier than the average, the exact percentage depending on the size of the tires used in the test.

STEELTON NEWS
FIREMEN WILL DISCUSS LOANS

Much Sentiment For Improvement Measures Expressed Among Citizens

Two improvement loans—one for \$55,000 for street paving, the other for \$25,000 for motor fire apparatus and garbage trucks—will be voted upon Tuesday will be thoroughly discussed by members of the various fire companies in the borough this evening and tomorrow.

The Paxtang Hook and Ladder Company members will meet Sunday morning at 10 o'clock and the West Side Hose Company will hold a meeting this evening.

Much sentiment has been expressed by individual firemen in favor of the loans. At least three pieces of apparatus will be purchased with the money available if the loans are passed, and firemen have been assured that it will be only a short time until additional funds will be available to motorize the remaining companies.

Sentiment favors the paving loan because of the rapid strides already taken by the borough to make it one of the best paved in the State. Passage of the paving measure will make sufficient funds available to pave practically every thoroughfare of importance in Steelton.

MIDDLETOWN

Middletown Auto Club Will Participate in Good Roads Movement

At a meeting of the Middletown Auto Club held last evening plans were discussed for the club's participation in the State-wide movement to work on the roads on Thursday, May 25.

Several members announced their willingness to put in the day with pick and shovel while others volunteered to furnish men in their places. The club also voted to supply Lower Swatara township with two drain pipes to be used opposite Goose Island.

The secretary was instructed to communicate with the authorities in High-spire as to whether the borough contemplates repairing the stretch of road at the eastern end of the town. This piece of road is in miserable shape and in its present condition is said to be a menace to the traveling public.

The Harrisburg auto club also will be asked to co-operate with the local motorists in their efforts to have the road fixed.

Husband Extinguishes Flames Which Envelop Wife; Gasoline Ignites

Mr. and Mrs. John W. Few narrowly escaped serious injury when a bucket of gasoline in which the latter was cleaning a skirt took fire from the friction caused by rubbing the garment and blazed up in their faces. Although enveloped in flames, Mr. Few retained presence of mind and, throwing his wife to the floor, seized a rug and rolled her in it. He was successful in subduing the flames before either one of them was badly burned and then ran for a fire extinguisher. Returning to the room, he found flames shooting as high as the ceiling and two pieces of furniture already burning. Quick work with the extinguisher smothered the blaze.
