of his new suit. It's a beauty. Sure, it is, fellows, because it came from the New Store of Wm. Strouse. Say, you boys, come in to see me, let's talk about fishing, marbles, and baseball. Of course, I like to talk about our suits—they're swell, and if you buy a suit you get a fine watch or a good bat and ball—and you know our suits with two pairs of pants cost only \$5, \$6.50 and \$7.50. And don't forget our Khaki pants at 50c, just the thing for "roughin it"—and there's a lot of other nice things—shirts, straw hats and everything a boy wears. I hope you boys all read "When a Feller Needs a Friend," for it takes a lot of time to write them. Yours,

STEEL CO. FILES ANSWER TO SUIT CHIEF INTEREST IN TWO LOANS

Denies Combine Will Be Monopoly; Says Income Is \$700,000 Monthly

Trenton, N. J., May 16.—The Pennsylvania Steel Company, a New Jersey corporation, to-day filed in the Federal court its answer to the suit of Joseph H. Brandt, of Philadelphia, to restrain the company from selling its properties to the Bethlehem Steel Company.

The answer admits that the products of the two companies are similar to some extent, but denies that the products of the Pennsylvania Steel Company, of Pennsylvania, and the Maryland Steel Company, subsidiaries of the New Jersey corporation, are in competition with the Bethlehem company to such an extent as to render their acquisition illegal.

It is specifically denied that the intent of the proposed merger is to create a monopoly or to substantially lessen competition.

It is admitted that the net income of the parent corporation and subsidiaries during the past three months ending March 31 was over \$700,000 a month and that no dividends have been declared.

Attached to the answer is a balance sheet dated December 31, 1915, for the parent corporation, showing assets of \$4,008,436.07. The combined balance sheet, including subsidiary companies, shows assets of \$55,752,098.86. The petition for a permanent injunction to restrain the sale will be heard in Newark next Monday.

PRESENTED WITH WATCH

Employees in the Frog and Switch department at the steel works presented William M. Henderson, who recently resigned, with a gold watch at his home, 2005 Green street, Harrisburg.

An item of \$400 in the budget is for an extension to the borough building. The Park Commission was granted an additional \$400 making a total of \$600 for improvements and maintenance. The high committee was instructed to furnish lines and grade to the property owners of Mill and Poplar streets in order that they may lay sidewalks. The firemen's convention committee was exonerated from paying a license for a show to be given May 29. Council will view the site of the new Pennsylvania bridge this evening. Minor changes in the plans may be suggested.

Light Vote in Borough; Returns Are Likely to Be Late

Rainy skies brought joy to those who are working for the passage of the two improvement loans balloted upon in Steelton to-day. While it is likely that the showers and chilly weather will deter many from going to the polls, it will permit many others who otherwise would not vote to get out. It is these, it is believed, will help pass the loans.

To-day's vote will be one of the lightest ever polled in the borough. It is not likely more than half the usual number of ballots will be cast. The complicated ticket and the presence of a number of local men thereon will make the returns late.

Were it not for the two loans, interest in to-day's contests here would be exceedingly slight. As it is, there is considerable interest in the result, and workers are busy lining up friends. While the result will likely be close, polls during this morning were unanimously predicting approval of both loans, with the fire apparatus item leading.

EXPLAINS WHY MEN ARE GROWING BALD

Thousands of men are growing bald every day and don't know the reason why. Many of them never expect to save even what hair is left. This is indeed a pity, says a hair specialist, who claims that baldness usually comes from carelessness, and that anyone who gives the hair just a little attention should always have an abundance of good, healthy hair. Dandruff and dirt help to cause baldness by clogging the pores in the scalp, and giving the dandruff germs fertile ground for prolific breeding. The treatment is very simple; shampoo the hair at least once in ten days and destroy the dandruff germs by frequently applying Parisian Sage, a delightfully efficient preparation that the best druggists everywhere are now recommending as one of the quickest and surest treatments to stop itching, scalp and falling hair, remove a dandruff and to refresh and invigorate the hair roots. Parisian Sage is also the discriminating woman's favorite hair dressing because it gives her hair a softness and lustre that fascinates and commands admiration. A generous bottle costs but little from H. C. Kennedy, who guarantees it to you.

ASKS \$1,000 FOR EACH UGLY WORD

Five slurring words which Tomo Pavovic uttered against his one-time friend, John Slavonic, wounded John's feelings just one thousand dollars worth each, according to the suit for

slander which John began to-day against Tomo in the Dauphin county courts. "John Slavonic—a swindler and cheater," were the five baleful words. Slavonic's suit for damages filed to-day asks for \$5,000.

ten to fourteen days' time simply by taking iron in the proper form. And this after they had in some cases been doctoring for months without obtaining any benefit. But don't take the old forms of reduced iron, iron acetate, tincture of iron simply to save a few cents. You must take iron in a form that can be easily absorbed and assimilated like nuxated iron if you want it to do you any good, otherwise it may do you worse than use. Many of the athletes or prize fighter has won the day simply because he knew the secret of great strength and endurance and filled his blood with iron before he went into the fray, while many another has gone down to inglorious defeat simply for the lack of iron.

NOTE—Nuxated Iron recommended above by Dr. Sauer, is one of the newest organic iron compounds. Unlike the older inorganic iron products, it is easily assimilated, does not injure the stomach, does not make the patient feel as if he were taking a dose of medicine, and it is a most potent remedy in nearly all forms of indigestion, as well as for nervous, rundown conditions. The Manufacturers have such great confidence in Nuxated Iron that they offer to forfeit \$100.00 to any charitable institution if they cannot take any man or woman under 60 who lacks iron and increase their strength 200 per cent. or over in four weeks' time provided they have no serious organic trouble. They also offer to refund your money if it does not at least double your strength and endurance in ten days' time. It is dispensed in this city by Croll Keller, G. A. Gargas, and all other druggists. —Advertisement.
